THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

INFORMATIONAL

WRIGHT COUNTY BOARD
MINUTES
AUGUST 23, 2016

The Wright County Board met in regular session at 9:00 A.M. with Sawatzke, Borrell, Daleiden, Husom, and Potter present.

MINUTES

Borrell moved to approve the 8-16-16 County Board Minutes, seconded by Potter. The motion carried 5-0.

AGENDA

Husom moved to approve the Agenda, seconded by Potter. The motion carried 5-0.

CONSENT AGENDA

Daleiden moved to approve the Consent Agenda, seconded by Borrell. Sawatzke commented regarding Item B (1) that the County is providing half the rent for the wRight Choice space only because it is vacant, and does not have responsibility for classroom space or schools. He said the School District is charged rent according to a Federal formula for reimbursement, which is applied to all entities who pay rent to the County. The motion passed 5-0.

- A. ADMINISTRATION
 - 1. Refer to 8-24-16 Personnel Committee Request to Reclassify Sr. Engineering Technician-Traffic to Traffic Engineer
- B. ADMINISTRATION
 - 1. Approve and Authorize Signatures on wRight Choice Lease Agreement for 2016-2017 School Year
- C. AUDITOR/TREASURER
 - 1. Approve Claims as Listed in the Abstract, Subject to Audit, for a Total of \$1,372,607.11 with 224 Vendors and 425 Transactions
- D. SHERIFF'S OFFICE
 - 1. Position Replacement:
 - A. 1 Communications Officer

TIMED AGENDA ITEMS

BOB HIIVALA, AUDITOR/TREASURER

Approve Easement On Tax Forfeited Property

Hiivala said Excel Energy contacted the County regarding the need to encroach on a tax forfeited property to do utility work. Chief Deputy Attorney Brian Asleson explained that the property is a narrow strip on the northern boundary of the City of Rockford. State Statute authorizes Hiivala to sign off on easements such as this if the County Board so approves. Asleson said this would be a permanent easement to replace a line servicing the adjacent neighborhood and would involve the north ten feet of the parcel.

Borrell asked whether they offered any compensation for the easement, as the agreement states only one dollar. Sawatzke said the parcel should be worth more than a dollar. Borrell said he would have preferred that this item and Item B (regarding the resolution authorizing seizure and sale of abandoned personal property on tax forfeited land) had gone to the Tax Forfeit Committee to iron out details before going to the County Board. Asleson said the County Assessor's Office lists \$3,000 as a market value. Sawatzke said Excel would not be interested in paying that amount, plus property taxes, insurance, and maintenance costs.

Potter moved to table this item to allow Asleson time to get more information. Daleiden seconded the motion. Borrell said he would like to refer this matter to the Tax Forfeit Committee for further discussion. Sawatzke asked for clarification on the motion. Potter said he would like to receive additional information and perhaps see the

property. Daleiden said that could include referring the matter to the Tax Forfeiture Committee. Asleson said this property was initially offered to the City of Rockford approximately two years ago, but they were not interested. He will gather the requested information. Sawatzke clarified that the motion includes referring this item to the Tax Forfeit Committee. The motion carried 5-0.

Husom moved to schedule a Tax Forfeit Committee on 8-30-16 at 8:30 A.M. Borrell seconded, and the motion carried 5-0.

Award Bids On County Ditch 10 and Joint Ditch 4

Hiivala said bids were opened at the 8-16-16 County Board meeting. He recommended awarding the bids to the lowest bidders. Hiivala asked the Board to award the bid for County Ditch 10 to Consolidated Landcare, Inc. in the amount of \$15,400.00. Daleiden moved, seconded by Borrell, and the motion carried 5-0.

Hiivala recommended that the second bid be awarded to the lowest bidder, Ed Rettman Jr. Excavating, for Joint Ditch 4 in the amount of \$13,750.00. Borrell moved, seconded by Daleiden, and the motion carried 5-0.

Update Of Recount For Commissioner District 2

Jackie Schmidt, Elections Supervisor and Office Manager I for the Auditor/Treasurer's Office, said the District Two Commissioner primary ballot recount occurred 8-18-16. One additional vote was found for candidate Darek Vetsch. The ballot was written in light blue ink, and the machine most likely didn't read it initially. She said the Canvas Board met 8-22-16 and confirmed the change. The overall results of the election were not affected. Instead of a four-vote difference between Vetsch and Brad Fyle, there is now a five vote difference. This was an informational item only.

BRIAN ASLESON, CHIEF DEPUTY ATTORNEY

Adopt Resolution Authorizing Seizure And Sale Of Abandoned Personal Property On Tax Forfeited Land

Asleson said this is a routine matter regarding properties that will be going up for public auction. The two properties listed have buildings on them filled with abandoned furniture and miscellaneous other items left by previous residents. Both structures will probably be demolished. The tax forfeit process, however, only deals with real estate, and not personal property. The County Board must authorize by Resolution to seize abandoned personal property. The Attorney's Office notifies prior tenants and owners and then holds a sale at the Auditor/Treasurer's Office. In the past, no one has ever attended those events. The County then takes possession of the personal property.

Asleson referred to the last "Whereas" in the Resolution that states: "Abandoned personal property remains on several of the parcels scheduled for sale, including but not limited to the following parcels." He said this clause allows the County to take possession of abandoned personal property on land-only tax forfeited parcels as well. Borrell said he felt it would be good to refer these types of items to the Tax Forfeit Committee in the future. Potter moved, seconded by Husom, to adopt Resolution 16-49, Authorizing Seizure And Sale Of Abandoned Personal Property On Tax-Forfeited Land. The Resolution passed 5-0 on a roll call vote.

ITEMS FOR CONSIDERATION

8-10-16 CAPITAL IMPROVEMENT/FINANCE COMMITTEE MINUTES

Sawatzke said one correction should be made adding Brad Harrington to the list of "Others Present." Daleiden moved, seconded by Potter, to approve the 8-10-16 Capital Improvement/Finance Committee Minutes as amended. The motion carried 5-0. The Capital Improvement/Finance Committee Minutes follow:

Overview of Draft 2017-2021 Capital Improvement Plan (Documents attached)

Vergin stated that the CIP serves as a tool to assist in the long range planning and that it communicates the priorities and future needs of the County.

8-10-16 Capital Improvement/Finance Committee Minutes (cont.):

Vergin identified the revisions to the “Wright County Capital Improvement Plan” word document, which includes the introduction, definitions, and explanations of the components of the CIP.

- A revision date has been added
- A section referred to as “The Role of the Technology Committee” has been added. This committee serves as a platform for departments to discuss their needs, and evaluate and prioritize projects. All technology projects will be required to be vetted through this Committee.

CIP Project Spreadsheet

Vergin proceeded to walk the committee through the various sections of the CIP spreadsheet. She informed the Committee that the first column identifies 2015 projects that for some reason or another did not proceed, but are now occurring in 2016; therefore costs have been moved to the 2016 CIP budget. Vergin noted that she would explain that in more detail when they reviewed the Funding spreadsheet. There is also a column that identifies 2016 projects that will not proceed until 2017, that funding will be in the 2017 CIP budget.

The Committee then walked through each section of the CIP, noting that there were representatives from the departments present to answer any questions that the Committee may have.

Enterprise Projects (Technology projects that have an impact County Wide)

- The document will be revised to include \$38,000 in 2017 for Wireless Upgrades.
- Network Storage will be adjusted to reflect both the 2015 and 2016 budgets, \$36,000 each, totaling \$72,000, to be funded in 2017, as that work has not yet started.

County Facility/Building Needs

- Hot Water Boilers at LEC, \$335,000 – This project was proposed to occur in 2016, and it is now not being recommended to proceed.
- Annex MUA’s at a cost of \$195,000 and Chiller Tower at a cost of \$136,500 both proposed for 2018 are now being proposed to be part of the Courts remodel project.
- The Committee requested that the 2018, 2020 and 2021 budget amounts identified as holding spots be removed.
- Discussed the programmable thermostats that are proposed to be installed at the HHSC yet this year (2016) for \$12,000. Wilczek noted to the Committee that these should only be done if County intends to retain that building for 7+ years. If the building will no longer be used within the next 3 to 4 years, than recommends that this work not be completed.
- Discussed the deferred maintenance and renovation to the existing public works building. Some work is currently proceeding, but possibility that not all of the work proposed for 2016 will be completed, some may be done in 2017. CIP would be adjusted accordingly
- Caulking and Tuck Pointing – It was noted that Staff should re-evaluate both the timing of the work and what areas that need to be done.

Administration Projects

- This is the first year that Administration has had any department specific projects within the CIP. There was discussion if a “Future Space Study” should be part of the CIP or funded through Professional Services. At this time, it is not included in the CIP.

Assessor

- It was noted that the CAMA project has been pushed out to 2018.

8-10-16 Capital Improvement/Finance Committee Minutes (cont.):Attorney

- Jworks project is not anticipated to start until 2018.

Auditor/Treasurer

- Property Tax System has been pushed out to 2018, along with the CAMA project.
- OpenGOV – Auditor will be working with other departments to see if this system would be of benefit to them in presenting data and statistics.

Highway

- Nothing new has been added to their CIP, next project will not occur until 2018.

Human Services

- HHS - EDMS project – Christine Partlow questioned unspent funds from a previous year that were not identified in the CIP. Vergin stated that she would meet with Christine to clarify the funding, and if something had been missed Vergin would correct the CIP.
- Mobile Wellness on Wheels – Young provided additional information regarding their proposal to replace the current WOW vehicle. This will be a smaller cargo type van, which will contain equipment necessary to continue to provide services to the public.

Parks

- Questioned if campground improvements could be funded through the campground fees. Harrington responded that he was not clear on that, Mattice would need to clarify that for the Committee.

Recorder

- EDMS project for land records will continue this year and into 2017.

Sheriff

- Body Cameras and Server – Hoffman stated that they have identified \$250,000 over time, as is it unknown when this will occur. The Sheriff's department is more in a holding pattern to see how the new legislation and public process will unfold.
- 800 MHZ Consoletes, due to their life expectancy are due to be replaced in 2018. The Sheriff's department as identified that they will fund 50% of the replacement through 911 funding, with the other 50% coming from the CIP.

CIP Funding Plan

Vergin stated that the projects are broken down by year and by the funding source that will be used. The last page of the Funding plan begins with year 2015 year-end fund balances for each funding source; it then identifies transfers that have been approved by the Board to fund the CIP; it identifies the anticipated expenditures for 2016 and any additional revenue sources for 2016; thus projecting out a year end fund balance for 2016.

This continues for each year moving forward, identifying proposed transfer amounts to fund CIP projects based on year-end fund balances.

Discussed the inclusion of the Highway Bond / Debt Levy. Vergin noted that the levy is projected at 105% of the debt due, as defined by State Statute. There was discussion if the CIP should recognize all debt of the County. It was the consensus of the Committee to include all debt.

8-10-16 Capital Improvement/Finance Committee Minutes (cont.):Overview – Next Steps

Vergin will meet with Partlow to clarify their funding for the HHS EDMS project; Mattice will be contacted to address the question regarding campground fees; the CIP will be updated with changes as identified today during the meeting.

Recommendation:

Present the CIP, with changes, to the COTW on August 23 with the overview of the 2017 Budget.

(End of 8-10-16 Capital Improvement/Finance Committee Minutes)

8-10-16 COMMITTEE OF THE WHOLE

Husom moved to approve the 8-10-16 Committee Of The Whole Minutes and Recommendations, seconded by Daleiden. Borrell said he doesn't feel this change is necessary, as Launette Figliuzzi, Director of Veterans Services/Nuclear, has emergency management experience. Borrell added that County nuclear drills have rated highly. He preferred to add a staff member to the Veterans Services Department than transfer nuclear emergency management duties to Emergency Management Coordinator Steve Berg in the Sheriff's Office. Borrell said it is valuable to have two staff members with emergency management training and skills in case an event occurs. The motion carried 4-1, with Borrell voicing the Nay vote. The 8-10-16 Committee Of The Whole Minutes follow:

I. Transfer of Nuclear Emergency Preparedness Department to the Emergency Manager's/Sheriff's Department

Kelly reminded the committee that this meeting was a follow-up to the Committee of the Whole held in May. Work on revising the impacted job descriptions has been started but he would like direction from the board prior to proceeding further.

Figliuzzi provided an overview of the nuclear preparedness activities conducted by her and her staff from October 2014 to October 2015. These totaled 1633 hours over a 12 month period. In addition she cited an additional 412 hours of events related to nuclear preparedness that staff were not able to attend.

In addition, Figliuzzi said her office receives 7400 phone calls per year from Veterans and their families. Transferring the nuclear preparedness duties would allow her to focus her efforts on serving veterans.

The current 2016-2017 Nuclear Grant was discussed. Historically this grant has allocated \$30,000 to cover staff costs. Sawatzke noted that in the past the board had been told that the nuclear grant covers approximately 50% of the wages of nuclear related staff, but those costs are greater than \$30,000. Additional grant funding should be requested to cover the cost of a new Emergency Management Deputy Director position. There was discussion regarding the budget logistics related to transferring nuclear preparedness. These scenarios will need to be discussed during budget meetings.

The committee identified that the job description for an Emergency Management Deputy Director should be finalized and rated by the consultant in order to identify the costs of the position for the 2017 budget. The Veteran's Service/ Nuclear Director and Emergency Management Coordinator job descriptions should also be reviewed.

Recommendation: Review and prepare job descriptions related to the transfer of nuclear preparedness duties.

(End of 8-10-16 Committee Of The Whole Minutes)

ADVISORY COMMITTEE / ADVISORY BOARD UPDATES

1. Dementia Friendly Community: Husom said she was recruited to take part in launching a Dementia Friendly Community in Buffalo to build awareness about the condition, and offer support to care givers.
2. Tri-County Regional Forensic Lab: Husom said requests for Bio-DNA tests are up 32 percent, and criminal sexual tests have increased 120 percent. A new software called STRMix will help analyze latent prints and record DNA. She cited several success stories regarding quick turnarounds that resulted in convictions. Husom said the Advisory Board approved a budget increase of 1.76 percent. Wright County's share is \$385,106.
3. Local Emergency Medical Systems Council: Husom reported on a new pulse point phone app that alerts any app user within a 1500 foot radius that someone is having a heart attack or needs CPR. It also indicates the location of nearby Automated External Defibrillators (AEDs). This is a pilot program involving Wright County, Carver County, Coon Rapids, and the University of Minnesota that will roll out on 9-01-16.
4. Economic Development Partnership (EDP)/Monticello Chamber of Commerce Luncheon: Potter said the EDP joined up with the Chamber for a Learning Luncheon on 8-16-16. The subject was transportation. The group reviewed a five-year plan and transportation initiatives. Potter said the EDP informed the Chamber about the new Highway 25 Coalition, which is meeting this Friday, 8-26-16.
5. Solar Committee: Sawatzke attended this Committee on 8-19-16. The next meeting on 9-02-16 may be the last one. The key point is the creation of a Developers Agreement requiring solar companies to sign a contract with the County regarding their responsibilities. If they don't fulfill them, the County will have the right to pull from their letter of credit. Borrell added that the new Agreement allows Townships to write their own ordinances that the County will enforce. Borrell said the Agreement will help keep the developers accountable.
6. Tour of Pine County Courthouse: Daleiden said the Board and other County staff toured the facilities on 8-18-16.
7. Local Government Roundtable On Regional Bufferworks: Daleiden said the event was hosted on 8-18-16 by the Association of Minnesota Counties (AMC), the Minnesota Association of Soil and Water Conservation Districts, and the Minnesota Association of Watershed Districts. Daleiden said there are a few dates of which the County must be aware. As of 11-01-17, buffers averaging 50 feet (with a minimum of 30 feet) will be required on all lands adjacent to public waters.

Daleiden said the second rule may be more of a concern to the County. As of 11-01-18, buffers of 16.5 feet will be required on all County ditches. He said the County must notify the Minnesota Board of Water and Soil Resources (BWSR) by 3-31-17 of its intent to assume enforcement of the Buffer Law. If the County decides not to enforce it by 3-31-17, BWSR will do it, although they prefer that counties take the initiative. At any time, the County may take over enforcement by giving BWSR a sixty-day prior notice. BWSR also requires information regarding how compliance and enforcement measures will be implemented. Daleiden said BWSR prefers that counties use a carrot versus a stick approach. Some agriculture loan programs are available for farmers. Daleiden said the County will need to discuss with SWCD other requirements about water courses that are not County Ditch or public waters, but have potential for impacting surface water. These must be reported and evaluated by SWCD regarding whether they should be plotted on the official Buffer Protection Map. Daleiden said at this point, the Minnesota Department of Natural Resources defines public waters to include rivers and lakes.

Daleiden said private drainage ditches are not public waters, but must be evaluated by the Soil and Water Conservation Districts (SWCDs). Currently the rules deal solely with County public waters and County ditches. BWSR will provide guidelines. The use of the Buffer Protection Map is to 1) Identify the waters;

- 2) Provide a system, and 3) Implement Buffers. If the County chooses not to enforce the Buffer Law, BWSR can ask the SWCD to do so. Daleiden said someone (perhaps either the SWCD or the Planning & Zoning Department) should have access to adjusting the Buffer Protection Map.
8. Mosquito Control: Daleiden said he has been getting a lot of calls about mosquito control measures, primarily on the eastern side of the County. Sawatzke said the Board talked about it a dozen years ago. Marc Mattice, Director of Parks and Recreation, did research at that time, and the cost was astronomical. There is also the question of whether the chemicals are safe for the environment and other species.
 9. Future Courts Tour: Lee Kelly, County Coordinator, said he made contact with the Polk County Court Administrator in Crookston, Minnesota, regarding a tour of their facilities. Sawatzke said 9-19-16 is a date that works for everyone. A time will be forthcoming after logistics including travel time are determined.
 10. Planning & Zoning Feedlot Workshop: Borrell said he attended this workshop on 8-15-16. The discussion centered on the chicken ordinance and allowing horses on smaller acreage.
 11. Safe Schools: Borrell said the presentation last week addressed child suicide and steps being taken at various schools.
 12. Reception for Kyla Mauk, 2015-2016 Princess Kay of the Milky Way: Borrell said Ms. Mauk will be recognized at the 8-30-16 County Board meeting. A reception follows at the Government Center that is open to the public.

The meeting adjourned at 9:55 A.M.

WRIGHT COUNTY PLANNING COMMISSION

Meeting of: August 18, 2016

MINUTES – (Informational)

The Wright County Planning Commission met August 18, 2016 in the County Commissioners Board Room at the Wright County Government Center, Buffalo, Minnesota. Chairman, Dan Mol, called the meeting to order at 7:30 p.m. with all members present. Sean Riley, Planning & Zoning Administrator, represented the Planning & Zoning Office. Greg Kryzer, Assistant County Attorney, was legal counsel present.

KEVIN BUTCHER – New Item

LOCATION: 10006 Fenner Avenue SE – North 26 acres of the N ½ of the NE ¼, lying east of the town road, Section 25, Township 118, Range 25, Wright County, Minnesota. (Franklin Twp.) Tax #208-200-251102 & -251100 Property owner: Morrow

Petitions to rezone from A/R Agricultural-Residential back to AG General Agricultural as regulated in 155.027, 155.028 & 155.048 of the Wright County Code of Ordinances. (Property owner has decided to pursue another option to divide off the existing house.)

Present: Kevin Butcher

- A. Riley noted as explained in the previous item, the property has been zoned A/R and the applicant is requesting to go back to the AG zone to allow an administrative split. The subdivision would be allowed a different configuration.
- B. Butcher – stated this will be more cost effective for the landowner and will not impact wetlands.
- C. Pederson agreed this would make more sense to go back to the Ag zone.
- D. Bravinder –understands the remainder parcel will be restricted land. Riley stated that is right.
- E. Butcher felt if someone in the future wants to pursue building on the rest it would be up to them. Asked if that would take a variance? Riley indicated no, the property would have to be rezoned to A/R to get an entitlement and establish that it is buildable. The restricted parcel could also be sold to someone else.
- F. Mol asked for public comment, hearing none, discussion returned to the Commission.
- G. Borrell moved to approve the rezoning to the County Board of Commissioners to rezone the property from A/R Agricultural Residential to AG Agricultural to allow the applicants to divide the property under the AG standards noting a deed restriction must be filed for the administrative division under the AG standards. D. Thompson seconded the motion.

VOTE: CARRIED UNANIMOUSLY

RESOLUTION 15-

WHEREAS The Wright County Board of Commissioners has considered a list of tax forfeited properties, with those properties classified as nonconservation land, and has also reviewed the basic sale price for each parcel, as established by the County Auditor-Treasurer; and

WHEREAS Minnesota Statutes, Section 282.02 requires that notice of the public sale of tax forfeit property be published for two consecutive weeks in the official newspaper of the County; and

WHEREAS Notice of said public sale of tax forfeit property must also be mailed to all owners of property adjacent to those properties on the sale list;

NOW, THEREFORE, BE IT RESOLVED,

- 1) That all parcels of tax forfeited land contained on the attached list, with basic sale price as listed, shall be sold at public sale on **October 4th, 2016 at 1:00 PM**, by the Wright County Auditor-Treasurer, at the Wright County Government Center, for not less than the basic sale price;
- 2) That all sales shall be by full payment of the purchase price and any fees and costs; and
- 3) That notice of said sale shall be published and mailed as required by statute.

**October 4th 1:00 PM
Wright County Courthouse, County Board Room**

The Minnesota Department of Health strongly recommends that ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy and recommends having the radon levels mitigated if elevated radon concentrations are found. Elevated radon concentrations can easily be reduced by a qualified, certified, or licensed, if applicable, radon mitigator.

Every buyer of an interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling.

Persons and entities owing delinquent taxes on other parcels in Wright County will be prohibited from bidding on parcels at this sale.

The balance of any special assessments that were levied before forfeiture and canceled at forfeiture are not included in the basic sale price and may be reassessed by the municipality. These special assessments are shown on the list of tax-forfeited land under the column entitled "Specials Before Forfeiture."

**WRIGHT COUNTY
OWNERS COMMITTEE**

**Meeting Minutes
UNAPPROVED**

July 7, 2016

10:30 a.m.

**Wright County Highway Department Building
Meeting Room C-200**

Members Attending:

Pat Sawatzke, County Commissioner
Michael Potter, County Commissioner
Virgil Hawkins, Highway Engineer
Lee Kelly, County Coordinator

Others Attending:

Ken Francois, Kraus-Anderson
Chris Larkin, Kraus-Anderson
Brad Hatfield, Building Maintenance
Alan Wilczek, Facilities Service Director
Bill Cordell, Senior Traffic Technician
Chad Hausmann, Assistant Highway Engineer
Adam Tagarro, IT Department Head
Barb Holmquist, Highway Department

The meeting was brought to order at 10:30 a.m., and Ken Francois was asked to share information.

1. Change Order Update [Attachment 1]

There were a total of three change orders presented. PCO #164 (\$1,234) was for the makeup air units in the vehicle storage area. This was to change the breaker size to a 40 amp and to upsize the wiring of both makeup units #2 and #3. PCO #127 (\$1,027) was to add cedar trim at the perimeter of ceilings. PCO #193 (\$775.00) was for compressed air piping and added valves, which were needed in order to keep operating if there were ever the need to isolate an area within the building. The projected total of change orders was \$3,036. There was a consensus that the change orders were necessary and were recommended for approval.

2. Budget Review [Attachment 2]

Overall, Francois said that the project is currently 10.5% under projected costs, and the building cleaning costs came in just under \$20,000, when they were estimated to be closer to \$35,000.

3. Project Update [Attachment 3]

Francois said that there are still a handful of issues remaining, and Chris Larkin (project superintendent) is working on them. Kraus-Anderson will be meeting with Central Roofing about the problems/defects that have been identified in the roof. A 30-year warranty was secured with the bid, and currently there are ripples and bubbles that are appearing in the surface, which is supposed to be fully adhered at this time. There are probably some areas where the membrane will have to be ripped off and redone, and Sawatzke commented that that will amount to seams where otherwise there wouldn't have been any. Francois said that there will be brand new rolls, so there will be no more seams that they would have had initially. There are too many areas that need to be fixed, so it makes more sense to redo it. A letter was sent rejecting the final product, and Wilczek said that there are huge portions of the roof membrane that need attention. Perhaps because of the winter conditions, the final product did not turn out as intended. The owner was out here last week to personally survey the problem, and he is fully involved with Wright County on this issue. They will come to a resolution, and all have agreed that the final product, at this point, doesn't look good. They all want a

good product for the county, both in functionality and in appearance. There is a 30-year warranty for this roof. It is functioning well, but it needs to be replaced. The 30-year warranty is prorated, so they want to make sure that the product is good from the beginning. This will be fixed at no extra charge.

The office doors in the front office end of the building will be getting new door jambs as the door latch was cut in the wrong place. New jambs have been ordered for the strike location, and the company will be working around the office schedule. Work will take about one-half hour per door.

The overhead garage doors continue to be an issue, with the concrete slab underneath the point of contact sloping toward rather than away from the inside of the shop area. There are a couple of options to consider, including cutting out or grinding out some of the concrete in order to change the slope. Sawatzke asked if the plans had been correctly drawn up, and Francois said that plans called for it to be flat for that six inches, but it was not constructed according to the architectural drawings. This won't affect operations, but they still don't want water coming in under the doors and flowing inside. Sawatzke said that if that happens, the water will freeze when the temperature drops. Francois said that this is why he is pressing this issue and asking them to fix it. Fleet services still has not moved into the new building.

Another problem encountered in both the fleet services and storage areas is that the metal plates for the trench drains (and/or the ledges they rest on) just inside the outside garage doors are defective, and some grates have fallen into the trenches when heavy equipment has driven over them. The problem might have been caused when the grates were packaged and caused the ledges on which they are to rest become misshaped. A representative from the company will be flying in from Boston to take a look at this problem and to help suggest a solution. Either the grates too small or the opening is too large. They will try to figure out how to make it operational. In the meantime, plates have been secured over the grates they are concerned about so that trucks can enter the building without damaging either the tires or the cavities.

The door on the engineering testing room will be fixed so that the handle is at the correct height.

Operators are currently working on the card readers in the designated doors throughout the building. Francois said that there will be 100 tags for vehicles that will allow them access into the fleet storage area through the overhead doors when fully locked. The vendor is still in the process of programming them. Access groups can be set up for use of the tags, similar to how the groups were set for interior and exterior door access throughout the building. The gates will accept a programmed key card, and tags will also be mounted inside the vehicles. If a vehicle is unable to enter a locked gate during business hours, a video/intercom system can be activated in the front office to open the gate(s) and allow admittance. At this time, the overhead garage doors are timed to close 30 seconds after opening.

Interior fencing will be installed in vehicle storage on Tuesday.

They have been experiencing some difficulties with the Hotsy wash bay system, as it doesn't appear to be correctly interfacing with the outside air damper. Hot water is not yet available, so they are hoping to get that figured out today.

The monument designed for the north entrance to the parking lot is scheduled to be placed in the next two or three weeks, and the lettering will come later.

Francois said that Larkin has been working with the various contractors on the punch list that was drawn up by the architects. Once each item is taken care of, he will sign off on it and then have the engineer sign off until all items are completed. Francois said that all posts and garage doors have been galvanized so that they won't need paint.

4. Other:

Wilczek asked about the rebates that were first available when lighting design changes were made to meet the rebate criteria, and Francois said that this will have to be done before the final sign off occurs. Once the books are closed, it becomes much tougher to collect the rebate. He will need invoices on the light fixtures for proof of expenditure.

Larkin, the project superintendent, will be on site until approximately July 18, and then he will be in and out as he moves on to another project. Larkin stated that electrical and mechanical work was done this week and the architects have some hardware ordered for other issues. The painter will be back to do some touchup work, and then work should be 95-98% done this week. Anything open after two weeks from then will be tracked and fixed so as not to interfere with Highway business going on inside the building. Both Francois and Larkin will be the contacts for this.

Wilczek asked if the cameras were all installed, and Larkin said that they were installed in some areas but wasn't sure where they all were. There are still some things to correct with the supplies that were received. Sawatzke asked about the final landscaping and whether the large pile on the north side of the building would remain where it is. Hawkins said that this is actually part of the gravel that the Highway Department will be mining during the next 10 years. Some regrading will be done and pavement markings will be put down in the parking lots next week, weather permitting, and parking spaces have been marked in the fleet storage area and will be striped close to that same time. The turf and landscaping still need some attention, and New Look will be taking care of this. The area around the building appears to be filled with rocks and needs more top soil. Francois said that they will have to come back and he will make sure that they take care of it.

Tagarro said that the AV work is running a bit behind, but he is hoping to touch base with the electrician to start finalizing all the work necessary to complete the connections from the servers to the screens in the conference rooms.

A minimum of five percent (5%) will be withheld from final payments until all work is satisfactorily completed.

5. Set Meeting Date:

A tentative meeting date for the next Owners Committee was set for Thursday, August 4, 2016 at 10:30 a.m. Sawatzke indicated that he would like to get updates on the final progress of this project. He said that he is not overly concerned about the quality of the work, but that a few items don't seem to have easy solutions. Francois said that he would give an update at the next meeting.

The meeting was adjourned.

Respectfully submitted,

Barb Holmquist

Remaining Known Issues

July 7th, 2016

ATTACHMENT 3

Open Issues:

- Building:
 - Roof Corrective work.
 - Aluminum Office Door Jamb Replacement scheduled for week of July 20th.
 - Overhead door thresholds. Donlar is presenting 2 options to correct the issue.
 - Trench Drain Grates: Weidners has the manufacturer's rep from Boston come out next week. In the meantime they will replace any faulty grates with metal plates to keep the space safe.
 - The Shaker Closet Door: Kendell intends to modify the door to raise the hardware the week of July 20th.
 - Card readers on the gate operators are scheduled to be completed week of July 11th.
 - Interior fencing will be installed Tuesday July 12th.
 - Hotsy wiring interface with damper. Climate Air and Hotsy are working out the wiring details.
- Site:
 - Monument Sign Scheduled to be installed the week of July 11th.

**WRIGHT COUNTY
OWNERS COMMITTEE**

Meeting Minutes

UNAPPROVED

August 4, 2016

10:30 a.m.

**Wright County Highway Department Building
Meeting Room C-200**

Members Attending:

Pat Sawatzke, County Commissioner
Michael Potter, County Commissioner
Virgil Hawkins, Highway Engineer
Lee Kelly, County Coordinator

Others Attending:

Ken Francois, Kraus-Anderson
Pat Sibley, Kraus-Anderson
Dan Lind, HCM Architect
Brad Hatfield, Building Maintenance
Alan Wilczek, Facilities Service Director
Bill Cordell, Senior Traffic Technician
Chad Hausmann, Assistant Highway Engineer
Steve Meyer, Highway Maintenance Superintendent
Brian Jans, Highway Shop Superintendent
Adam Tagarro, IT Department Head
Barb Holmquist, Highway Department
[See Attachment 1]

The meeting was brought to order at 10:30 a.m., and Francois introduced Pat Sibley as the new project superintendent who will help wrap things up on this project. Former project superintendent Chris Larkin was called to substitute on another project site.

1. Change Order Update [Attachment 2]

There were a total of eight change orders presented for a total of \$14,953. PCO #195 (\$1,648) was to cover the cost of lowering the breakroom cabinets for easier access and to install a filler from the soffit to the top of the lowered cabinet. The cabinets had been installed as drawn, but the ceiling height caused them to be at an inconvenient height. PCO #198 (\$3,775) was to install additional 20' fence sections at the gates to prevent vehicles from driving around the gates (where there is no obstruction). PCO #199 (\$1,125) is to cover the cost of replacing a single pane window with a sliding window with a lock in the parts room. PCO #200 (\$513) was to change the outlets in the welding bay to GFI outlets, the necessity of which Francois said is up for discussion, but the inspector's interpretation prompted the change. PCO #202 (\$3,791) was necessary to install below-grade safety loop wiring at the exterior gates, so that it doesn't shut on itself. PCO #203 (\$1,125) covered the cost of adding a light in the engineering/testing/shaker room located in the fleet storage area. PCO #205 (\$2,225) was to extend the electrical receptacles down to the hose reel beams for the retractable power reels. PCO #206 (\$751) covered the cost of adding two speaker horns in order to achieve adequate fire alarm coverage in the hallway and fleet storage area. There was a consensus that the change orders were necessary.

2. Project Update [Attachment 3]

Some additional IT items still need to be addressed, such as some jacks that need to be redirected. The overhead interior door in the sign shop is not able to be closed from the fleet area, unless an individual reaches inside the room while standing in the fleet area, and this would not be a good practice. The likely solution is probably to install a closing switch/button on the outside of the sign shop, near this

door, so that the door can be closed after exiting the sign shop. Cordell stated that he would like to keep the sign shop secured. Meyer expressed his concern that the timing on the overhead garage doors should be shortened from 30 seconds to 15 seconds. Research is still being done to help alleviate the problem of poor signal for cell phones at the new facility. Tagarro said that coverage is not good and the cost is probably going to be significant to correct the problem, perhaps as high as \$50,000. Cell phones and the two-way radios are two separate projects. Most of the architectural/cosmetic punch list items are being addressed and are going well, with many of them completed. There are still a handful of items to cover, but most of them are related to New Look, the landscape contractor. Francois has been working on getting New Look to use some good top soil and to get the area reseeded. He is also checking on what can be done with the catch basin and the price of taking care of that.

The roof needs corrective work, and the manufacturer and Central Roofing offered three different options, one of which is invalid according to Francois. The other two options are being reviewed in order to figure out which is the best way to move forward. Francois said that he would like to get started on a final solution and see what is best in order to keep the warranty intact.

The aluminum door jambs are supposed to be sent to Empire House, perhaps next week, and then the work will be done during the week of August 8th. This should take about two days to complete.

Donlar is going to provide a sample for the overhead door thresholds in the fleet area, so a decision will have to be made to see if that is satisfactory. If not, they'll have to do some more research and figure out how to correct the problem caused by a slope going into the building from the threshold under the door. The company has proposed bolting down a plate to take care of the slope, but Sawatzke commented that this would not be a good long-term solution, and Jans agreed. Francois said that they can review it and then still reject it if it doesn't seem satisfactory. Lind said that there is still an option of grinding the surrounding surface down or replacing the sections.

The manufacturer's first suggested solution for the failed drain trenches did not work. Hawkins said that Jans came up with a possible solution, but it was rejected by the Josam company. Francois agreed that there are two options, either cut concrete out for a larger ledge or provide a deeper ledge for a deeper grate. Currently, this is back in the manufacturer's hands. The grates are going to need to be able to bear more weight than they are capable of at this time.

Representatives from the Hotsy wash bay system company will be out here Wednesday next week to check on a number of things that might be interfering with the proper performance of the system. They hope to be able to resolve the issues soon so that the car wash can be operated.

The monument sign has been installed, but the metal panels are still three weeks out. After the metal panels are installed, the lettering can be added.

New Look is scheduling a time to replace the top soil that was put down in error. They will strip the current covering and replace it with good soil and then reseed. Someone from the company is also coming out to reset the timing of the irrigation system. Wilczek said that it needs to keep running every two hours for germination, and Francois said that he will double check to see if the system has a rain sensor to help avoid watering during rainfalls, which is generally not a favorable impression to the public, and not a good practice in general.

3. Budget Review [Attachment 4]

Sawatzke said that he would like to see the overall project budget updated to get an idea of how many funds might be remaining when compared to the original estimates. Francois said that current expenditures are still under budget. He suggested that most companies carry a balance for about a year for the things that come up as the building is inhabited, and Potter agreed that this sounded reasonable. Sawatzke said that any money left over from this project will be used for changes/upgrades to the building next door (former Public Works/Highway/Parks/Surveyor Building). He added that funds used for improvements should come out of the building bond fund.

Additional expenditures from this point forward include but are not limited to items such as chairs, clocks, conference tables, chairs mats, bulletin boards, mail slots, and shelving.

Some of the big items continue to present a challenge, and it was agreed that getting it right from the beginning was important and preferable to fixing it in the future.

Tagarro said that all the AV work is now done and they are waiting on the network connections to be completed.

4. Set Meeting Date:

A tentative meeting date for the next Owners Committee was set for Thursday, September 8, 2016 at 10:00 a.m. Both Sawatzke and Potter agreed that they would like to have another meeting to see how the issues have been addressed and, perhaps, resolved.

The meeting was adjourned at 11:20 a.m.

Respectfully submitted,

Barb Holmquist

Change Order Review

Change Orders Presented for Approval:

1. **PCO #195 – Total \$1,648:** Lower the breakroom cabinets 8" and install a 8" filler above the cabinets.
2. **PCO #198 – Total \$3,775:** Add 20' fence sections onto the new gates.
3. **PCO #199 – Total \$1,125:** Provide a sliding window with a lock at the parts room.
4. **PCO #200 – Total \$513:** Change the outlets in the welding bay to GFI outlets per the inspector.
5. **PCO #202 – Total \$3,791:** Install the below grade safety loop wiring at the exterior gates.
6. **PCO #203– Total \$1,125:** Add a light in the eng/testing shaker room.
7. **PCO #205 – Total \$2,225:** Extend the electrical receptacles down to the hose reel beams for the retractable power reels.
8. **PCO #206 – Total \$751:** Add 2 speaker/horn to achieve adequate fire alarm coverage.

Total Change Orders Presented: \$14,953

Wright County Highway Department

Remaining Known Issues

August 4th, 2016

ATTACHMENT 3

Open Issues:

- Building:
 - Roof Corrective work. The manufacturer and Central roofing issued a letter offering 3 potential solution that is currently being reviewed.
 - Aluminum Office Door Jamb Replacement scheduled for week of Aug 8th.
 - Overhead door thresholds. Donlar is installing a sample from county review next week.
 - Trench Drain Grates: Any faulty grates have metal plates to keep the space safe. The manufacturer's first solution failed earlier this week so they are working on coming up with other options.
 - Hotsy – The engineer issued a PD to the electrician and mechanical contractors on Monday that will resolve the issues.
 -
- Site:
 - Monument Sign – Precast panels are set however the metal panels are still several weeks out.
 - New Look is scheduling a time to replace the top soil and seeding.

RE: Medical Hardship Mobile Home – Applicants are Carol and Robert Wurm

Notice for this request was sent to the required neighbors and the Town Board on August 19, 2016. The property is located in Maple Lake Township at 4729 County Road 7 NW, Maple Lake, MN. Staff have reviewed the request and have been working closely with the applicants. Our EHO's have determined the newly proposed on-site septic for the existing home can be used for this additional mobile home and will be addressed through the permitting process.

Since we do have an ongoing concern that these mobile homes have a tendency to become permanent, especially once there is an investment in plumbing connections and sewer, Staff would request the County Board emphasize, on the record, that this use is temporary and that the mobile home must be removed when no longer used for an approved medical hardship. Also the applicants would be reminded that a building permit and sewer permit are required after the County Board action, if approved. The applicant is currently working with our building inspector and Environmental Health Officer on permitting requirements.

Considering the size of the property and the data we have so far, Staff have no issues with the request and the proposed location. Please schedule this for the August 30, 2016 County Board Agenda.

Pursuant to Wright County Ordinance 85-2 (as amended) "Supportive Care to the Frail, Elderly or Disabled":

This is your notice that the Wright County Board of Commissioner has received application for the placement of a mobile home on the following described property:

Tax #210-000-072400

Legal Description: Part of the SE ¼ of NW ¼, Section 7, Township 120, Range 26, Wright County, Minnesota. Containing Approx. 40 acres (Maple Lake Twp.)

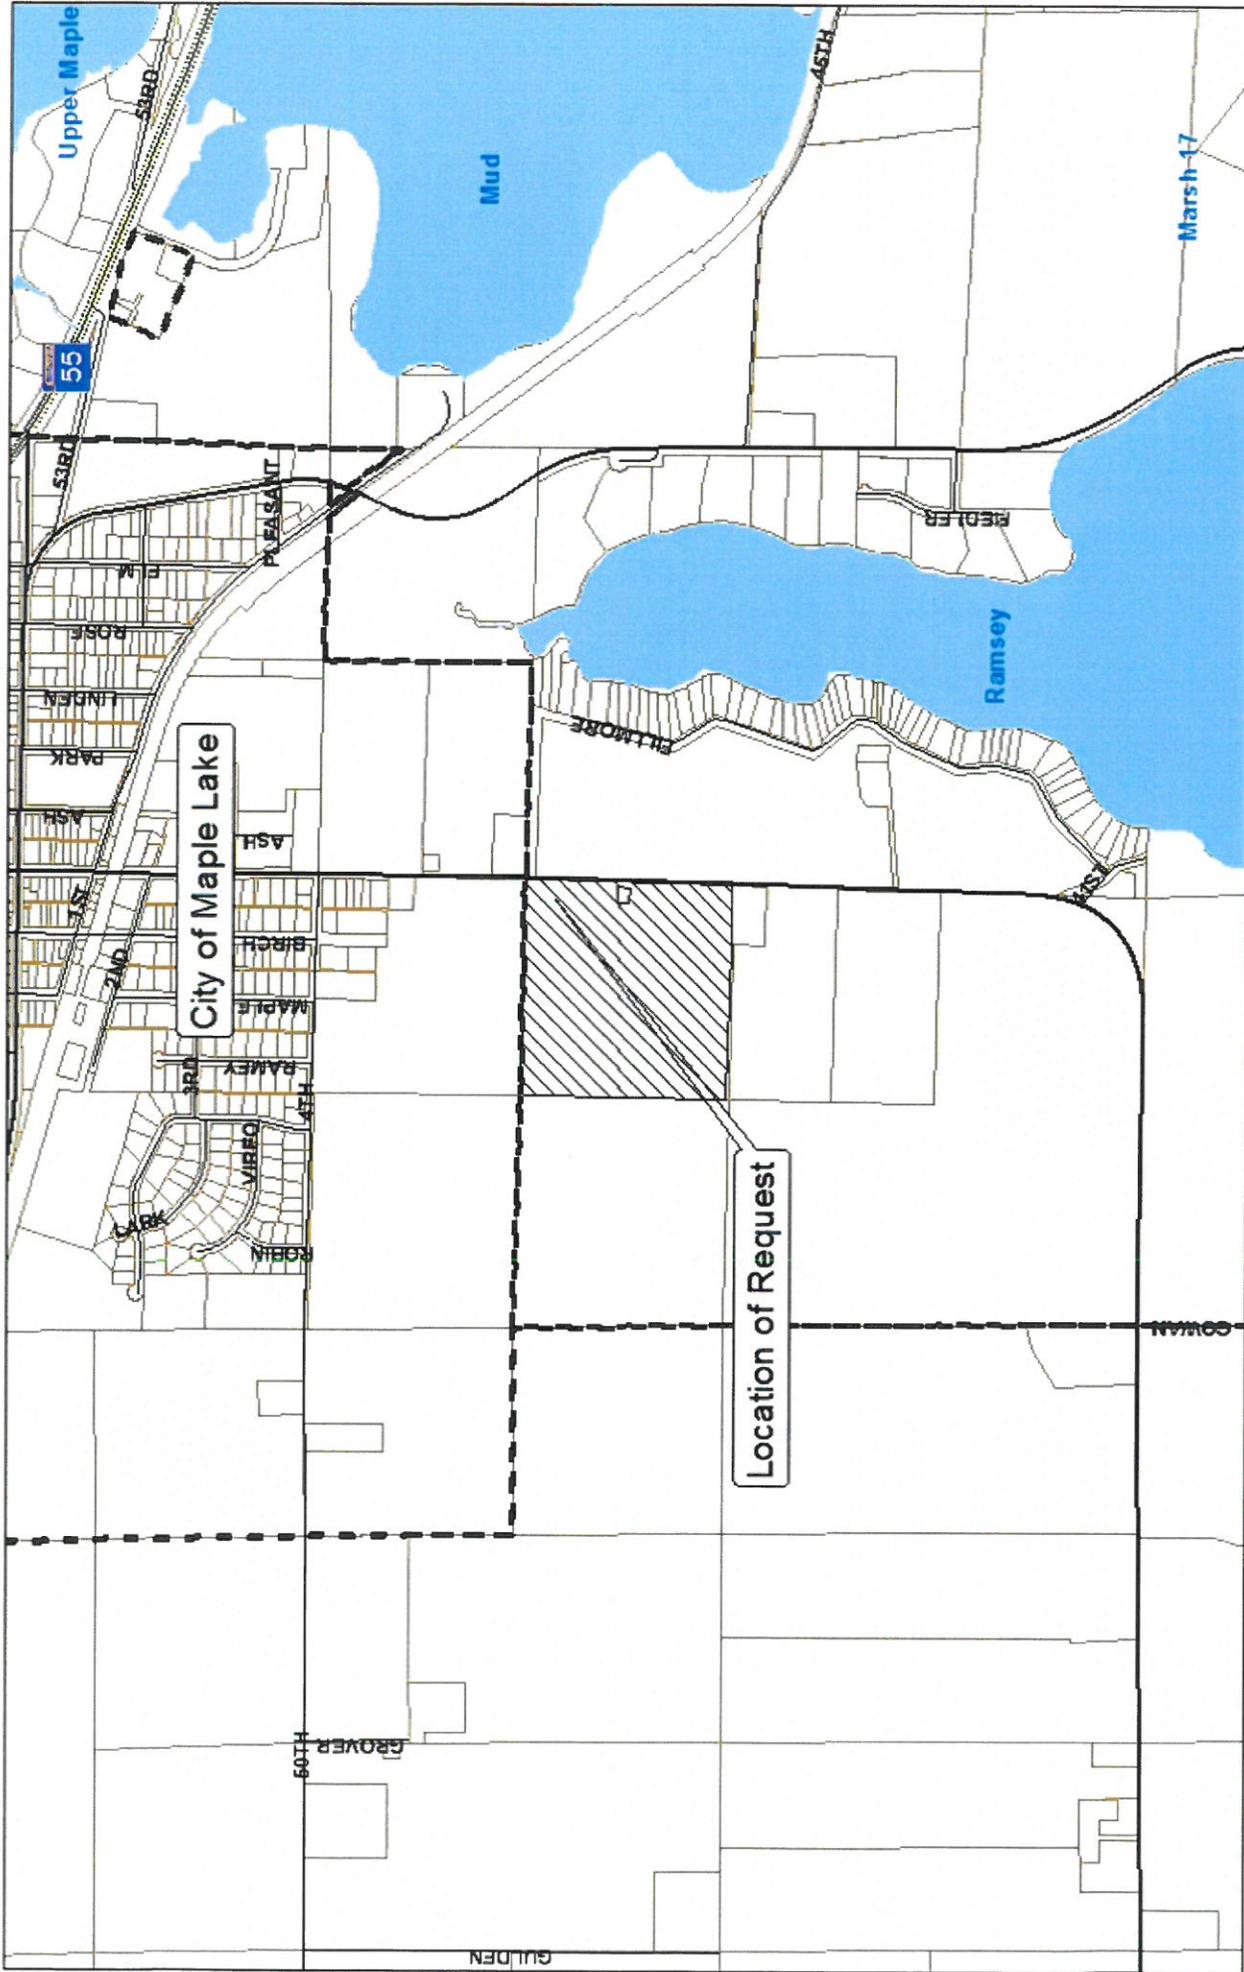

Property owner and address: Robert & Carol Wurm
4729 County Road 7 NW
Maple Lake MN 55358

YOU MAY SUBMIT WRITTEN COMMENTS FOR THE COUNTY BOARD TO CONSIDER, OR YOU MAY DEMAND A PUBLIC HEARING BEFORE THE COUNTY BOARD IF YOU OBJECT TO THIS MOBILE HOME PLACEMENT. Comments or request for hearing should be submitted to:

Lee Kelly, County Coordinator
Wright County Government Center
10 Second Street NW, Room 235
Buffalo, MN 55313

YOUR RESPONSE MUST BE RECEIVED BY 12:00 NOON ON WEDNESDAY, August 24, 2016. The County Board will review the request at their meeting on **Tuesday, August 30, 2016.** You are not required to respond, and if you do not send any response, then it will be assumed that you have no objection this request.

LOCATION MAP - Robert & Carol Wurm

This map was compiled from recorded documents and does not reflect an actual survey. Wright County does not assume responsibility for errors or omissions herein.

Mobile Home Placement through Wright County Supportive Care to
Frail, Elderly or Disabled Ordinance (1998)

Following an assessment to determine the appropriateness of a mobile home placement to provide care and /or supervision for a frail, elderly or disabled person, the screening team recommends:

- A mobile home placement would be appropriate.
- A mobile home placement would NOT be appropriate.

RE: Robert & Carol Wurm

ID # 210-000-072400

Placement of Mobile Home on Property

To Whom It May Concern:

We have two concerns to move a mobile home on to the above mentioned property:

1) We believe the existing sewer system is not up to code. We have cause to believe the existing system drains into our farm tile and not a drain field. This drain tile drains into Ramsey Lake. If this is found to be non compliant, we request compliance be met prior to the placement of the mobile home.

2) We also request that the mobile home meet all zoning setback requirements according to actual surveyed property markers (lines).

If you want to know where the property lines are (I do have a current survey) and to locate the drain tile I will gladly meet with you.

Sincerely

John & Rita McAlpine

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

BUILDING COMMITTEE
MINUTES
August 24, 2016

MEMBERS PRESENT: Potter, Daleiden, Kelly

OTHERS PRESENT: Wilczek, Tschumper, Jobe, Chur, Goodrum Schwartz

I. Courtroom Bench Remodel Designs

Wilczek presented information that a decision was made by Tschumper and staff to keep the existing courtroom 5 clerk workstation at the existing elevated height and add the second station to the side at floor level. Wilczek noted that the decision will be communicated to Wold Architects for design consideration. Tschumper reminded the group of the August 5th letter from Judge McPherson that courtroom 1 design options were not suitable and there will not be modifications to that room at this time. She indicated there would be an ongoing effort to be creative with the calendar and use of that particular room. The group spoke about the timing of the project and that it would depend on material availability. Potter & Daleiden indicated there are a number of local cabinet & furniture shops that could potentially complete the work in a short timeframe. Wilczek indicated he would be speaking with Wold to discuss.

Recommendation:

Daleiden and Potter recommended continuing to move forward with the project and completing the work to courtrooms 2 & 5, preferring to use local shops to make the modifications if possible.

II. Modification To The Human Services Center Room 127

Wilczek provided an update on the status of the room 127's north emergency exit door and moveable partition as well as the building's east exit door. The projects are awaiting delivery of materials and the doors are planned to be completed at the same time as the wall. Delivery is expected in roughly 3-4 weeks. Goodrum Schwartz asked about the work scheduling and Wilczek indicated the work would be completed on a Friday evening & Saturday as to not disrupt the functionality of the space during business hours. Wilczek will notify Goodrum Schwartz in advance of scheduling.

Recommendation:

Update only, no recommendation.

III. Annex Restroom

Wilczek provided an update on the project and the status of the architect's work. The full bid document set has been delivered by the architect and reviewed by Wilczek. There are several changes to notes and specs that will be modified and resubmitted. Upon completion of the modifications, the set will be ready to go for bid.

Recommendation:

Update only, no recommendation. It was noted by Daleiden & Potter the project will be considered for 2017.

IV. Public Works Deferred Maintenance & Remodel

Wilczek provided updates on the status of the architect work, the consultant work, and the shop area modifications. The architect's plan is nearly final, pending a couple modifications and is moving to bid documents. Chur, Jobe, and Mattice have agreed with the current plans and configuration. The consultant's full report of the findings and recommendations for the roof and windows has been submitted, however there is a meeting scheduled for 8-30-16 to discuss the findings and go through the recommendations. There are multiple options for the sloped roof and window replacement plans based on the findings to this point, and Wilczek needs to meet with

Inspec to discuss those options. More details will be available following that meeting. Jobe presented a proposal to Daleiden & Potter, looking for approval to move forward on shop bench & misc. office furniture purchases to fit the current workspace that will not be modified. The total cost was noted to be \$2000 for workbenches and approximately \$6000 for office area work surface with underfiles (similar to what the new HWY building office installed), a conference room table, and chairs. Chur indicated that Extension does not need any cubicles in their work area and Wilczek noted they will be eliminated from the architectural plans.

Recommendation:

It was recommended by Potter and Daleiden to move forward with the purchase of the work benches for the shop area and the conference table & chairs. Daleiden indicated he would like to explore the work surface & file furniture further, and would be stopping at the site to review with Jobe. Potter & Daleiden recommended that Wilczek keep moving forward with the drawings and report roof & window recommendations for discussion at the next building committee meeting.

V. Compost Facility Storm Damage Repair

Wilczek provided an update on the site in that MCIT has delivered their loss report and recommendations through Tim Dahl. It was noted the payout value if repaired was \$117,800. Wilczek has connected with Marcus Construction of Willmar, MN and will be meeting with their representative at the site on 8-30-16 to obtain a construction bid to repair. Marcus Construction is the local certified company for Varco Pruden buildings. After their proposal is delivered, a discussion will be needed to decide a plan for the site. At that time, the engineer report, the MCIT report, and the construction bid will be in hand for discussion and a final decision.

Recommendation:

It was recommended by Potter and Daleiden to wait for the Marcus Construction bid to arrive before moving forward. It was discussed by the group that likely a meeting of the whole will be appropriate at that time and will be recommended when all information is delivered.

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

PERSONNEL COMMITTEE MINUTES
COUNTY BOARD
August 24, 2016

MEMBERS PRESENT: Husom, Sawatzke, Kelly

OTHERS PRESENT: S. Hesse, V. Hawkins, C. Hausmann, S. Jobe

I. Request to Reclassify Senior Engineering Technician-Traffic to Traffic Engineer

Request to approve reclassification of one (1) Senior Engineering Technician FTE specific to traffic engineering expertise to a Traffic Engineer classification. The responsibilities related to traffic engineering have evolved over time requiring revisions to the job description to accurately reflect the essential duties of the position and the minimum qualifications necessary to perform those duties.

This request is being brought before the board for consideration outside of the scheduled as defined in Policy 101 Position Classification and Reclassification due to the upcoming retirement of the current employee responsible for traffic engineering duties.

Recommendation: Approve request to reclassify one (1) Senior Engineering Technician FTE specific to traffic engineering responsibilities to Traffic Engineer.

II. Performance Review – Steve Jobe, County Surveyor

Recommendation: Based on three (3) reviews received, the Committee recommends a rating of “Meets Expectations”.

WRIGHT COUNTY TECHNOLOGY COMMITTEE MINUTES

8/24/2016

MEMBERS PRESENT: Borrell, Daleiden, Hawkins, Hiivala, Goodrum Schwartz, Jobe, Kelly, Partlow, Rasmuson, Tagarro.

OTHERS PRESENT: Cooper, Meyer, Nelson, O'Dell, Robertson, Strobel, Vergin.

I. LiveWright Website

Presented by Mikaela Robertson, Public Health

Health and Human Services have requested a website for the Live Wright initiative, as a collaboration effort by Public Health with partners in the area to promote healthy living in Wright County. The reason behind requesting a website, separate from the Wright County public website, is the need for LiveWright to have an identity as an entity, representing a number of agencies and partners, and for these organizations to continue to have a shared sense of ownership over Live Wright. Tagarro explained this requested has been vetted through IT and Administration departments, with a recommendation for creating a governance document, which should include a disclaimer and agreement for partners to maintain the website.

This website is going to be funded through Public Health SHIP grant. If the funding expires, the website will cease to exist.

Recommendation: Approve Public Health with creating and maintaining Live Wright website.

II. ACom Accounts Payable Solution

Presented by Bob Hiivala and Lindsey Meyer, Auditor/Treasurer Department

Hiivala informed the committee that Auditor/Treasurer Department has been actively evaluating an Accounts Payable solution, ACom.

Meyer stated that other counties' solutions have been considered as well. A while back RTVision was considered as a potential solution, until their solution development took a turn to focus on business processes, not desired by Wright County. Kandiyohi and Lyon counties are currently working on implementing ACom solution. The solution is flexible to either be housed on-site or in the cloud. It provides document management and approval workflows, in addition to electronic checks feature. Committee members questioned the appeal of this solution over current county-owned Electronic Document Management System (OnBase). Hiivala responded that this solution could be deployed faster than developing solution from scratch.

Committee members discussed an enterprise initiative of leveraging County investment into the two major Electronic Document Management platforms (SharePoint and OnBase), flexible

enough to handle multi-department needs. Strobel recommended for this solution be added to the list of vendors/solution to be vetted through during the “E-Claim/E-Invoice” project. The project been placed on hold a while back per Hiivala’s directive due to two other projects taking priority over it. Committee discussed projects prioritization. The “E-Claim/E-invoice” project has been re-prioritized, being next in order to complete, before the “Credit Card Acceptance” project.

Action: Information only.

III. Office 365 Update

Nelson reminded committee that it is a new way to buy Microsoft Office. It is subscription based and brings additional features. Currently this initiative is in the analysis phase. Hiivala stated that the county is going to be moving with purchasing Office 365 starting in 2017. Budget numbers are still being worked on.

Action: Information only.

IV. IT Staffing Requests for 2017

Telecom Specialist: Tagarro stated that the need for additional staff has been identified with newly discovered information this year about lack of expertise in 800MHz/ARMER radio equipment. We've discovered that we have equipment without any support agreements on it, neither do we have any experts/staff to be dedicated to support the system. In addition, Wright County has over 800 land phones, and a very complex phone system in need of on-going maintenance.

Systems Engineer: Tagarro stated that this request is based on the prediction of growth for Wright County, as additional buildings and equipment are being added. There is a need for an additional infrastructure support person.

Discussion followed.

Action: Information Only

THESE MINUTES ARE IN DRAFT FORMAT AND REQUIRE APPROVAL BY THE COUNTY BOARD

WAYS AND MEANS COMMITTEE
MINUTES
August 24, 2016

MEMBERS PRESENT: Sawatzke, Husom, L. Kelly

OTHERS PRESENT: Asleson

I. Conveyance of Parcel in Franklin Township

Asleson contacted Dick Grinley who is representing the family with a shared interest in the parcel. Grinley informed him that his client would be interested in purchasing the County's interest in the property. Asleson recommended the meeting be closed to discuss the asking price for the County's fractional interest in the property (PID number 208-200-204400). The meeting was closed at 8:46am under MN statute 13D.05(c).

The meeting concluded at 8:52am.

Recommendation: Asleson will contact Mr. Grinley to discuss the sale of the County's interest in the property.
