

WRIGHT COUNTY BOARD
AGENDA
MAY 17, 2016

Interpreter Services for the hearing impaired will be provided upon written request.

I. 9:00 A.M. PLEDGE OF ALLEGIANCE

II. MINUTES - DISPENSE WITH READING. APPROVE AS WRITTEN/REVISED.

A. COUNTY BOARD MINUTES 5-10-16

Documents: [2016-05-10 WRIGHT COUNTY BOARD MINUTES \(INFO\).PDF](#)

III. REVIEW & APPROVAL OF AGENDA

IV. CONSENT AGENDA

A. ADMINISTRATION

1. Request Approval Of MOA With AFSCME Unit Regarding Use Of Accrued Vacation After Six (6) Months Of Employment

Documents: [051716.AGENDAFORM_MOA.AFSCME.ARTICLE18.2.PDF](#), [MOA - ARTICLE 18.2 PROBATIONARYPERIOD_ACCUMULATION.PDF](#)

B. ADMINISTRATION

1. Request For Extended Non-Medical Employee Personal Leave Per Wright County Personnel Policy 602.3 Personal Leave

Documents: [051716AGENDAFORM_REQUESTFOREXTENDEDPERSONALLEAVE.PDF](#)

C. ADMINISTRATION

1. Schedule Committee Of The Whole Meeting For Recorder Interviews On 6-15-16 From 9:30 AM To 11:30 AM

Documents: [051716.AGENDAFORM_RECORDERRINTERVIEWS.PDF](#)

D. ADMINISTRATION

1. Refer CHIPS (Children In Need Of Protective Services) Contract To 5-25-16 Ways & Means Committee Meeting

E. ASSESSOR

1. Approve Abatement, PID #101-062-001010, David & Terri Hobza

Documents: [BA - ABATEMENT - 101-062-001010.PDF](#)

F. ATTORNEY

1. Schedule Public Hearing For Amendments To The Wright County Water Surface Use Ordinance On 6-14-16 At 9:30 AM

Documents: [AGENDA REQUEST - MAY 17, 2016.PDF](#)

G. AUDITOR/TREASURER

1. Approve Claims As Listed In The Abstract, Subject To Audit, For A Total Of \$1,518,033.87 With 149 Vendors And 239 Transactions

Documents: [AGENDA 5-17 CONSENT CLAIMS.PDF](#)

H. HEALTH & HUMAN SERVICES

1. Position Replacement
 - A. Public Health Nurse

Documents: [2016-05-17 WC REQUEST FOR BOARD ACTION - PHN.PDF](#)

I. INFORMATION TECHNOLOGY

1. Refer To The May 25th Technology Committee:
 - A. Board Video Retention
 - B. RightFax
 - C. Office 365

Documents: [BOARD ACTION IT REQUEST TECH COMMITTEE MAY 2016.PDF](#)

V. TIMED AGENDA ITEMS

A. 9:05 A.M. SHERIFF JOE HAGERTY AND SERGEANT RYAN FERGUSON, SHERIFF'S OFFICE

1. Approve Resolution Proclaiming The Week Of May 15-21, 2016 As Wright County Law Enforcement Officers Week.
2. Sheriff Hagerty Will Present Awards To Local Law Enforcement Officers And Citizens.

Documents: [04-12-16 REQUEST FOR BOARD ACTION - WCSO AWARD PRESENTATION POLICE WEEK.PDF](#), [04-12-16 RESOLUTION PROCLAIMING MAY 15TH THROUGH 21ST AS LAW ENFORCEMENT OFFICERS WEEK.PDF](#)

B. 9:25 A.M. ROBERT HIIVALA, AUDITOR/TREASURER

1. Approve SeaChange Election Services Agreement.

Documents: [AGENDA 5-17 APPROVE SEACHANGE ELECTION SERVICES AGREEMENT.PDF](#), [SEACHANGE 2016 AGREEMENT.PDF](#)

C. 9:30 A.M. CATHLEEN GABRIEL, CGW LAW OFFICE

1. Report On 2015 Child Protection Cases In Wright County

Documents: [2015 CHILD PROTECTION CASES REPORT.PDF](#)

D. 9:40 A.M. VIRGIL HAWKINS, HIGHWAY ENGINEER

1. Accept 2015 Highway Department Annual Report
2. Approve/Act On Recommendations Owners Committee Meeting - April 7, 2016
3. Set Transportation Committee Of The Whole Meeting To Discuss Transportation Items

Documents: [05-17-16 ACCEPT ANN REPORT.PDF](#), [05-17-16 APPROVE OWNERS COMMITTEE 04-07-16.PDF](#), [05-17-16 SET TCOTW MEETING.PDF](#)

E. 9:55 A.M. SEAN RILEY, PLANNING & ZONING ADMINISTRATOR

1. Update On Solar Farm Work Group

Documents: [5-17 COUNTY BOARD AGENDA- SOLAR FARM WORK GROUP.PDF](#), [SOLAR WORK GROUP INTERESTED PARTIES.PDF](#)

VI. ITEMS FOR CONSIDERATION

A. COMMITTEE MINUTES

1. Building, Personnel, Ways & Means

Documents: [2016-05-10 BUILDING COMMITTEE MINUTES AND ATTACHMENTS.PDF](#), [2016-05-10 PERSONNEL COMMITTEE MINUTES -](#)

[COUNTY BOARD.PDF](#), [5-10-16 WAYS AND MEANS COMMITTEE MINUTES AND ATTACHMENTS.PDF](#)

B. UPDATE ON DITCH 31

Documents: [5-17-16 UPDATE ON DITCH 31.PDF](#), [PHOTOS FROM ANDY THORSON.PDF](#), [DITCH INSPECTOR HANDOUT.PDF](#), [WOODLAND TOWNSHIP LETTER.PDF](#)

C. COURTS FEASIBILITY STUDY UPDATE

Documents: [5-17-16 COURTS FEASIBILITY STUDY UPDATE.PDF](#), [EXECUTIVE SUMMARY.PDF](#)

VII. ADVISORY COMMITTEE / ADVISORY BOARD UPDATES

VIII. ADJOURNMENT

IX. NOTE: BUILDING COMMITTEE MEETING AT 10:30 A.M.

X. CLAIMS LISTING

Documents: [AUDIT LIST FOR BOARD 5-17-2016.PDF](#)

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

INFORMATIONAL

WRIGHT COUNTY BOARD
MINUTES
MAY 10, 2016

The Wright County Board met in regular session at 9:00 A.M. with Husom, Sawatzke, Daleiden, Potter and Borrell present.

MINUTES

Husom moved to approve the 5-03-16 County Board Minutes, seconded by Potter. The motion carried 5-0.

AGENDA

Daleiden moved to approve the Agenda as presented, seconded by Borrell, and carried 5-0.

CONSENT AGENDA

Daleiden moved to approve the Consent Agenda as amended, seconded by Husom. The motion carried 5-0:

- A. ADMINISTRATION
 - 1. Approve Charitable Gambling Application Form LG220, St. John's Catholic Church, St. John's Education Center, 17260 Hwy. 12, Cokato MN 55321 (Cokato Twp.).
- B. ADMINISTRATION
 - 1. Refer PWB Deferred Maintenance and Remodel to Building Committee to be held on 5-17-16 at 10:30 AM
- C. AUDITOR/TREASURER
 - 1. Approve Renewal of Annual Club On Sale Liquor License for Cokato Town & Country Club
- D. AUDITOR/TREASURER
 - 1. Approve Claims as Listed in the Abstract, Subject to Audit, for a Total of \$461,901.17 with 265 Vendors and 398 Transactions
- E. HEALTH & HUMAN SERVICES
 - 1. Position Replacement
 - A. Financial Worker
- F. HIGHWAY
 - 1. Approval of Wright County Highway Right-of-Way Plat No. 71 for CSAH 3 Construction Project
- G. HIGHWAY
 - 1. Approve renewal of agreement with Functional Industries for use of wash bay at the current Public Works Building.
- H. SHERIFF'S OFFICE
 - 1. Position Replacement:
 - A. Deputy
- I. SHERIFF'S OFFICE
 - 1. Authorize Signatures On The 2016 Federal Supplemental Boating Safety Patrol Grant Agreement

TIMED AGENDA ITEMS

BOB HIIVALA, AUDITOR/TREASURER

Information Only: Replacing Folding Equipment and Acquiring Software from Neopost to Reduce the Cost of Certified Mail Processing

The postage equipment will be upgraded which will result in lower monthly costs and the ability to track certified mail. Hiivala plans to sign the contract as it is under budget. This was provided as an informational item.

VIRGIL HAWKINS, HIGHWAY ENGINEER

Distribution of 2015 Annual Report

The Annual Report will be placed on the next Agenda for review and approval.

Award 2016 Overlay (Part 2) to Knife River

Potter moved to award the 2016 Overlay (Part 2) Contract to Knife River in the amount of \$654,736.99 (low bid), Contact #1608. The motion was seconded by Daleiden and carried unanimously. Project funding will be 100% local levy dollars.

Approve Final Payment to Structural Specialties for Rockwood Bridge Project

Husom moved to adopt Resolution #16-27 authorizing final payment to Structural Specialties (Hutchinson) in the amount of \$23,268.45 for the Rockwood Bridge Project in Southside Township, Contract #1451. The motion was seconded by Potter and carried 5-0 on a roll call vote.

Approve Final Payment to Knife River for 2015 Overlays

Daleiden moved to adopt Resolution #16-28 authorizing final payment to Knife River (Sauk Rapids) in the amount of \$211,358.33 for the 2015 Pavement Preservation Program, Contract #1501. The motion was seconded by Borrell and carried 5-0 on a roll call vote.

MIKE MACMILLAN - DIRECTOR OF COURT SERVICES

Drug Court Informational Session

Mike MacMillan and Judge Michelle Davis presented information WCADC (Wright County Adult Drug Court), a new initiative in Wright County. A team of criminal justice partners committed to addressing problems that persist in traditional probation or treatment alone are working together to break the cycle of recidivism among drug addicted offenders in the court system. Drug Court changes lives, prevents crime, and reduces costs. It significantly reduces crime as much as 45% more than other sentencing options. Nationwide, 75% of drug court graduates remain arrest free at least two years after leaving the program versus 30% of prisoners. Nationwide, for every \$1.00 in Drug Court, taxpayers save as much as \$3.36 in avoided criminal justice costs alone or a total of \$32.3 billion annually. This was provided as an informational item.

The meeting recessed at 9:36 A.M. and reconvened at 9:42 A.M.

PUBLIC HEARING – RESOLUTION, EMERGENCY MORATORIUM ON SOLAR FARMS

Sean Riley, Planning & Zoning Administrator, said the County Board adopted a resolution three weeks ago imposing an emergency moratorium on solar farms. Riley provided copies of written input received from the public, Wright Hennepin Electric, and Rob Davis-Fresh Energy. The resolution being considered today would impose a moratorium for a period not to exceed 12 months and applies to solar energy farms, not solar energy systems. Solar energy systems are the household solar panels for residential and agricultural use, no more than 100 kilowatts, and a CUP may be required dependent on size.

Borrell questioned whether townships that perform their own planning and zoning can be excluded from the moratorium. Greg Kryzer, Assistant County Attorney, stated the moratorium would be County wide. Those townships that have their own planning and zoning must be as least as restrictive as the County. If the moratorium is voted down today, townships can implement their own moratorium as that would be more restrictive. The moratorium will not apply to cities.

Kryzer stated the Monticello Orderly Annexation Area (MOAA) has determined through their Joint Powers Agreement that they have their own ordinance capability. They set their own zoning ordinance within their orderly annexation area. The MOAA Board would make the determination on solar panels and to what extent they are allowed. So far, they have not adopted a solar panel ordinance so solar panels would not be allowed in the MOAA. With regard to the Clearwater Orderly Annexation Area (COAA), Kryzer is not sure whether they have the same ordinance enabling language so the County's Ordinance may apply.

The Public Hearing opened at 9:47 A.M.

Evan Carlson, Innovative Power, said their company works with solar garden projects. He asked that the focus of discussion be kept on topic, that being how the County Solar Ordinance will affect community solar gardens. He thinks the Ordinance is good and is based on information that was gathered. It allows projects to be approved or denied based on input provided at the township and County level. He said there are many great projects that will not go through if the moratorium is enacted. Carlson said the facts about how many solar gardens there are might

be misinterpreted. In Wright County, he said there are 4 community gardens approved. This does not equate to a frenzy or flurry. Aurora Projects are approved at the State level and are not presented for approval to a township or the County. Solar gardens provide a benefit to residents in the form of a reduction in their power bill. Another important piece is that after the solar garden is decommissioned, the land can be returned to its original purpose.

Borrell serves on the Wright County Planning Commission. Information was provided on the Aurora Project that the land would be returned to its original use. However, with the site in Buffalo Township, dirt has been removed, trees clear cut, power poles placed in the middle of ditches, and gravel has been brought in for roads. That site will not be prime farm land in the future. Companies will need to map the tile systems for sites so they do not inadvertently create a wetland preventing the land being returned to farmland. He said there has been a learning curve with solar, and there virtually was no input on the Aurora Project. Carlson said those are reasonable concerns that could be attached to a CUP. Innovative Power's projects are not like that. They use pollenating plants for erosion control. Sawatzke responded that the County may need to take a second look at the Ordinance as some things may have been overlooked.

Sawatzke asked for the number of properties Wright County Planning & Zoning has received a request for information on that are relative to the potential of a solar project. Riley stated over the past two years, they have received initial requests for about 4-5 dozen properties in Wright County's jurisdiction including some in the MOAA.

Potter asked for clarification on the definition of solar garden, farm, and array. Riley understands that a 'solar garden' originates from legislation at the State level allowing a solar garden program and is defined as 1 megawatt. There was some debate on what size a solar garden could be. When Wright County approved the Zoning Ordinance Amendment, it was decided to use the term 'solar farm' with a limit of 10 megawatts on a site. With 'solar systems', the definition is up to 100 kilowatts on a farm and up to 10 kilowatts for residential zoning, and a permit is required. This would not be affected by the moratorium. For the most part, it allows individuals to have an accessory solar system. Riley said the Zoning Ordinance defines that a solar farm is greater than 100 kilowatts and is limited to 10 megawatts. It was clarified that solar farm is defined in the Wright County Zoning Ordinance and solar garden is a term in State Statute.

Daleiden questioned how many have submitted an initial application and are in front of the Planning Commission. Riley responded that there are 4 approved and 2 being decided on. In addition, there are 3 Aurora Projects in the County (not permitted by the County). There are projects in St. Michael and Otsego which do not fall under the County's Ordinance. Riley thought approval has been granted for about 100 megawatts County wide.

Dan Kyllonen, Middleville Township Planning/Zoning Administrator. Kyllonen said Middleville Township has been working on a project with Wright Hennepin for close to a year. Public hearings have occurred and they are ready to move forward. He inquired whether the moratorium will stop the project. Kryzer said it depends on the status of the application (whether the application precedes today's action). Sawatzke suggested Kyllonen contact the County Attorney's Office to determine this.

Greg Froelke, Novel Energy and MN Community Solar, St. Cloud. Froelke voiced opposition to the moratorium. Their company is looking at a site in Franklin Township. He stated there can only be a certain number of solar gardens, as there is a capacity limit on substations. The capacity will be reached quickly unless more substations are built. Another limitation is the interconnection expense. There may be projects applied for but may not succeed due to expense. He said it would be fair to consider projects individually to include location. Their projects result in clean energy, savings, and allow residents access to a community energy garden counties away. Froelke supported moving ahead with the community solar garden program. The program has been delayed for 3 years, and he did not see where a moratorium would do anyone any good.

Representative Marion O'Neill. Rep. O'Neill represents Buffalo, Monticello and Maple Lake at the State Legislature, and serves on the State's Energy Committee. This topic has been in the forefront over the past couple of years. Rep. O'Neill said there are two types of solar. The first is the community solar garden, which by law was supposed to be 1 megawatt (equivalent to about 10 acres). Court cases changed the definition to a series of up to 5 megawatts in State Statute.

The second type are the Aurora solar projects (utility scale solar) that fall under the 1.5% mandate the State imposed on Excel Energy, Minnesota Power, and Ottertail Power. The Aurora Solar Project includes 16 sites with 3 sites in Wright County.

Rep. O'Neill stated that Excel Energy has changed their resource plan from 100 megawatts to 2,400 megawatts of solar. That is in excess of the 1.5% mandate and equates to 24,000 acres of land coming out of production for something. Solar companies indicate it is not acceptable to utilize a less desirable piece of land used for the projects, such as a gravel pit, but do not indicate why. The projects have ended up on prime agricultural land in Wright County. This is continuing to happen throughout the State.

Borrell questioned the data Rep. O'Neill cited. He said the acreage required to generate 1 megawatt is 5 acres. With 100 megawatts that would equate to 5,000 acres. Rep. O'Neill responded the figure of 1 megawatt = 10 acres comes from Geronimo (Aurora Projects) and 2,400 megawatts has been cited in the new Excel Energy resource plan.

Duane Bauman, Franklin Township Supervisor. Bauman supports passing the moratorium to allow more study. This was recently done in Carver County. Prime agricultural land is being used and companies do not want to answer why. He did not think land used for growing crops or raising cattle should be used, and thinks there is other suitable land.

Don Schmidt, Buffalo Township Supervisor. Schmidt said Buffalo Township wholeheartedly supports the moratorium to slow things down. Two of the large projects will be coming on line by the end of the year. It will allow a test to see whether companies are good neighbors. So far, that is not the case with the Aurora Project in Buffalo Township. It will also provide an opportunity to see how receptive residents are and to consider what the Township and County want to do. Schmidt said reference has been made to returning the land to farmland in 25 years and that the land will be as good as the day it was taken for a solar project. There hasn't been that test of time to see what the results are after 25 years. Schmidt's opinion is that the land will not be what it was like previously.

Ron Bowen, Prairie Restorations. Bowen is the President/Owner of the company, which serves the Midwest. The company restores wetlands and prairies. He suggested looking at potential benefits to the land. His company works with pollinator planting. Plants produce energy but there is also a new need for insect and wildlife populations. He viewed this as a great opportunity State wide. This could be a requirement by the County. Husom questioned whether studies have been performed on the impact of the solar panel hum on bees. Bowen said the U of M is currently studying bees at their farm in Princeton. The real issue is that honey bees are not native to North America and feed on European plants. Bumble bees and other insects are native pollinators and feed on native plants. This would provide a potential benefit.

Dean Leischow, Sunrise Energy Systems. Leischow referenced the 86,000 square miles of land in Minnesota. Even if the 24,000 acres of proposed solar comes to fruition, it represents less than 1/10 of 1% of the land in Wright County. He is of the opinion that the magnitude of the problem is completely overblown. Leischow participated in the permitting process and felt that went well. It keeps the permitting for community solar gardens with the County. Conditions can be improved upon moving forward. He did not feel the moratorium would buy the County anything, as the large solar projects will go through with approval by the Public Utilities Commission (PUC).

With reference to having a voice with the PUC on these projects, Leischow suggested having State officials meet with the PUC to voice concerns. Borrell said Sunrise Energy Systems brought forth information to the Planning Commission on potential concerns, including the interconnection issue. Daleiden asked whether the County has heard back from the PUC in response to a letter sent voicing concerns with the Aurora Project in Buffalo Township. Lee Kelly, County Coordinator, said that the PUC has not responded but an Aurora Project representative emailed today indicating the County can contact them. Leischow said it is important to let the PUC know that Wright County has an Ordinance and that the County wants them to use it.

Sawatzke stated that Wright County has the responsibility to do the right thing and hopefully that is being done across the country. In Wright County, it may not seem like much if less than 1% of farm land is solar. However, to find alternate locations would be doing it better; if prime agricultural land is used, assuring it that it will be viable

for farming in the future. Sawatzke referenced comments by Rep. O'Neill about 24,000 acres being used in the State and stated that equates to about 1.25 million acres in the nation. Less viable property could be used versus taking the land out of good production. He hopes that this type of discussion is being held at Boards through the nation to make sure the land is protected.

Alan Johnson, Woodland Township. Johnson said many of the points brought forth were what he was going to voice himself. He said the Board is intent on doing the best thing for Wright County. The moratorium will allow review. He referenced the 3-17-16 Planning Commission meeting where Commissioner Borrell commented that the farmland involved in Woodland Township is some of the finest in the State. Johnson said this comes down to bidding solar against farmland. Land rental rates are 1/3 of what the solar industry is willing to pay. He added that there is not a place in the U.S. that takes used solar panels. He asked whether the County is allowing prime land to become hazardous dumps in the future. A moratorium would allow time to look into this further. Johnson closed by reading the Wright County Mission Statement, "To preserve and enhance the quality of life of its citizens by providing quality service, through a participatory process, that holds the welfare of its citizens and their environment as its primary objective."

Colleen Hollinger, Prairie Restorations. Hollinger said while it may see advantageous to place solar farms in gravel pits, those are generally remote locations far from substations. She asked if a young farmer did with the land what Aurora did, in order to bring more land into agricultural production, whether there would be a request for a moratorium. The response was that there are limitations on clear cutting and being involved in the farm program. Hollinger said Stearns County held a similar meeting recently. The idea was discussed of potentially asking solar developers to be good neighbors by planting with prairie plants. This releases carbon into the soil which helps with maintaining the land in case it is returned to farming. It may also help with pollination of crops on adjacent properties. She suggested tall prairie grasses for buffers. Stearns County tabled the issue and are setting up a short-term task force.

Karen Edwards, Woodland Township. Edwards said the mission should be about preserving land and listening to residents. Those that have spoken in favor thus far are those making money, not those that have lived on family farms that have gone through generations. Companies involved with the Aurora Project in Buffalo Township are from Italy and Greece. Land is being given to people who could care less about the properties, and the energy created is not benefiting Wright County residents.

Edwards referenced a project at 70th Street and Dempsey and asked that the project be included in the moratorium. She referenced a study that targets those leasing or selling land for solar farms. Some of the points brought forward include: Solar is not a farm but a factory and power plant; solar farms will change the future productivity of the land; solar panels contain chemicals and lead which could leach into farm land if the panel is broken; and it is unlikely that the land will be farmed again due to the lost productivity and change in the land. Business is dependent on farming as well (seed, fertilizer, chemical, hardware & lumber, equipment manufacturers, etc.). Decommissioning needs to be addressed. She attempted but could not locate Minnesota Solar on the internet. An Excel Energy articles states that Excel will not take responsibility for any claims or contracts for solar operators. Excel has released their name and logo for use. In addition, solar farms are not good use of land and are inefficient in producing energy. She said the reason it is a viable project is because of generous tax credits, the waiving of property taxes, zero interest start up loans, and federal/state mandates.

Edwards cited an article by the US Fish & Wildlife Service reflecting bird deaths associated with solar sites. The plants are now under federal investigation. Edwards referenced the approved project near Dempsey and 70th Street that would surround a property with panels (50' setback). Sawatzke explained that the County Board can't include a project in the moratorium if it has been approved. The Planning Commission can address what types of conditions to place on the project. Edwards referenced an article on the panel manufacturing which reflects that solar farms are mostly erected on surfaces that are not suitable for agriculture (landfills, former military areas, abandoned mining sites, industrial properties, commercial wastelands, and desert regions).

John Czantskowski, Franklin Township Supervisor, supports the solar moratorium. He said solar goes against the City of Delano's Land Use Plan and the Township's Land Use Plan. Overwhelmingly, the residents that come to meetings don't want solar farms, and he said they should listen to those that live in this area. Regarding farm land and the comment that it can return to that use, Czantskowski said those farmers will be gone in 25 years. He

conversed with an electrician who indicated that when subsidies are gone, the solar panels can't pay for themselves. Czantskowski said that it is time that government be brought back to the local people and not listen to unelected officials like the PUC. He restated that he supports the moratorium to provide more time to obtain more information.

David Holland. Holland owns 40 acres below a proposed solar area. He said this discussion is not about solar versus non solar; solar is good for the environment. However, he said the proposed site is ludicrous. It is prime farm land. For 30 years he has planted trees and seedlings on his property. Those involved with the solar industry are in it for the money. There is the potential for solar companies to file bankruptcy and then taxpayers will be responsible for the site. Holland said that if this goes through, he will consider placing a casino on his 40 acres which will bring jobs to the area. He said the Commissioners are elected to do the right thing. Sawatzke clarified that if a project was applied for prior to the Public Hearing today, the moratorium will not apply.

Julie Mader, Woodland Township. Mader inquired about health impacts to residents given the impact of solar on birds, insects and cattle. She lives in an area where a project was approved by the County. A hearing was held but potential health issues were not discussed. Mader supports the moratorium, and thinks the companies in support of solar are looking at the financial gain. It has been proven that solar panels are not very efficient.

Andy Melka, Minnesota Solar Connection. Melka said Minnesota Solar Connection has no Minnesota projects. He referenced a USDA Farm Report from 6-30-15 which reflects that in 2013, Minnesota had 19,450,000 acres planted; in 2015, that number had grown to 20,630,000 acres. There are many different drivers of the agricultural market (worldwide commodity prices, weather, and technology). Farmers are making the decision voluntarily to lease the land as they can make more money than farming the land.

Harlan Anderson, Cokato Township. Anderson said his family is planting their 147th crop this year with two generations to follow. He extended appreciation to the Board and to Planning & Zoning for their efforts both now and in the past. Anderson went on to say that farmers are being used as pawns in this situation, with statements being made about taking care of the farmers. He referenced the million acres of land affected by buffer strip legislation with no compensation to farmers and no way for farmers to have input. He said that instead of worrying about the farmers and saving agricultural land, it would be good to find out what the special interest is of those involved. Anderson is confident in the rules set by the County and lives by those rules. If there is an ordinance on solar panels, he said it should be followed. Townships have a right to a moratorium if they choose differently. He asked the Board to be cautious with the PUC. If a moratorium is implemented, then the PUC may proceed with approval of Aurora projects. As a farmer, Anderson said he is not opposed to panels. Alternative energies need to be looked into.

Steve Nisbitt, Wright Hennepin Electric, Rockford MN. Nisbitt said Wright Hennepin is not part of the Excel Community Solar Garden Program. Wright Hennepin has no State mandate for solar projects. The solar projects they are working on are based on the request of members. He said 24,000 of the 50,000 cooperative consumers are located in Wright County, with 63% expressing an interest in having solar power as part of the future. Nisbitt said Wright Hennepin Electric has been in the County since 1936 and will be here through the life of the panels and beyond. A memorandum was submitted by Wright Hennepin to the Board for consideration to allow smaller scale projects to proceed that are low impact for farmers, are close to substations, and do not involve clear cutting. Two Wright Hennepin sites will be affected by the moratorium. They are within 400' of a substation and both take up 10 acres. Regarding the project in Middleville Township, CUP approval was received from the Township. Because the property does not have an entitlement, they are waiting for the decision by Wright County for restricted parcels to move forward. The site in Maple Lake Township would be affected by this.

Chuck Beisner, SunShare, Community Solar Developer, Minneapolis. Beisner said the Ordinance in place is good, and conditions can be imposed if needed. He requested the Board not impose a moratorium. If the Ordinance needs to be changed, he asked that Wright County form a task force. Borrell is unsure whether the Ordinance will change, but feels there needs to be review on conditions that can be imposed. Some of the conditions that should be looked at are possibly using membranes when placing gravel, bonding, and reclamation. Husom stated that in the history of the Land Use Plan, 3 years is a short period of time. It is a completely new industry that wasn't anticipated 3 years ago. Potter stated there needs to be local control. The PUC is bypassing local officials.

Jerry Mcraith, Waverly. Mcraith asked that consideration be given to the safety of neighboring property owners and how solar panels will affect property values. Sawatzke responded that those items can be discussed as part of the CUP approval process.

Scott Johnson, Excel Energy Community Relations Manager. Johnson stated that Excel is not leasing the company name or logo to any community developer. Excel is taking action on those that are using their name. Businesses are their own entity applying to use the community solar program. There are two programs including the utility based program and the community solar program. Johnson participated on solar breakout sessions in McLeod County that worked well.

Sawatzke referenced the Aurora Project in Excel territory in Buffalo Township and asked the power poles in the road right of ways. Johnson did not know the specifics of the project but was informed the 10 poles referenced were separate from the existing power poles in case of issues with the substation. They do not want to interrupt power to other consumers. Sawatzke said the poles on Eaken Avenue were not supposed to be there and are far into the road right of way. He asked whether that can be corrected. Johnson said that on the site, he understands those facilities have to be underground. Excel's practice is to put the poles along the edge of the road right of way but understands trees may have impacted the pole location. Those poles are not part of the State's permitting process as they are outside of the site. It is part of the permitting process through the Township. Board members conveyed that they would like Johnson to assure communications occur between Excel Energy and Buffalo Township.

DeWayne Bauman, Franklin Township Supervisor. Bauman said that Gordy Simonson of Solar Stone offered his assistance with Franklin Township's moratorium. Bauman feels it is important to keep the moratorium going to get a handle on things. He was approached by Minnesota Solar after the last Planning & Zoning Meeting with a question on what they need to do. Bauman said going forward in 2017-2018, the requests should not involve prime agricultural land.

Greg Froelke, Novel Energy and MN Community Solar, St. Cloud. Froelke said the location is limited for placement of solar to make them financially viable. Because of this, he does not feel there will be endless sites that can be developed. He offered the suggestion of a dual use property. Two of their locations near St. Cloud include a cemetery and an abandoned parcel. The reason it is desirable to locate near a power station is economics. Froelke said it doesn't make sense to have a blanket moratorium to cover everything. There will be solar, it is just a matter of when. He referenced solar in Colorado and at St. John's University in Minnesota (1 megawatt). At St. Johns, there have not been dead birds or animals. While on a recent tour of the site, he heard a hum from the tracking system but viewed it as a lot less noise than the nearby freeway. Borrell stated the County Board and members of the Planning Commission toured the site at St. John's. The inverter does make noise but probably can't be heard 100' away. He is unsure of the impacts on bees.

Pauline Stoll. Owns property next to an approved solar location. In response to Stoll, Sawatzke said that if the site has been permitted prior to the moratorium, the moratorium will not apply. Riley stated that panels can be installed 50' of the property line but the Planning Commission can require more distance. Riley provided his contact information to Stoll.

Don Schmidt, Buffalo Township Supervisor. Schmidt referenced a large project approved north of Buffalo (not the Aurora project) which went before the Planning Commission. He stated Buffalo Township was adamantly opposed from the beginning. At the Planning Commission level, two members were also adamantly opposed. One member was absent so there was a tie vote. Eventually the vote passed 5:2, against the wishes of the Township. Schmidt said the reason Planning Commission members gave was the applicants met the criteria so they had to vote for approval. Schmidt said it takes the control out of their hands. If denied, the applicants would have the option of District Court. Sawatzke said that is why the Ordinance needs to be amended. Right now, an applicant can come in with a request for a parcel of prime agricultural land and meet the criteria. It is difficult to deny and have it stand up in court.

Karen Edwards, Woodland Township. Edwards said the issue of financial viability continues to be brought forth when discussing prime agricultural land and proximity to a substation. When a person opens a business, they pay the associated costs and do not infringe upon the rights of others. Regarding the noise associated with solar, she

does not want noise. That is the reason she moved to the country. Prime agricultural land should not be used for solar farms. If that doesn't work, then it is not a viable business. She said that once some of the solar factories have gained right to the property, other uses are occurring (cell and microwave towers, wells being dug). She said what can be located on the property should be considered when they are writing guidelines. Edwards restated that Excel is not taking responsibility for claims and contracts offered by solar plants.

Leander Wetter, Buffalo. Wetter brought forth the suggestion of companies providing bonding for land that is used. In 1972, Planning & Zoning required a \$500 bond for a gravel pit located near them. Today, the cost estimate to clean that land is \$16,000. He reiterated that discussions should include remediation of the land.

Representative Marion O'Neill. Rep. O'Neill commended the Board for holding the Public Hearing to listen to people and to weigh both sides. She is not pro either side but pro Wright County and making sure they are doing what is right for people. Rep. O'Neill introduced a bill amendment relating to not permitting if 3 or more acres of trees will be clear cut. Part of the reason is the clear cutting of 11 acres of mature hardwood trees in Buffalo Township. She asked the Commissioners to think about the 1.5% State mandate will do to Minnesota.

Rep. O'Neill recently spoke with a Minnesota Power representative. Their projects are mostly in the Duluth area. She was told that clear cutting 100% of forested land is required to put in solar panels and fields. She asked the Board to think about the concept that there is no law that prohibits clear cutting. For every acre of trees, 6 tons of carbon is captured. Rep. O'Neill said if this about carbon and saving the earth, she does not understand why the movement would be first to a forested area versus last.

Representative O'Neill said the entire State will be looking at what is being done in Wright County. Land use is incredibly important. There are great concerns when prime agricultural land is taken. She had a researcher at the House of Representatives look at the initial filings from Geronimo Energy and Enel Energy, and it was not approved for them to cut trees down. That may result in a lawsuit. She appreciates the County taking time for review, and asked them to consider the State-wide impact as well.

Greg Froelke, Novel Energy and MN Community Solar, St. Cloud. Froelke owns a cabin northwest of Brainerd. He referenced the DNR logging projects and the resulting mess that is not cleaned up. He asked where the concern is about that problem. With regard to prime agricultural land, he said there are opportunities to locate solar elsewhere.

Dan Kyllonen, Middleville Township Planning/Zoning Administrator. He stated that it is a Federal Law that clear cutting can only occur on an 18 acre spot. The area can be close but not continuous.

Dean Leischow, Sunrise Energy Systems. Leischow said almost every property they are working with is being farmed today. Their largest argument to a township or county is the future use of the property, which is generally development. Leischow's opinion is that they have the control they need and a moratorium will not help. He offered to participate in the review process.

Sawatzke called for additional public comment. Hearing none, the Public Hearing was closed at 11:50 A.M.

Daleiden questioned whether the Ordinance requires township approval in this situation. Kryzer stated it does not require township approval but input. That input is evaluated by the Planning Commission. Daleiden asked if a township does not support a request, would that argument hold up in court. Kryzer stated if the Board denies an application solely based on the township's denial of it, the Court may have a hard time finding that to be reasonable. The County needs to apply the facts that are given to the Planning Commission to the criteria in the Ordinance. Specific findings need to be made detailing how it would impact the health, safety, property values, and general welfare as part of the denial process. Neighborhood opposition cannot be used by itself as a basis for denial of an application. Concrete facts are needed as to why it the application is denied. That was the issue for the Planning Commission for the parcel approved in Buffalo Township. They didn't have concrete facts supporting the health, safety and welfare on that denial. If challenged in court, he thought this would have been a difficult defense on the part of the County.

Husom asked whether the Ordinance could be amended to include township approval. Sawatzke said that can't be done. However, they could discuss this more in depth with townships and create an overlay district. Kryzer felt creating an overlay district would be appropriate, as well as conditions that could be used as a potential denial if they are not met. Kryzer estimated it could take up to a year to create an overlay district. Minor changes, to include public hearings, could be 2-3 months.

Daleiden made a motion to adopt Resolution 16-29 to continue the moratorium for 3 months. Kryzer stated that the draft resolution is for 1 year, which is the maximum for the moratorium. It was the consensus that "3 months" will be replaced in the resolution anywhere "12 months" is cited. The motion was seconded by Borrell.

Sawatzke suggested that the 3-month timeline may be inadequate and offered a timeline of 6 months. He also supports putting together a task force to discuss this further. Those on the task force could include the County Board, Townships, Wright Hennepin, Excel, and representation from the solar industry.

Daleiden and Borrell amended the motion to include "6 months" replacing "12 months" throughout the resolution language. Sawatzke commented that there was input today by those in the industry asking the County not to move forward with the moratorium and indicated safeguards that could be put into place on a case-by-case basis. Sawatzke said that currently there may be cases where the location is not ideal and could be problematic but the County would not have the ability to deny those based upon the Ordinance. He stated there are items that possibly should be included in the Ordinance relative to vegetation, running of the power from the facility to the substation, bonding, and land alteration. It was the consensus that the establishment of the committee should be placed on the next County Board Agenda. Anyone interested in serving on that committee should contact Sean Riley, Planning & Zoning Administrator. The motion to adopt Resolution #16-29 carried 5-0 on a roll call vote.

**RESOLUTION #16-29
ADOPTING A ZONING ORDINANCE
INSTITUTING AN EMERGENCY MORATORIUM ON SOLAR ENERGY FARMS**

Whereas, the Wright County Zoning Ordinance contains standards for the issuance of a conditional use permit for Solar Energy Farms; and

Whereas, the Office of Planning and Zoning has been accepting a number of applications related to the creation of Solar Energy Farms and this has resulting in a number of comments being made by townships, cities, and members of the general public; and

Whereas, the Office of Planning and Zoning and the Wright County Planning Commission are under great development pressure with applications related to Solar Energy Farms; and

Whereas, the Wright County Board of Commissioners has been reviewing the Wright County Zoning Ordinance with respect to Solar Energy Farms and changes may be necessary to protect public health, safety, and general welfare; and

Whereas, pursuant to Minnesota Statute § 394.34, the Wright County Board of Commissioners adopted a temporary interim zoning ordinance instituting a moratorium on the processing of any future applications to allow time to classify and regulate uses and related matters and to determine whether a proposed ordinance amendments should be adopted and implemented to protect the public health, safety and general welfare; and

Whereas, notice was published and a public hearings was conducted on a long term moratorium not to exceed six months; and

Whereas, the Wright County Board of Commissioners finds:

1. An emergency zoning ordinance instituting a moratorium prohibiting further Solar Energy Farms is necessary in order to hold discussions and hearings to determine whether a longer term moratorium zoning

ordinance shall be adopted and implemented, to protect the public health, safety, and general welfare of the residents of Wright County.

2. An emergency exists because based on the recent development pressure as well the comments received from the community, the townships, and the cities, the Wright County Zoning Ordinance does not afford the protection needed to ensure that the residents of Wright County are not adversely affected.

3. It is in the interests of public health, safety, and the general welfare to impose a moratorium for a period not to exceed six months.

NOW THEREFORE BE IT RESOLVED, by the Wright County Board of Commissioners, that this resolution adopting an emergency zoning ordinance instituting a six month moratorium on approval and acceptance of applications for Solar Energy Farms shall become effective immediately upon its passage and publication and shall remain in effect for a period not to exceed six months; and

BE IT FURTHER RESOLVED, that the Wright County Office of Planning and Zoning is directed to administratively deny any applications during the period in which this interim ordinance is in effect; and

FINALLY, BE IT FURTHER RESOLVED, that the Wright County Office of Planning and Zoning shall schedule, publish, and notice public hearings as necessary for the purpose of studying and drafting proposed amendments and changes to the Wright County Solar Ordinance and that a final hearing on any proposed changes or amendments shall be held within six months.

(End of Resolution #16-29)

The meeting recessed at 12:07 P.M. and reconvened at 12:15 P.M.

ITEMS FOR CONSIDERATION

Resolution Designating The Week Of May 15-21, 2016 As Emergency Medical Services Week

On a motion by Husom, second by Potter, roll call vote carried 5-0 to adopt Resolution #16-30 designating the week of May 15-21, 2016 as EMS Week in Wright County.

Resolution Authorizing Appropriate County Officials (Director Of Parks & Recreation) To Sign Grant Applications, Agreements, And Certifications In Regards To The Wright County Snowmobile Association Participation In The Grant In Aid Snowmobile Assistance Program For The 2016-2017 Season

On a motion by Potter, second by Daleiden, roll call voted carried 5-0 to adopt Resolution #16-31 authorizing the requested action.

Cancel Board Meeting In August (5 Tuesdays)

Daleiden moved to cancel the 8-09-16 County Board Meeting. The motion carried 5-0 on a second by Potter.

Schedule Committee Of The Whole Meeting Re: Transfer Of Nuclear Emergency Preparedness Department To The Emergency Manager's/Sheriff's Department (Kelly)

Daleiden moved to schedule a Committee Of The Whole Meeting for 5-25-16 at 1:00 P.M. The motion was seconded by Husom and carried 5-0.

ADVISORY COMMITTEE / ADVISORY BOARD UPDATES

1. Transportation Day at the Capitol. Potter attended the conference committee hearing last week.
2. Owners Committee. Sawatzke and Potter attended. It included a tour of the new Highway Building.
3. SWCD. Daleiden will attend a meeting on 5-12-16 regarding Ditch 31 and a culvert that Woodland Township inquired about.
4. SWCD. Borrell attended a SWCD Meeting on 5-09-16. The Regal Creek project has been completed.

The meeting adjourned at 12:28 P.M.

MEMORANDUM OF AGREEMENT

This Memorandum of Agreement is entered into between Wright County (hereafter “County”) and American Federation of State, County and Municipal Employees, AFL-CIO (hereafter “Union”).

WHEREAS, the County and the Union are parties to a collective bargaining agreement effective January 1, 2015 – December 31, 2016; and

WHEREAS, the County and Union agreed in Article 14.1 “all newly hired or rehired employees hired on or after April 1, 2016 will serve a twelve (12) month probationary period”; and

WHEREAS, the County and Union reached a tentative agreement during contract negotiations that employees may use accrued vacation after six (6) months of employment as reflected in Article 3.13; and

WHEREAS, the language in Article 18.2 Probationary Period and Accumulation states “Employees...shall not be eligible to take vacation until the completion of the probationary period.”

NOW, THEREFORE, the parties hereto have agreed as follows:

1. Article 18.2 Probationary Period and Accumulation will be revised as follows:

Article 18.2 Probationary Period and Accumulation. Employees shall accumulate vacation during the probationary period based on original hire or rehire, and may use accrued vacation after six (6) months of employment. Employees terminated during the probationary period shall not be compensated for accumulated vacation. Employees who are hired during the months shall begin accumulation of vacation time the first of the month following the date they were hired.

2. This Memorandum of Agreement constitutes the full and complete agreement between the parties regarding this matter.

3. The parties acknowledge they have read the foregoing Memorandum of Agreement and by signing the below affirm that they fully understand and agree to be bound by it terms and conditions.

IN WITNESS WHEREOF, the parties have caused this Settlement Agreement to be executed this _____ day of _____, 2016.

- Approve resolution proclaiming the week of May 15th through 21st as Wright County Law Enforcement Officers week. (See attached resolution).
 - Sheriff Hagerty will present awards to local law enforcement officers and citizens
-

Reviewed by/date

BACKGROUND/JUSTIFICATION:

National Police Week, which occurs each year during the week in which May 15th falls, recognizes the service and sacrifice of U.S. Law Enforcement. Established by a joint resolution of Congress in 1962, National Police Week pays special recognition to those Law Enforcement Officers who have lost their lives in the line of duty for the safety and protection of others.

In conjunction with this resolution Sheriff Hagerty would like to present awards to local Law Enforcement Officers and citizens.

RESOLUTION PROCLAIMING MAY 15TH – 21ST, 2016 AS LAW ENFORCEMENT OFFICERS WEEK IN WRIGHT COUNTY

WHEREAS the Law Enforcement officers of Wright County have worked devotedly and selflessly on behalf of the people of this county and the State of Minnesota, regardless of the peril or hazard to themselves; and

WHEREAS these officers have safeguarded the lives and property of their fellow citizens; and

WHEREAS by the enforcement of our laws, these same officers have given our county internal freedom from fear of violence and civil disorder; and

WHEREAS seven Wright County Law Enforcement Officers including Constable Charles Albert Washburn, Sheriff John C. Nugent Jr., Marshall Rudolph Maurer, Sheriff Paul Kritzeck, Sheriff James Kreitlow, Chief George Rytty, and Sheriff Roger Wrobbel have given the Ultimate sacrifice and lost their lives in the line of duty; and

WHEREAS these men and women of Law Enforcement by their patriotic service and their dedicated efforts have earned the gratitude of our community:

THEREFORE, BE IT RESOLVED that the Wright County Board of Commissioners formally declares May 15th-21st, 2016, as Law Enforcement Officers Week in Wright County, and publicly salutes the service of Law Enforcement Officers in our community and in communities across the nation

**SEACHANGE
ELECTION SERVICES AGREEMENT**

This Agreement is made as of the date it is executed by the last of the parties named below (the "Effective Date"),

BETWEEN: SeaChange Print Innovations, a Minnesota corporation ("SeaChange")

AND: Wright County Board of Commissioners ("Customer")

RECITALS:

- A. This agreement shall commence on June 1, 2016 ("Effective Date") and expire May 31, 2020.
- B. Customer has agreed to purchase certain election-related services from SeaChange for use in Wright County (the "Jurisdiction"). The terms and conditions under which such services shall be provided are set forth in the **GENERAL TERMS** attached hereto.
- C. The following Exhibits are incorporated into, and constitute an integral part of, this Agreement (check all that apply):
- Exhibit A (Summary of Services)
- Exhibit B (Ballot Layout and Related Services)
- Exhibit C (Ballot Printing Services)

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, each of the parties hereto:

- Agrees to the **GENERAL TERMS** and the terms and conditions set forth in each Exhibit.
- Agrees that at all times, this Agreement shall be governed by and construed in accordance with the laws of the State of Minnesota.
- Represents and warrants to the other party that as of its signature date indicated below it has full power and authority to enter into and perform this Agreement, and that the person signing below on its behalf has been properly authorized to execute this Agreement.
- Acknowledges that it has read this Agreement, understands it and intends to be bound by it.

**ARTICLE I
GENERAL TERMS AND CONDITIONS**

1. **Consideration.** The consideration to be paid by Customer to SeaChange for the services provided hereunder is set forth on the accompanying Exhibits.

2. **Limitation of Liability.** Neither party shall be liable for the other party's negligent or willful misconduct. SeaChange's total liability to Customer arising out of or relating to this Agreement shall not exceed the aggregate amount to be paid to SeaChange hereunder. Any action by Customer against SeaChange must be commenced within one (1) year after the cause of action has accrued. SeaChange shall not be liable under this Agreement for any claim, damage, loss, judgment, penalty, cost, amount paid in settlement or fee that is caused by Customer's failure to comply with election deadlines as set forth by Minnesota Rules, Statutes and the production calendar provided by SeaChange for each and every election. This Section 2 shall not apply to third party claims for indemnification that arise pursuant to Section 15 solely as a result of SeaChange's actions or inactions.

3. **Excusable Nonperformance.** Except for a delay or failure in the payment of money, if either party is delayed or prevented from performing its obligations under this Agreement due to any cause beyond its reasonable control, including natural disaster, fire, flood, unusually severe weather, terrorism, insurrection, war, Acts of God, labor disputes and governmental regulations, the delay shall be excused during the continuance of, and to the extent of, such cause, and the period of performance shall be extended to the extent necessary to allow performance after the cause of delay has been removed. SeaChange agrees to work with Customer, at Customer's request, to develop mutually agreeable alternatives in order to minimize the negative impact of any such delay.

4. **Exclusive Service Provider.** Customer hereby agrees to use SeaChange as its exclusive provider for the products and services set forth on Exhibits B and C attached hereto from SeaChange for the Term of this Agreement at the pricing set forth on each applicable Exhibit. However, it is not mandatory that the county utilize SeaChange for the items listed as optional "Other Layout Related Services" in Exhibit B. Customer's agreement to purchase the ballot layout and printing services from SeaChange for the entire Term entitles Customer to receive the preferred pricing for each product or service as provided herein. In the event that Customer terminates its purchase commitment prior to expiration of the Term of this Agreement for any reason other than for cause pursuant to Article I, Section 5, of this Agreement, or purchases any such products or services from a provider other than SeaChange, or does not pay for such products or services provided by SeaChange pursuant to the payment terms in Exhibit A during the Term, Customer shall no longer be entitled to receive the pricing set forth on Exhibits B-C, as applicable, and shall pay SeaChange its then current rates for future products and services and pay the recovery amount described in Exhibit A.

5. **Term; Termination.** This Agreement shall be in effect for a four-year period beginning on the Effective Date, covering all elections within the Jurisdiction beginning sixty (60) days after the Effective Date (the "Term"). This Agreement may be terminated, in writing, at any time by either party if the other party breaches any material provision hereof and does not cure such breach within thirty (30) days after it receives written notification thereof from the non-breaching party or as otherwise set forth in Exhibit A attached hereto. Subject to the terms and conditions set forth on Exhibit A, this Agreement may be terminated by either party without cause upon thirty (30) days written notice to the other. In addition, this Agreement may be terminated by either party, upon seven (7) days written notice, in the event the Customer purchases and/or licenses a voting system from a vendor other than Election Systems & Software, LLC.

4. **Subcontracting & Assignment.** SeaChange shall not enter into any subcontract or performance of any services contemplated under this Agreement, nor assign any interest in the Agreement without the prior written approval of the Customer and subject to such conditions and provisions as the Customer may deem necessary. SeaChange shall be responsible for the performance of all subcontractors. In the event of the sale, transfer or assignment of all or substantially all of the ownership interest or assets of SeaChange, or the complete termination of the Government Division of SeaChange, either of which shall be substantiated with reasonably sufficient documentation of the same, either party may terminate this agreement by providing sixty (60) calendar days prior written notice.

5. **Entire Agreement.** This Agreement, including all Exhibits hereto (all of which are incorporated herein by this reference), contains the entire agreement of the parties with respect to the subject matter hereof and shall supersede and replace any and all other prior or contemporaneous discussions, negotiations, agreements or understandings between the parties, whether written or oral, regarding the subject matter hereof. Any provision of any purchase order, form or other agreement which conflicts with or is in addition to the provisions of this Agreement shall be of no force or effect. In the event of any conflict between a provision contained in an Exhibit to this Agreement and these General Terms, the provision contained in the Exhibit shall control. No waiver, amendment or modification of any provision of this Agreement shall be effective unless in writing and signed by the party against whom such waiver, amendment or modification is sought to be enforced. No consent by either party to, or waiver of, a breach by either party shall constitute a consent to or waiver of any other different or subsequent breach by either party.

6. **Notice.** Any notice or other communication required or permitted hereunder shall be in writing, and will be deemed given when delivered personally, sent by confirmed fax, sent by commercial overnight courier (with written verification of receipt) or sent by registered or certified mail, return receipt requested, postage prepaid, when the return receipt is received. All communications shall be sent to the attention of the persons listed on the signature page to this Agreement and at the addresses or fax numbers set forth on such signature page unless other names, addresses or fax numbers are provided by either or both parties.

7. **Disputes.**

Remedies for Past Due Payments. If any payment to SeaChange is past due more than thirty (30) days, SeaChange may suspend performance under this Agreement until such amount is paid.

Dispute Resolution Process. Time is of the essence in resolving disputes. The initiating party shall notify the responding party of any dispute, including all relevant information (e.g., the nature of the dispute, dates, times, persons involved). The responding party shall respond to the notification within five (5) business days. Thereafter, the parties shall use their good faith efforts to resolve the dispute within a reasonable period of time. Notwithstanding anything in this Section 9 to the contrary, either party may apply to any court located within the State of Minnesota having jurisdiction over the subject matter of the dispute for a temporary restraining order, preliminary injunction, or other appropriate legal remedy at any time.

8. **Data Privacy.** All data collected, created, received, maintained or disseminated, or used for any purposes in the course of SeaChange's performance of this Agreement is governed by the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13 (the "Act"), or any other applicable state statutes and any state rules adopted to implement the Act, as well as state statutes and federal regulations on data privacy. SeaChange agrees to abide by these statutes, rules and regulations as they may be amended.

9. **Compliance with Laws; Governing Law.**

a. In performing its obligations or enjoying its rights under this Agreement, each party shall comply with all applicable laws and regulations.

b. No person shall, on the grounds of race, color, religion, age, sex, disability, marital status, public assistance, creed, or national origin, be excluded from full employment rights in, participation in, be denied the benefits of, or be otherwise subjected to discrimination under any and all applicable federal and state laws against discrimination including but not limited to the Civil Rights Act of 1964. SeaChange will furnish Customer all reports required by Executive Order No. 11246 and Revised Order No. 4, and by the rules and regulations and orders of the Secretary of Labor, the Minnesota Department of Human Services for purposes of investigation to ascertain compliance with such rules, regulations and orders. The provisions of Minn. Stat. Section 181.59, regarding nondiscrimination and violations related therefrom are incorporated in this Section by reference as an obligation of SeaChange. If during the term of this Agreement, it is discovered that SeaChange is not in compliance with the applicable statutes and regulations or if SeaChange engages in any discriminatory practices, then Customer may cancel this Agreement as set forth in Section 5 above.

c. The laws of the State of Minnesota shall govern this Agreement.

10. **Independent Contractor.** SeaChange is providing its services to Customer as an independent contractor, and shall not be deemed to be a "state actor" for purposes of 42 U.S.C. § 1983.

11. **Record Disclosures/Monitoring Procedures.** SeaChange records, documents, papers, accounting procedures and practices, and other evidences relevant to this Agreement are subject to the examination, duplications, transcription and audit by Customer and either the legislative or State Auditor, pursuant to Minn. Stat. § 16C.05, subd. 5. Such evidences are also subject to review by the Comptroller General of the United States, or a duly authorized representative, if federal funds are used for any work under this Agreement. SeaChange agrees to maintain such evidences for a period of six (6) years from the date services or payment were last provided or made or longer if any audit in progress requires a longer retention period.

12. **Insurance.** During the term of this Agreement, SeaChange shall maintain the following insurance:

Commercial General Liability and Professional Liability: \$1,000,000 per incident; \$2,000,000 aggregate;

Automobile Coverage: \$1,000,000 per incident/aggregate; and Workers' Compensation Insurance.

13. **Indemnification.** SeaChange, as one party, and Customer, as another party, hereby agree to indemnify, defend and hold harmless the other party from and against any and all claims, liabilities, losses, damages, costs and expenses, including, but not limited to, court costs and attorneys' fees, which result from or relate to a breach of such party's obligations under this Agreement. The County's obligation to indemnify shall be limited by tort liability caps in Chapter 466 of Minnesota Statutes, and the County does not waive any defenses or immunities it may possess related to such a claim.

14. **Ownership of Documents.** Any reports, studies, or other documents prepared by SeaChange in the performance of its obligations under this Agreement shall be the exclusive property of the Customer, and all such materials shall be remitted to the Customer by the SeaChange upon completion, termination, or cancellation of this Agreement. SeaChange shall not use, willingly allow, or cause to have such materials used for any purpose other than performance of SeaChange's obligations under this Agreement without the prior written consent of the Customer.

15. **Other.** SeaChange will not be responsible for (a) user errors, (b) voter errors or (c) problems encountered by any individual in voting. SeaChange may engage subcontractors to provide certain of the services, but shall remain fully responsible for such performance. The provisions of Sections 1-4, 6, 8, 10, 13, 15 and this Section 16 shall survive the termination of this Agreement, to the extent applicable.

[END OF GENERAL TERMS]

**EXHIBIT A
SUMMARY OF SERVICES**

Sale Summary:	
Description	Refer to
Ballot Layout and File Management Services	Exhibit B
Ballot Printing Services	Exhibit C
Terms & Conditions:	
Note 1: Any applicable state and local taxes are not included, and are the responsibility of Customer.	
Note 2: Payment terms: Ballot Layout and Ballot Printing Services will be invoiced as Services are provided. 100% of invoice total due within 35 calendar days of invoice date.	
Note 3: Customer understands, acknowledges and agrees that SeaChange's discounted fees for the products and services described on the accompanying exhibits are based upon (a) a contractual commitment by Customer to exclusively subscribe for and purchase such products and services for a period of at least four (4) years, (b) SeaChange's dedication of sufficient resources during the Term to provide such products, perform such services and provide associated prioritization of Customer in its service deliveries, and (c) the descriptions of such products and services in the accompanying exhibits. In the event that Customer either (a) changes its commitment to a period of less than four (4) years for any reason other than a termination "for cause" pursuant to Article I, Section 5, of this Agreement, or (b) elects to purchase SeaChange's products and/or services on a non-exclusive basis, Customer hereby agrees to promptly pay to SeaChange a fee in an amount equal to the difference between (i) the amount paid or to be paid by Customer for the products and services provided by SeaChange during the immediately preceding twelve month period computed by using the Discounted Fees and (ii) the amount that would have been paid by Customer for such products and services during the same period computed by using the Non-Discounted Fees (the "Recovery Amount"). For purposes of clarification, the Recovery Amount is an amount in addition to (and not in lieu of) any and all other costs, expenses and fees owed by Customer to SeaChange pursuant to the terms of this Agreement.	
Note 4: The fees set forth in Exhibit B and Exhibit C apply to the original order at the time of Customer submission. Any changes, alternations, re-prints or additional ballots are not subject to the fees as set forth in Exhibit B and Exhibit C.	
Note 5: SeaChange may increase the per unit fees as set forth in the accompanying exhibits in 2020 by not more than 8% of the amount of the most recent per unit fees paid by Customer.	
Note 6: The fees set forth in this agreement are for services provided to the Customer. In the event the Customer acts as a facilitator of services for other jurisdictions within their county, in whole or in part, and is the billing entity for the services provided, the fees in the accompanying exhibits would apply.	

**EXHIBIT B
BALLOT LAYOUT SERVICES**

Ballot Layout Service Pricing		
Description	Non-Discounted Fees	Discounted Fees
Paper Ballot Layout

Chad Hausmann, Assistant Highway Engineer
Brian Jans, Shop/Maintenance Equipment Superintendent
Barb Holmquist, Wright County
[See Attachment 1]

1. Project Update

Francois handed out a summary of a four-month schedule [Attachment 2] that began with accomplishments from the previous month. Wood blocking has been completed around the window openings in the office area, and half of the vehicle storage area now has concrete poured on grade. Exterior insulation has been installed and they are preparing for the installation of the metal panels that will wrap around the exterior of the office area. Overhead doors, the roof, metal panels, and electrical and mechanical finishes should be done by the beginning of June. They are close to being done with the fluid and lube work and the overhead crane installation. Larkin said that a bit of the site work has begun with cleaning of the area, and they will start digging for the retaining wall foundation for the loading dock, as weather permits. The parking lot site will be graded and class 5 will be placed. Paving and landscaping will begin in May.

2. Change Order Update [Attachment 4]:

There were a total of seven change orders presented. PCO #135, for a total of \$1,168, was to add steel tubing in order to lower the wall supports for the divider walls so that they match ceiling height in the breakroom. PCO #137, for a total of \$1,611, is needed to change the ceiling in the IT room to help prevent escape of gas in the case of a fire event. PCO #140, for \$1,214, is for the addition of some aluminum material to close a gap between the windows and the exterior brick cavity, which will prevent moisture from moving into that cavity. PCO #143 is a deduct of \$2,440 due to the elimination of the coffee station island that was originally included in the plans. PCO #147, for \$2,545, is for a revision of the guard rails to add gates for access to mezzanine with forklifts. PCO #154, for a total of \$1,730, raised the height of the walls in the storage area for additional storage space and privacy. PCO #155 is a deduct of \$1,759 for cancelation of an order for laminate countertops over filing cabinets. These will instead be provided by the furniture company. Francois said that there are still a handful of change orders that they are tracking for costs and revisions and will present them at a later date.

Francois said that coming in 2018, a new type of oil will be required for the new emissions requirements, but it is not compatible to the current engines and can't be used with anything built prior to 2018. This oil will need a separate tank and two new hose reels, which are not here yet. Additional cost for these items will run in the \$10,000-\$12,000 range. Sawatzke asked if this purchase installation could be delayed until 2018, and Jans said that he would rather be proactive, and Larkin said that it would be easier to install it during construction. Jans added that the price of the tank and hose reels would most likely be considerably more expensive in two years. Sawatzke asked if the tanks would ever be obsolete, and Jans said that he guessed that there would never be an empty tank, and they can always be used for something else. It would be easier to set it up now, because this could be used for all trucks now and could be switched out later. Trucks from 2018 on will deal with this new emissions standard, and eventually all trucks will be traded out. However, there will still be some old equipment that will need to use oil from the old tanks. Potter said that he felt it should all be plumbed at the same time rather than bringing in people at a future date. Francois said that they will want to prep for the tank, and once all the information is finalized, they will get the information back to this committee. Sawatzke and Potter indicated that they were both fine with taking care of it now as long as it will be needed by 2018. Francois said that he will send out an email after he gets the final pricing, and Hawkins will forward it to Commissioners Sawatzke and Potter. Jans said that they have increased the tank size from 110 to 165, partly because he has been hearing that the minimum purchase is 75 gallons to meet the criteria for bulk prices. Going with a larger tank will allow them to take advantage of the bulk price without emptying the tank too low and risk running out of oil. For now, only the \$4,069 in change orders as presented will be approved.

Potter referenced the \$21,354 for potential change orders [Attachment 4] that are still under review, and Francois said that until things are finalized, they have the amount in there as a placeholder. There are still some changes that have to be made if they meet the threshold, such as flooring in the server room to prevent the discharge of static. Tagarro explained that various things can go wrong with an arc to the mother board and other random problems with the machines. They also want to be prepped for adding more services if they are needed in the future. It is more efficient and economical to do the prep work now. Larkin said that they are ready to put the floor in and they are supposed to start pulling fiber sometime in April. Both Sawatzke and Potter agreed that the installation of the anti-static flooring should be done.

3. Other:

Hawkins said that \$225,000 was budgeted for the asphalt surface at the new building and the bid came in at \$193,000, and Tagarro added that IT work for the building is currently running about \$9,000 under projections.

Francois said that he is currently in the process of taking care of some details regarding the joint sealing, fence gates, and the monument sign.

Larkin said that waterproofing of the concrete in the wash bay area is needed because of the standing water that will be there most of the time, and if not taken care of, the concrete will crack. Francois said that he has received a firm price for waterproofing, and it's somewhere in the neighborhood of \$2,000. Sawatzke thought that this seemed a bit high, and Francois agreed, but he didn't feel that the price would vary much between different vendors. Francois said that he would get another quote. There was some discussion about the drainage of water from the wash bay and if it is being properly channeled. Jans said that all the work and plans have been documented by Planning & Zoning, because hazardous waste treatment needs documentation. Testing will have to be done from time to

time. The collection tank is already installed below the surface, about eight feet deep in the building with a manhole cover. Sawatzke said that he would like to see it lined with something like a rubber membrane in order to protect it, and Francois said that he will see if anyone has that type of product. Francois said that he will check on several things related to this issue and be in touch with Dahl.

The next meeting will be held on May 5, 2016 at 10:30 a.m.

The meeting was adjourned at 12:15 p.m.

Respectfully submitted,

Barb Holmquist

Wright County Highway Department

Four Month Rolling Milestone Schedule

April 7th, 2016

ATTACHMENT 2

Previous month:

- Completed the wood blocking around the window openings in the office area.
- Poured the slab on grade in the half of vehicle storage, loading dock, fluids room, and the remainder of the fleet maintenance and vehicle lift pit.
- Completed 95% of the MEP rough-ins.
- Installed the exterior insulation and furring for the metal panels around the office area.
- All roof top equipment has been set.
- Framing for the walls in the office area has completed and MEP wall rough-in are ongoing.
- Finishing the all masonry walls.

Current Operations:

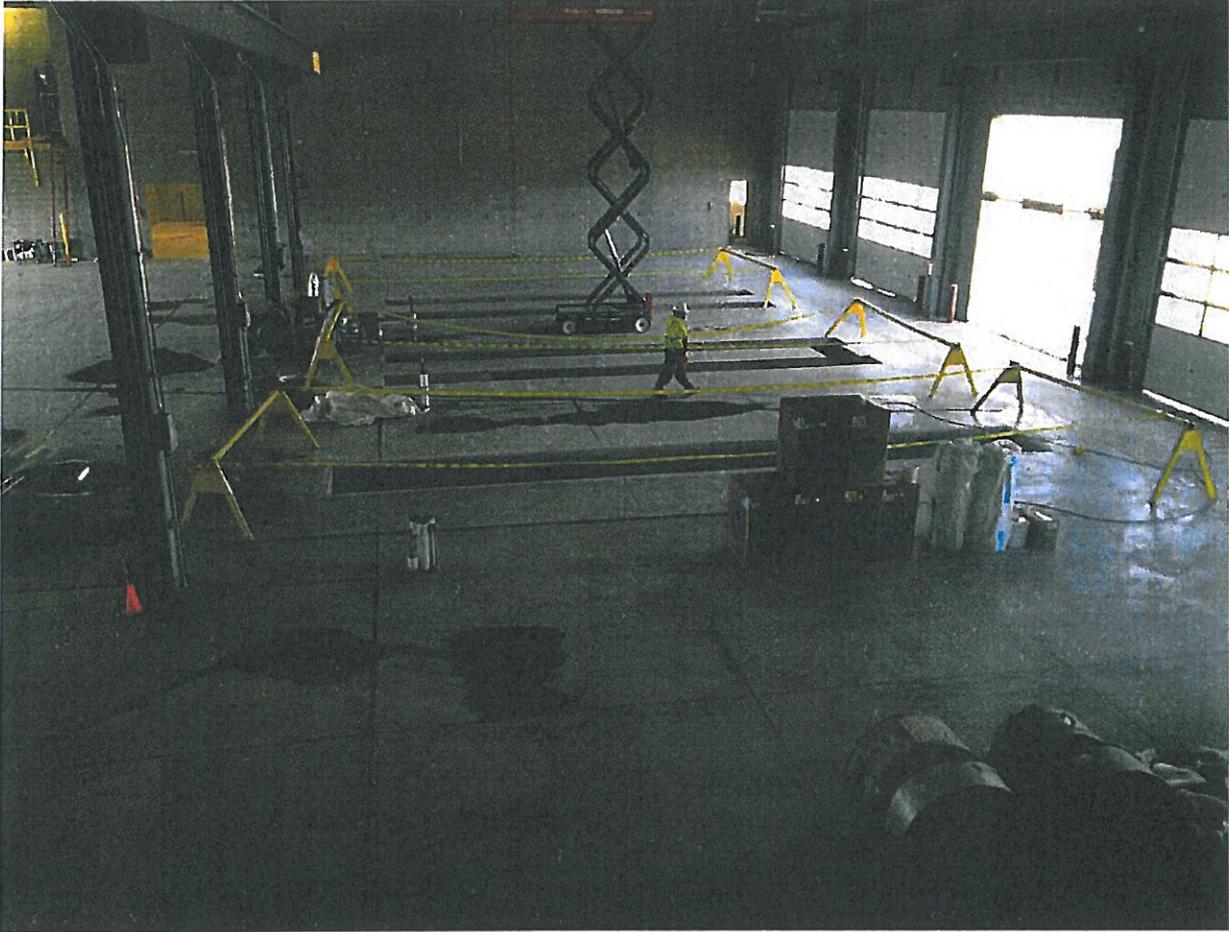

- Installing the final roofing membrane and the parapet flashing.
- Mechanical and electrical are starting installing finish products.
- Metal handrails and platforms are being installed.
- Windows are being installed.
- Drywall finishing has started in the office area.
- Excavating for the loading dock retaining walls.
- Exterior metal panels installation is starting.
- Starting to prep for site work.

Future 2 Months:

- Building:
 - Complete roof detailing
 - Complete the OH door installation
 - Complete the window installation.
 - Complete the exterior metal panels.
 - Complete the mechanical and electrical finishes.
 - Complete all slab on grade.
 - Complete interior finishes.
 - Start vehicle lift installation. (shipping from Europe this week)
 - Start Fluid/Lube System installation.
 - Start the overhead crane installation.
- Site:
 - Rough grade the site and place class 5.
 - Install curb and gutter and exterior concrete.
 - Install asphalt paving.
 - Install landscaping.

Prepping to pour in the vehicle storage bay. Photo taken 4/4/16.

Fleet Maintenance with vehicle lift pits poured. Photo taken 4/4/16.

Metal platform and handrails in the washbay. Photo taken 4/4/16.

Change Order Review

Change Orders Presented for Approval:

1. **PCO #135 (RFI #95) – Total \$1,168:** Add tube steel the lower the operable wall supports to match ceiling height in the breakroom.
2. **PCO #137 (RFI #82R) – Total \$1,611:** Change the ceiling in the IT room 202 from an ACT ceiling to a drywall ceiling in order to prevent the fire suppression clean agent gas from escaping in a fire event.
3. **PCO #140 (RFI #99) – Total \$1,214:** Add aluminum break metal where the exterior windows met the brick cavity or the precast insulation to prevent moisture from migrating into the window frames.
4. **PCO #143 (PD #27) – Total Deduct (\$2,440):** Eliminate the coffee station island.
5. **PCO #147 (RFI #104) – Total \$2,545:** Revise the guard rails at the vehicle storage mezzanine storage areas to include removal sections for access.
6. **PCO #154 – Total \$1,730:** Change the walls in storage room 104 from half high walls to full height walls.
7. **PCO #155 – Total Deduct (\$1,759):** Eliminate the Plastic Laminate countertops over the file cabinets. The furniture provider will be providing these tops.

Total Change Orders Presented: \$4,069

BUILDING COMMITTEE
MINUTES
May 10, 2016

MEMBERS PRESENT: Potter, Daleiden, and Kelly

OTHERS PRESENT: Wilczek, Hatfield

I. Annex Restroom / Custodial Closet

Wilczek provided an overview of the restroom project budget pricing as submitted by Kraus Anderson Construction Company. Discussion by all members agreed the price seemed high for the scope, but understood it was an all-encompassing budget. Discussion by the group identified the next step in the process would be to have a bid spec drawing completed by HCM Architects and solicit bids for hard numbers.

Recommendation:

Daleiden and Potter recommended moving forward with obtaining a price from HCM Architects to develop bid documents for the project with the intention to bid the project for future consideration.

II. Elevator Repairs

Kelly presented a proposal from Minnesota Elevator Inc. (MEI) to repair / update the courts elevator. The proposal identified multiple items citing code requirements, but through discussion, some items didn't seem code related and there wasn't supporting documents from an inspector requiring the work.

Recommendation:

Daleiden recommended holding off on the work until further detail could be discussed and asked that another vendor take a look at the scope for pricing & requirements. Wilczek will be discussing the referenced elevator inspection with MEI and connecting with another vendor to look at the cab.

Re: Wright County Courthouse Bathroom Remodel

Dear Mr. Hatfield:

Kraus-Anderson® Construction Company is pleased to provide you with the following Budget Proposal for the Wright County Courthouse Bathroom Remodel per HCM Architects plans.

The following items are inclusive of work to be performed in this estimate:

- Please see attached assumptions and clarifications
- Please see the attached estimate summary.
- Please see the attached preliminary project schedule.

Kraus-Anderson® Construction Company is pleased to provide this estimate for the scope of work as stated above for the budget amount of **TWO HUNDRED FIFTY-NINE THOUSAND TWO HUNDRED THIRTY-EIGHT AND NO/100 DOLLARS (\$259,238.00)**. This does not include any design or engineering fees.

Thank you for the opportunity to provide this budget proposal. We look forward to being of service to you. Please feel free to call me at (763) 786-7711 with any comments, questions or concerns.

Very truly yours,

KRAUS-ANDERSON® CONSTRUCTION COMPANY

Ken Francois

Ken Francois
Project Manager

Cc: Dan Lind – HCM Architects
Brad Hatfield – Wright County

WRIGHT COUNTY COURTHOUSE BATHROOM REMODEL

Assumptions and Clarifications

General:

- A. Our Budget Proposal is based on the HCM Architects plans a0.0, d2.1, a2.1 dated 4/21/16 and Emanuelson-Podas design narrative dated 4/21/16.
- B. We have included a six week construction schedule with full time onsite supervision.
- C. We intend to perform the work during normal business hours working Monday through Friday.
- D. Building permit is included. We have not included any costs for SAC/WAC.
- E. Builders Risk insurance is assumed to be by Wright County.
- F. Hazardous Material handling/removal has been excluded from this proposal.
- G. We assume that general water, electrical, and building heating costs will be paid by Wright County.
- H. A construction contingency of 5% is included for use of unforeseen conditions during construction. A 5% design contingency included for project design and scope changes.
- I. We have NOT included any Architectural or Engineer design fees.
- J. FF&E is not included.
- K. Cost for a performance and payment bond for Kraus-Anderson is not included.

Demolition:

- A. Includes the demolition of all ceilings, walls, toilet partitions and doors as shown on drawings.
- B. Includes the demolition of the existing floor and wall tile and includes \$2,000 for floor grind of mortar.
- C. Includes core drilling the concrete floor for the new floor drain and includes and allowance of \$2,000 to xray floors if needed.
- D. We have included dumpsters, dust partitions and final cleaning.
- E. All MEP demolition costs are included in the MEP line items.

Structural:

N/A

Exterior Construction:

- A. We have included an allowance of \$3,000 for roof patching for a new exhaust fan curb if needed.

Interior Construction:

- B. We have included (2) new HM doors and frames with hardware.
- C. Includes (3) new solid surface corian countertops.
- D. We have included a new drywall partitions between new bathrooms with tile backer board and sound insulation in bathroom exterior walls.
- E. Includes new floor tile and new wall tile up to 6' AFF.
- F. Includes new ACT ceilings in both bathrooms. Excludes patching of existing ACT on the office side of the new walls.
- G. Includes paint all walls, doors and frames as shown and includes a \$500 paint touch up allowance.
- H. Includes \$250 for signage
- I. Includes new plastic toilet partitions with toilet accessories and grab bars.
- J. Includes (2) baby changing stations.

Fire Protection Systems:

- A. Permits, engineering and drawings as required.

- B. Includes materials and labor to relocate branch lines and heads necessary to accommodate the new layout.

Mechanical Systems:

- A. Permits as required
- B. Demo as required.
- C. (6) New wall hung water closets with carriers
- D. (3) New Wall hung urinals with carriers
- E. (4) New wall drop-in sinks.
- F. (2) New floor drains.
- G. (1) New single height ADA drinking fountain with bottle filler.
- H. New Grennheck 2,400cfm toilet exhaust fan for the toilet to replace existing exhaust fan with a new roof curb. No structural upgrades are included if required. Includes air balancing.
- I. New galvanized ductwork with grills as required.
- J. Excludes any BAS control work however none is anticipated.

Electrical Systems:

- A. Permits required
- B. Demo as required
- C. Electrical Serice is assumed to be pulled form an existing panel.
- D. Lighting
 - a. (10) 2x2 Direct/Indirect LED troffer fixtures.
 - b. (4) motion detectors and switches as needed
- E. Power
 - a. (2) 20amp GFI receptacles (one in each bathroom).
 - b. Power to the new exhaust fan
- F. Includes relocating (3) fire alarm devices.

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

PERSONNEL COMMITTEE MINUTES
COUNTY BOARD
May 10, 2016

MEMBERS PRESENT: Husom, Sawatzke, Kelly

OTHERS PRESENT: S. Hesse, T. Rasmuson

I. Hire of Additional Property Appraiser (County Board)

The local assessor contracted by Marysville Township has submitted notice of retirement. Marysville Township is considering whether it will hire externally or request appraisal services from Wright County. There are concerns additional Townships may also be requesting appraisal services from Wright County in the near future.

Recommendation: Assessor's office will gather more information from townships regarding Wright County appraisal services and the possible need to hire an additional FTE.

II. 67-day Temp Social Worker Position (HHS Board)

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD.

WAYS AND MEANS COMMITTEE
MINUTES
MAY 10, 2016

MEMBERS PRESENT: Husom, Sawatzke, and L. Kelly

OTHERS PRESENT: Rasmuson

I. ASSESSMENT CONTRACT RATES

County Assessor Tony Rasmuson distributed the following:

- 1) A list of assessment contract rates charged by area Counties;
- 2) A letter dated 12-01-14 from former County Assessor Greg Kramber to cities and townships in the County regarding the 2016 and 2017 Assessment Services Agreement; and
- 3) A copy of the 2016 and 2017 Assessment Services Agreement (see attachments).

Sawatzke confirmed that the County is currently charging \$10.50 per parcel, and \$25 under NC<500k (New Construction Less Than \$500,000). Rasmuson said the number under the NC>500k (New Construction Greater than \$500,000) should be \$100, and not \$50 as listed in the handout.

Rasmuson said Wright County has 61,000 parcels. Of that, 42,123 incur a parcel fee. He said the County has charged \$10.50 per parcel for more than five years. Husom said it costs the County more to assess parcels than the revenue received. She thought the fee should be raised incrementally. Sawatzke suggested increasing the per parcel fee by \$1 to \$11.50 in 2018 and \$12.00 in 2019. Rasmuson said past practice has been to bill per taxable parcel versus per parcel. The new contract just says "per parcel."

Rasmuson said he notified cities and townships in a recent letter that all parcels will be charged in the future based on the verbiage in the new contract. There are 6,000 exempt parcels in Wright County.

Rasmuson said cities and townships are required to notify the County about terminating the current at least 60 days prior to the 6-30-17 Agreement expiration date. Rasmuson will ask Chief Deputy County Attorney Brian Asleson review the new contract.

The Committee suggested increasing the fee for new construction less than \$500,000 from \$25 to \$50, and the charge for new construction valued greater than \$500,000 from \$100 to \$150.

Recommendation: Authorize the following increases for the 2018-2019 Assessment Contract Rate Agreement:

- 1) Increase the per parcel charge from \$10.50 to \$11.50 in 2018 and \$12.00 in 2019 (for all parcels);
- 2) Increase the charge for new construction valued at less than \$500,000 from \$25 per parcel to \$50 per parcel; and
- 3) Increase the charge for new construction valued at more than \$500,000 from \$100 to \$150 per parcel.

RE: 2016 and 2017 Assessment Services Agreement

Dear «citytn»,

We would like to thank you for your continued support of the Wright County Assessor's Office. Please find the enclosed contract for the 2016 and 2017 assessment services.

I understand the budget restraints forced upon all of us and I am hopeful this two-year contract will assist both parties during the budget process. I would like to bring to your attention that there have been legislative mandates requiring higher levels of licensure required by all Minnesota assessors beginning in 2016. This may have an impact on costs to our office that may need to be addressed in future contracts. For the current contract I am proposing no increase from the rates set forth in the previous contract and continuing to provide the best services possible to the cities and townships; it is my goal to provide you with constant and reliable service.

The Wright County Assessor's Office is dedicated to providing property owners, local government and our communities with fair, equitable and accurate property assessments. We appreciate the relationship we have with the «citytn» and we look forward to fostering and improving that relationship in the years to come.

If you have any questions or concerns regarding this contract, please feel free to contact me.

Sincerely,

Tony Rasmuson
Interim Wright County Assessor
763-682-7372 or 1-800-362-3667 ext. 7372
tony.rasmuson@co.wright.mn.us

ASSESSMENT SERVICES AGREEMENT

THIS AGREEMENT, made and entered into by and between the County of Wright, a political subdivision of the State of Minnesota, hereinafter referred to as the “County” and the «citytwn» a political subdivision of the State of Minnesota, hereinafter referred to as “City/Township”;

WHEREAS, said City/Township lies either wholly or partially within the County and constitutes a separate assessment district; and

WHEREAS, under such circumstances the provision of the Minnesota Statutes, Sections 273.072 and 471.59 permit the County Assessor to provide for the assessment of property; and

WHEREAS, said City/Township desires the County to perform certain assessments on behalf of said City/Township; and

WHEREAS, the County is willing to cooperate with said City/Township by completing the assessment in a proper manner;

NOW, THEREFORE, in consideration of the mutual covenants contained herein it is agreed as follows:

1. The County shall perform the 2016 and 2017 property assessment for the City/Township in accordance with the property assessment procedures and practices established and observed by the County, the validity and reasonableness of which are hereby acknowledged and approved by the City/Township. The property assessment by the County shall be composed of those assessment services which are set forth in Exhibit A, attached hereto and made a part hereof by reference.

2. All information, records, data, reports, and the like that are necessary to allow the County to carry out its responsibilities under this Agreement shall be furnished to the County without charge by the City/Township and the City/Township agrees to cooperate in good faith with the County in carrying out the work under this Agreement.

3. The City/Township agrees to furnish, without charge, work space, if needed, for an appraiser to perform such tasks as document review, with such tasks to be performed during normal business hours for the City/Township.

4. The County agrees to indemnify and hold harmless the City/Township and all of its agents and employees against any and all claims, demands, actions or causes of action arising out of or by reason of the performance of work provided for herein to be performed by the County. It is further agreed that any and all full time employees of the County engaged in the performance of any work or services required or provided for herein shall be considered employees of the County only and not of the City/Township and that any and all claims that may arise under the Workman's Compensation Act of the State of Minnesota and any and all claims made by any third parties as a consequence of any act or omission on the part of said County employees shall be the sole obligation and responsibility of the County.

5. This Agreement shall commence on January 2, 2015 and shall terminate on June 30, 2017. Either party may initiate an extension of this Agreement for a term of two years by giving the other party written notice of its intent to so extend no less than 120 days prior to the termination of this Agreement. If the party who receives said notice of intent to extend gives written notice to the other party of its desire not to extend the Agreement at least 60 days prior to the termination of this Agreement, this Agreement shall terminate on June 30, 2017.

6. In consideration of said assessment services, the City/Township agrees to pay the County a fee of \$10.50 per parcel for the 2016 and 2017 assessment. In addition, there will be an additional fee of \$25.00 for each new construction residential or commercial/industrial building permit with an estimated construction cost of \$499,999.00 or less. There will also be an additional fee of \$100.00 per parcel for each new construction commercial/industrial building permit with an estimated construction cost of \$500,000.00 or more. These additional fees shall be only applicable in those cities which issue their own building permits.

7. Any notice which may be given or made by a party hereto under the terms of this Agreement shall be in writing and shall be sent by United States Mail or personally delivered to the other party addressed as follows:

To «citytw2» «citytw»
«add»
«city», «state» «zip»

To County: Anthony P. Rasmuson, Interim Wright County Assessor
Wright County Government Center
10 2nd Street NW, Room 100
Buffalo, MN 55313

8. The Agreement may be amended or modified only by written agreement signed by authorized representatives of the parties hereto.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed by its
duly authorized officers and delivered on its behalf, this ____ day of _____, 2014.

EXHIBIT A

During the term of this Agreement, the County shall:

1. Physically inspect and revalue real property, as required by law.
2. Physically inspect and value all new construction, additions and renovation
3. Conduct valuation reviews prior to Board of Review.
4. Attend Board of Review. Per Board request, make all necessary review appraisals.
5. Keep updated field card file - current values, homestead and classification data.
6. Print, mail and post valuation notices.
7. Respond to taxpayers regarding assessment or appraisal problems or inquiries periodically.
8. Make divisions and combinations periodically.
9. Administer the abatement process pursuant to Minn.Stat. § 375.192.
10. Make appraisals for, testify or negotiate all District Court or Tax Court filings.
11. Post values from appraisal cards to assessment rolls.
12. Adjust estimated market values on those properties not physically inspected as needed and per sales analysis.

RE: Woodland Township/County Ditch 31/Fillmore Avenue Culvert

Gentlemen:

As the attorney for Woodland Township, I am directing this letter to you for the purpose of advising that the Woodland Township Board is actively considering replacing the culvert on County Ditch 31 on Fillmore Avenue in the relatively near future (the existing culvert appears to be approaching the end of its useful life).

As you are probably aware, a number of area residents have in the past asked the Township to lower the subject culvert by as much as 3 feet in an effort to achieve what they believe would be better drainage of their respective properties. Since the Township is now looking at having to replace this culvert in the ordinary course of its road maintenance, the Township wants to make sure that the new culvert is installed at the correct level. As you are probably also aware, this is a rather sizable culvert, that is 42 inches in diameter—and the Township Board is contemplating replacing it with an even larger culvert, possibly up to 48 inches in diameter—so this is a fairly significant expenditure/undertaking on the part of the Township. At this point, the Township is therefore seeking your input with regard to the proper size of a replacement culvert, and the appropriate elevation of the culvert (both on the intake and outtake sides). Woodland Township is perfectly willing to work, to the best of its ability, to accommodate both County ditch authorities, and area residents in sizing and installing a replacement culvert at the appropriate elevation. The Township is, however, emphatic that having once replaced this culvert at the agreed upon elevation, it does not intend to subsequently change that elevation.

Mr. Michael H. Young
Mr. Charlie Borrell
April 25, 2016

Your thoughts and input on this matter would certainly be appreciated, and you can therefore contact either me or Woodland Township's Clerk, Gloria Janikula, (763) 658-4252.

Yours very truly,

EXECUTIVE SUMMARY

BACKGROUND

After significant analysis, Wright County seeks to address the facility needs of the Wright County District Court and to find the most cost effective manner of doing so. Recognizing the need to be fiscally responsible with public tax dollars, the Courts have previously agreed to delay necessary improvements to the facilities. However, at this time, the facility needs have become so significant that further delay is not an option. The Courts can no longer continue to effectively carry out normal operations of the courts with the facility in its current state; immediate modifications are required, even if the County were to begin building a courthouse now.

Additionally, though the Court Services department and the County Attorney's Office will eventually be located at the new building, they have presently maximized the use of their present space and still have facility needs that are unmet.

The County selected Wold Architects and Engineers to develop a feasibility study to help determine if it is more cost effective to:

Option 1: Make improvements to the existing courthouse and delay building new courthouse for approximately 8-10 years.

Option 2: Make improvements to the existing courthouse and delay building new courthouse for approximately 3-4 years.

Option 3: Begin building a new courthouse within the next 2 years.

Since Wold began their investigation and analysis of the options on March 29, 2016 significant progress has been made.

- The Wright County Board met with Wold and the courts to provide their preliminary input.
- Wold met with all key stakeholders including Judges, Court Administration, Court Services, and Court Attorney and documented their input.
- Wold visited the facility several times, reviewed the construction documents of the existing building, and began designing the 3 Options.
- As requested Wold provided preliminary costs for the options – prior to completion of the feasibility study details.

PRELIMINARY DESIGN OF OPTIONS

Additional Space:

One of the biggest challenges to meeting the objectives of the options is locating additional space for court functions. The following spaces in the existing Wright County Government Center building may provide enough additional space to accomplish the work of the options:

- The outdoor jail recreation area.
- Spaces in the existing jail including upper level jail housing, jail holding, and vehicle sally port below.
- The County Administration Offices.
- The U of M Extension, wRight Choice, and Veterans Services Offices.

Functionality:

Creating a separate path for prisoners from that of judges, staff, jurors, and the public is a high priority. The designs for Options 1 and 2 create separate paths by adding secure elevators from the lower level sally port to allow the prisoners to be brought between courtrooms and to be kept in a secure zone.

Modifying existing courtrooms and adding new courtrooms provides required space for court clerks, reporters, and the judge while providing adequate separation for court users and jurors. Handicap accessibility is provided and is a requirement by code.

Construction Disruptive Avoidance:

Work zone sequencing will be determined and coordinated with each phase of work. Since no space exists to move the entire courts into temporarily, construction needs to be coordinated with available space to move into as construction is sequenced. Work isolated to unoccupied spaces or work zones such as the outdoor recreation and jail spaces would be in a first phase allowing work to begin immediately. Courts may occupy these spaces when complete and allow remodeling work to begin in existing courtrooms.

To further avoid disruption near court areas noisy, construction would be limited to before 9:00 a.m. and after 4:00 p.m.

To accommodate some of the construction sequencing and temporary moves, use of meeting rooms and other County spaces such as the Board Room will be necessary.

Timing and Phasing of Construction:

The implementation process for each option requires time for design, bidding and multiple phases of construction. The following is a potential time schedule and estimate of construction sequences.

Option 1 – Delay Building for 10 Years:

Design and Bidding	11 Months
Construction in 3-4 Phases (Minimum)	<u>Approximately 24-30 Months</u>
TOTAL IMPLEMENTATION	35 to 41 Months

Option 2 – Delay Building for 3-4 Years

Design and Bidding	9 Months
Construction in 3-4 Phases (Minimum)	<u>Approximately 18-24 Months</u>
TOTAL IMPLEMENTATION	27-33 Months

Option 3 – Build a New Courthouse in 2 Years:

Design and Bidding	4 Months
Construction in 1-2 Phases (Minimum)	<u>Approximately 5 Months</u>
TOTAL IMPLEMENTATION	9 Months

Costs:

The following preliminary costs were determined using area take offs, construction factors for relative complexity, construction sequencing and phasing of work, and inflation to provide both construction cost for bidding and a project bottom line. This approach provides a total project cost.

	Option 3	Option 2	Option 1
Construction Cost	\$990,000	\$10,270,000	\$16,230,000
Interim Relocation Costs	\$20,000	\$120,000	\$150,000
Furniture Allowance	\$60,000	\$150,000	\$360,000
Equipment Allowance	\$60,000	\$150,000	\$180,000
Technology Allowance	\$180,000	\$360,000	\$540,000
Project Contingency (10% of Construction)	\$99,000	\$1,027,000	\$1,623,000
Fees, Testing, Printing (10% of Construction)	\$99,000	\$1,027,000	\$1,623,000
Total Current Project Cost	\$1,508,000	\$13,104,000	\$20,706,000

PRELIMINARY CONCLUSION

Two significant findings were concluded while meeting with the Core Group on April 26, 2016 and May 11, 2016. Both duration of the construction and overall costs were findings which led to feasibility discussions.

The time of design and construction for Option 2 – “Delay Building for 3-4 Years” could result in almost 3 years of implementation design and construction. This provides only 1-2 years of use before construction of a new facility. Similarly with Option 1. Almost 3 ½ years of implementation time provides only 6 ½ years of use before building new.

Although construction costs were significant for all options when considering all costs including temporary moves etc., the cost ranges while compared to the anticipated useful time indicates Option 1 and 2 provide a limited benefit. Additionally, the renovations would likely need to be altered for other County uses after Courts move out, requiring additional costs.

Since the discussions became focused on Option 3: “Begin building a new courthouse within next 2 years”, it was also proposed to stop current efforts on Option 1 and 2, until the full Board has reviewed the conclusions. It was noted that although the current costs for Option 3 are significant due to the need to provide full handicap accessibility as required by building codes, other less costly modifications should be studied.

Finally, the Core Group recommended the summary conclusions be provided to the full board to highlight their reservations on the courthouse remodeling Options 1 or 2 providing a cost benefit. Although the study is 50% complete, it is believed by the Core Group the Feasibility Study has progressed to provide sufficient information to make feasibility determinations and discussions with the full Wright County Board at this time.
