Wilczek said ten bids for this project were opened at the 12-20-16 County Board meeting. The low bid was Berwald Roofing Company, Inc. at \$240,510. Wilczek said INSPEC, an engineering consultant for the project, discussed the bid with Berwald. INSPEC supplied a letter of recommendation stating that the bid is valid. Potter moved to award the bid for the Public Works Building Partial Roof Replacement to Berwald Roofing Company, Inc. in the amount of \$240,510. Daleiden seconded. He asked whether INSPEC feels the steel roofing will solve the current issues, and

whether they will stand behind the product. Wilczek said yes, they designed it, and will stand behind and inspect it. The motion carried 5-0.

**SEAN RILEY, PLANNING & ZONING ADMINISTRATOR**

1. Accept the findings and recommendation of the Planning Commission and adopt the amendments to the Wright County Code of Ordinances, Title XV Land Usage & Zoning as follows:

A. Section 155.003 to require setbacks for essential services not located within Public Road Right of Ways and exempt County and Township structures from Conditional Use Permitting.

Assistant County Attorney Greg Kryzer presented Ordinance Amendment 16-8 for Riley. Kryzer said the Amendment deals with amending setbacks and definitions for essential services in the Wright County Zoning Ordinance Chapter 155. Kryzer distributed commentaries from Buffalo, Cokato, Corinna, Franklin, Victor, and Woodland Townships, as well as the City of Cokato. The Planning Commission recommended approval of the Amendment.

Daleiden moved to approve Ordinance Amendment 16-8, Section 155.03, to require setbacks for essential services not located within Public Road Right of Ways and exempt County and Township structures from Conditional Use Permitting. Borrell seconded. Kryzer recommended that other Townships consult with their attorneys to put a road permitting utility system in place. He explained that the setbacks apply to both Township and County roads. However, Kryzer said, the County is exempting utilities placed in the road right of way, which is where the permitting system comes into play. The County only permits utilities on County roads and highways. Townships need a permit system for their own roads, but the setbacks still apply. The motion carried unanimously.

4. Water Management Task Force: Daleiden said the Task Force met on 12-15-16. Most of the discussion was dedicated to the invasive species budget for 2017. They provided information regarding the occurrence of Starry Stonewort at Lake Sylvia. Daleiden said most, but not all, of the Starry Stonewort was removed. He said the biggest disappointment was that the Minnesota Department of Natural Resources (DNR) didn't close the lake access when they had the opportunity.
5. Central Minnesota Emergency Services Board: Borrell said the Board met last Wednesday and discussed NextGen 911, which will allow text messages to 911. Initially, it will be set up regionally. Borrell said this service is set to launch in 2017. Husom added that citizens will be able to send photos to NextGen911 from their smartphones, which will be a great aid to emergency responders.

**PRESENTATION OF RETIREMENT PLAQUE TO COMMISSIONER PAT SAWATZKE**

County Coordinator Lee Kelly congratulated Commissioner Sawatzke on 26 years of service to Wright County. He said over the years of his service, the County has experienced great growth. Kelly said he appreciates the insight on the many issues that Sawatzke dealt with over the last 26 years. He is amazed at Sawatzke's sharp memory about County Board history and his ability to mentally calculate numbers. Kelly said Sawatzke will be greatly missed, and presented him with a plaque.

Sawatzke said he never expected to be on the County Board for 26 years. He bequeathed his 25 year mug to reporter John Holler, who attended Sawatzke's first County Board meeting. He listed staff and County Board members who were at the County in 1991 when he started.

Sawatzke said he served with Dick Mattson and Jack Russek for more than twenty years. Later, Elmer Eichelberg was elected, and he, Russek, Mattson and Sawatzke served fourteen years together. He said it was an unusual situation, and speaks to consistency in government. Sawatzke said that is what makes him the most proud, not that there was longevity for its own sake, but that it indicated satisfaction on the part of citizens.

Overall, Sawatzke said he served with fifteen Commissioners. He didn't always agree with them, but he does have respect for them. He is proud of the County's open government, and the way citizens can come to the podium and talk directly with the County Board. He hopes that the County Board continues this practice. He said the citizens of Wright County are customers, and an overwhelming number of County staff provide good customer service. Every person in the organization has the opportunity to make a positive difference in the lives of the people of Wright County, sometimes for a lifetime. Sawatzke said in 1991 there were 335 County employees. Now there are more than 700. He is proud when he hears positive feedback on County employees.

Sawatzke said Wright County citizens are good people, and that makes it much easier to serve them. He said among other counties in the State, Wright County's crime rate is one of the lowest, and voter turnout is one of the highest. Unemployment is low by comparison as well, and so is the poverty rate. Sawatzke commended Wright County citizens for taking care of themselves, working hard, and doing the right thing. He said they strive to make a contribution to society. They display a strong sense of citizenship and community pride, and that makes Wright County great. He was proud to be a Commissioner from a County with citizens who exhibit these characteristics.

Sawatzke said he has been through seven elections, and was given the opportunity to serve each time. He thanked the residents of his District for their support. He said he appreciated their votes and hopes he never let them down. Sawatzke said the Board accomplished a lot during the last 26 years. He stressed that efficient government helps citizens the most. Sawatzke said he is proud he took a stand on issues that he felt were in the best interests of the County and its citizens.

Borrell said it has been a real honor to work with Sawatzke on the County Board, not just because of his knowledge, but for who he is as a person. Borrell said Sawatzke truly cares for the County and its people. He thanked Sawatzke for teaching him a lot during the last four years.

Daleiden agreed, saying he would miss Sawatzke's knowledge of County history. He appreciates everything he learned from him. He said they didn't always agree, but clearly, Sawatzke cares about the citizens of Wright County.

Potter said he and Sawatzke have had disagreements over the years, but he appreciates how, once a vote was taken, the matter was done. He thanked Sawatzke for his service to the County.

Husom said Sawatzke was very patient with them as new Commissioners four years ago. She said his memory and ability to come up with a number amazed her as well. She thanked Sawatzke for his guidance, saying it has been a good four years.

The meeting adjourned at 9:48 A.M.

WRIGHT COUNTY  
GREEN VIEW, INC.  
MAINTENANCE AGREEMENT  
January 1, 2017 - December 31, 2017

THIS AGREEMENT, made by and between GREEN VIEW, INC., 305 Roselawn Ave E, Suite 150, Saint Paul, Minnesota 55117 and WRIGHT COUNTY, 10 2<sup>nd</sup> Street NW, Suite 235 Buffalo, Minnesota 55313.

Green View, Inc., a non-profit organization, has a program through which needy, elderly persons are recruited, employed, and periodically supervised in the performance of maintenance, custodial, and public service duties.

Wright County has determined it has need for the services of these needy, elderly persons in providing maintenance services at the Wright County Public Works Building, 1901 Highway 25 N, Buffalo, Minnesota 55313.

Wright County desires to acquire, and Green View, Inc. desires to supply, these maintenance services.

This agreement shall be in effect from January 1, 2017 through December 31, 2017.

It is mutually agreed that this maintenance project will be carried out under the auspices of Green View, Inc. and subject to the following terms and conditions:

- I. Green View, Inc. shall:
  - A. Recruit and hire all personnel required.
  - B. Periodically supervise Green View, Inc. employees.
  - C. Administrate the payroll and all fringe benefits; such as, but not limited to, payroll taxes, workers' compensation and liability insurance, etc.
  - D. Provide bonding for those persons administratively handling funds for Green View, Inc.
  
- II. Wright County shall:
  - A. Provide the day to day supervision, general training and instructions.
  - B. Provide the tools, supplies, and equipment necessary for the proper implementation of the agreed to work plan.

III. Payment:

- A. Green View, Inc. agrees to accept, and Wright County agrees to pay, full compensation for all services and expenses contemplated by this agreement.
- B. Payroll and other allowable expenses incurred by Green View, Inc. in the course of performing this agreement shall be reimbursed by Wright County upon submission of invoices to Wright County Administration Department, 10 2<sup>nd</sup> Street NW, Suite 235, Buffalo MN 55313-1193.

IV. Schedule of Payments:

- A. Green View, Inc. shall submit invoices for services rendered and Wright County shall reimburse Green View, Inc. upon receipt of said invoices.

V. Records:

- A. Green View, Inc. shall keep such records that maintain an efficient and accurate cost-keeping system for records.

VI. Audits and Examinations:

- A. Green View, Inc. shall afford reasonable facilities for audits and examinations of Green View, Inc.'s accounting records.

VII. Changes:

- A. Green View, Inc. is managed in reliance upon experience-based operating cost projections. In other words, we look at last year's costs as the basis for determining the next fiscal period's expenses. While this approach is consistent with the non-profit status and purposes of Green View, Inc., it does create a significant vulnerability for Green View should changes, particularly in mandated state or federal employee benefits/programs occur.

Therefore, in consideration of the risks described above it is understood by and between the parties hereto that in the event changes occur in the application of mandated worker/employee costs, including but not limited to unemployment insurance coverage, social security and medicare taxes, minimum wage laws, and the Affordable Care Act. The amount of the payment from Wright County set forth on the attachment to this agreement may be modified by the mutual agreement of the parties.

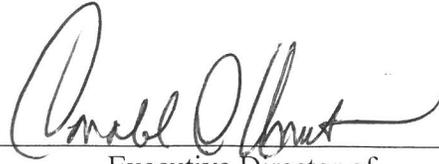

- B. This agreement may be terminated by either party at any time, with or without cause, upon not less than 30 days written notice delivered by mail or in person to the other party.

Dear Anthony,

County Assessor Confirmation

Congratulations on your reappointment as Wright County Assessor for the term beginning January 2, 2017 and ending December 31, 2020. Your certificate of appointment, signed by Commissioner Cynthia Bauerly, is enclosed.

Your Responsibilities

Your position as county assessor has broad impact on the community you serve. The revenues generated by property tax fund important services in your community. Your actions and decisions, and, by extension, those of your staff, impact each and every property owner in your county. Taxpayers and county administrators trust you and your staff to administer property tax fairly, consistently, and according to statute and policy. It is critical that you lead the assessment function in your county with integrity and in accordance with Minnesota Statute.

Next Steps

Each County Assessor must take an oath of office after their appointment is approved by the Commissioner. The oath should be taken at the first county board meeting in 2017. We recommend this action be recorded in the Board's minutes. The language of the oath and the statutory reference are attached.

Our Commitment to You

The property tax environment is complex and changes frequently. The Department of Revenue is here to assist you. I encourage you to reach out to your Regional Representative and other Revenue resources for guidance, interpretation, and education as needed.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Cynthia Rowley'.

The project grant amount is \$218,780, and will be administered under the State Park Road Fund as described in the Minnesota Statutes Chapter 162.06, Subdivision 5, as amended by Laws of 2009 Chapter 168.52, and

WHEREAS, these laws require projects using this funding source to be administered by the County, and

WHEREAS, the project scope includes reclamation and installation of new bituminous base and wear course within the corporate township of Rockford, and

WHEREAS, a Cooperative Agreement between the County and the Township outlines the responsibilities and financial commitments for the proposed project.

NOW THEREFORE, IT IS MUTUALLY AGREED AND UNDERSTOOD THAT:

**Article 1**

The Wright County Engineering Division shall prepare the necessary plans and specifications in accordance with State Park Road Account standards/requirements for review by the DNR and State. The County Engineering Division will contribute engineering design, construction, and administrative services towards the project (equivalent to \$25,000 to \$30,000 if these services were performed by a consultant). The Township agrees to contribute the local construction cost share amount (all/any amount over \$218,780 provided by the grant) for the project.

**Article 2**

The County will administer the contract for this project. These responsibilities include advertising, contract award, contract documents, preconstruction items, processing of partial payments, and other miscellaneous items as necessary. These administrative costs will be covered by Wright County.

**Article 3**

It is agreed, that upon receiving the bids and awarding the contract, the Township shall deposit with the County the local share of the construction costs (the amount the low bid is over the \$218,780 grant amount, if necessary) of the project. The Township further agrees to the following stipulations which are placed on projects utilizing the State Park Road Account.

1. DNR State Park Road Account pays up to \$218,780 of construction costs.
2. If the bids are in excess of the grant amount, the Township shall request to the State DNR an adjustment to their appropriation.
3. If the bids are in excess of the grant amount, and the State DNR does not increase their appropriation, the Town shall provide the local share (amount over the grant) or can choose to reject all bids for the project.
4. Over-runs to the construction contract are the responsibility of the Township unless additional funding has been received from the DNR.
5. Preliminary and construction engineering services will be provided by Wright County and serve as the County's contribution towards the project.

**Article 4**

The County Engineering Division staff shall be responsible for the daily inspection of the project in accordance with the plans and specifications, including the following:

1. Prepare and submit required reports to DNR and MnDOT State Aid Office (i.e., change in construction status, weekly construction diaries, change orders, and supplemental agreements).
2. Monitor signing controls to safely provide for local traffic and public safety.
3. Inspect all materials and construction practices in accordance with MnDOT specifications.

**Article 5**

Upon completion of the work, the County Engineer shall submit a certificate of performance, which indicates that he inspected the work and it complies with the plans and specifications. The County will determine the final local costs which are not eligible for reimbursement under the State Park Road Account.

**Article 6**

Upon completion of the construction contract, the Township will maintain ownership of the road and be responsible for all ongoing maintenance, and all future improvements.

**Article 7**

The Township shall indemnify, save, and hold harmless the County and all of its agents and employees of any form against any and all claims, demands, actions or causes of action of whatever nature or character arising out of or by reason of the execution or performance of the work provided for herein to be performed by the Township. The County shall indemnify, save, and hold harmless the Township and all of its agents and employees of any form against any and all claims, demands, actions or causes of action of whatever nature or character arising out of or by reason of the execution or performance of the work provided for herein to be performed by the County.

It is further agreed that any and all fulltime employees of the Township and all other employees of the Township engaged in the performance by any work or services required or provided for herein to be performed by the Township shall be considered employees of the Township only and not of the County and that any and all claims that may or might arise under Workmen's Compensation Act of the State of Minnesota on behalf of said employees while so engaged and any and all claims made by any third parties as a consequence of any act or omission on the part of said Township employees while so engaged on any of the work or services provided to be rendered herein shall be the sole obligation and responsibility of the Township.

**Article 8**

Before this agreement shall become binding and effective, it shall be approved by resolution of the Town Board of Rockford and it shall also be approved by resolution of the County Board and such other officers as law may provide.

Good morning!

Now that the elections are over and the final days of the year are upon us, it means that it's also now time for counties to designate which AMC Policy Committees their County Commissioners will be serving on for the upcoming year. Attached to this email you'll find the form to indicate these committee assignments, which also lists some information from the By-Laws on the topic.

Once your county has decided who will serve on each committee, please send the completed form back to me via email as soon as possible so we can update our lists and prepare for the 2017 Legislative Session.

If you have any questions, don't hesitate to ask!

## **2016 End of Year Report**

Erik Heuring

Wright CAI

Also found an infestation of common teasel, another eradicate species. There are 3 known infestations in the whole state. The species was thought to have been intentionally planted for cut-flower arrangements. Again, MDA was notified. The SWCD and I did most work in mitigation this year, which included cutting back stems and applying herbicide.

I did my first release for biological control of spotted knapweed. This release was done on a property that had a lack of cooperation from the property owner last year. The property lines were not clearly defined and I had an opportunity from MDA to get some seed-head weevils. I picked them up and released them that afternoon on the site. The weevils may take a few years to make a noticeable impact, but as long as there is forage for them, they should be making a positive impact. This is a huge success for me, MDA, and Wright County. There are more and more areas that have spotted knapweed infestations, and it is a great control measure that involves miniscule amounts of labor, very little notification, and can be done free of charge to anyone other than MDA (aside from the drive-time and gas). The Monticello area has some larger properties and some along the Right-of-Way (ROW) that have infestations of knapweed which could benefit from bio-control. The city has been notified but can and has been lackadaisical in their control efforts. This would alleviate that issue.

I have also been trying to map out known larger infestations of noxious weeds on an application called EDDmaps (Early Detection and Distribution mapping system). This application runs on my phone (offline as well) and is basically a large GIS mapping system in which I can draw polygons around properties, add pictures, and select noxious species and tag properties. MnDot and MDA use this application in Wright County, but I am trying to get other entities to use this application as well. It is free to use and download and anyone can view information on the site. For example, when the teasel was discovered, I pinned the location, took some pictures of the species, gave it a date and time, drew a polygon around the infestation on the property, and uploaded my find. Within a couple of hours, an email came to me from Georgia from an expert who verified my find and soon after MDA emailed me to meet me on site. I have also stored some properties on there that need notices in 2017, as they are infested thistle sites that got a little late in the season for control measures (and then the weather stayed nice).

The Parks Department and I collaborated on some noxious weed posters to be disseminated to municipalities and other interested parties (Parks, MnDot stations, SWCD) and high-traffic areas. Only a few posters were given out as most stops at townships resulted in no one being on site. However, they are being mailed to the rest of the individuals in need of a poster. These posters are suggested to be

taken care of. The SWCD and I plan on burning the teasel patch in the spring to give us a “clean slate” in which to monitor and apply herbicide to the site. Steve Meyer has also been notified of the infestation and will also continue to monitor the area for advancements in morphology so we can target escapes before they set seed later in the season. We will also have to monitor adjacent properties to both these locations to ensure that there are no other patches of the weedy species. I have also been handing out pamphlets to neighbors and people at meetings or gatherings (the fair, Master Gardener events) to educate and get people to start looking earlier.

As stated above, I will be in contact with MDA to get as many weevils as possible for spotted knapweed control. I don't know how much is available to me but I will try to get as many as I can to release on hard to manage sites, whether its disgruntled property owners or city lots which are ignored. Some of the spotted knapweed sites I visited this year had a healthy population of weevils present already, as they made it there without assistance. These sites will also be monitored and documented for progression and we can see how well the weevils succeed in certain environments.

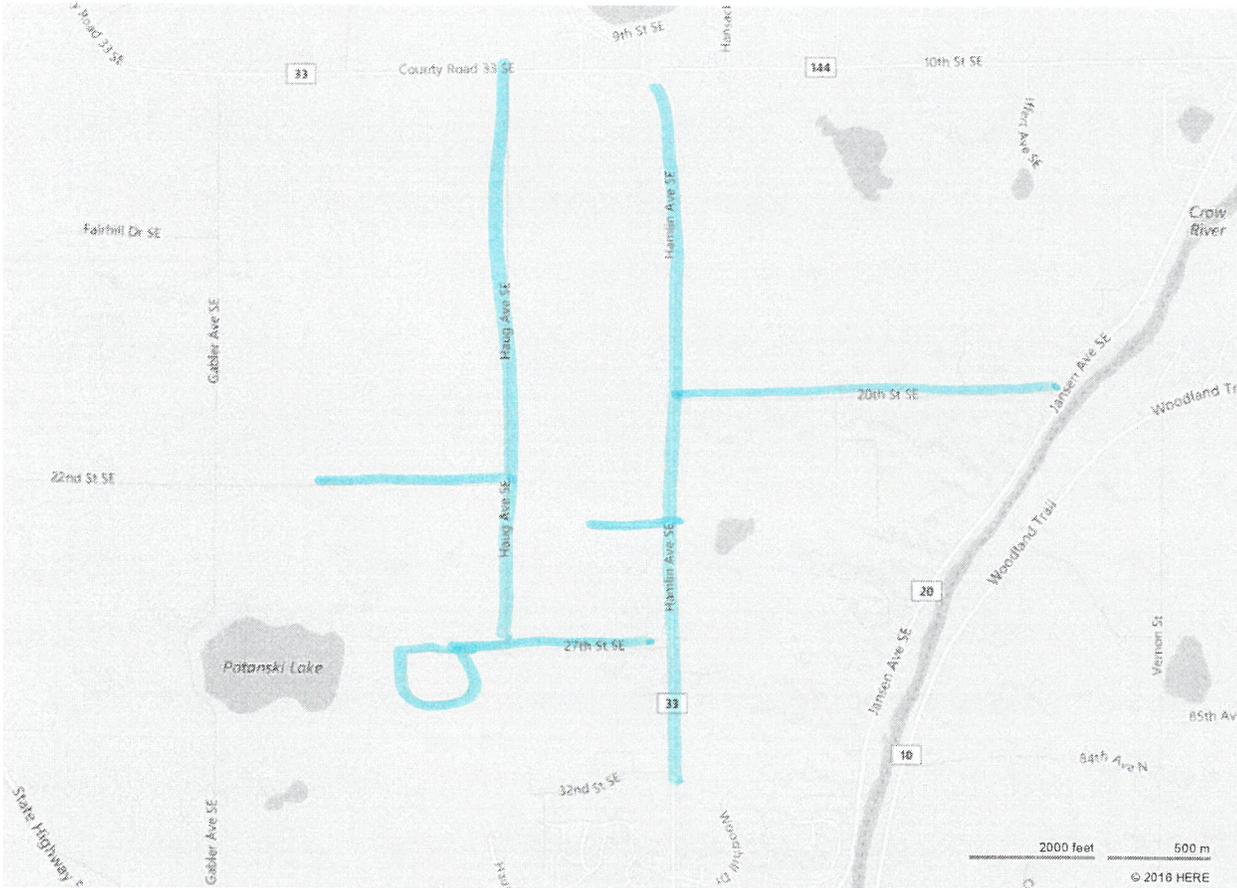

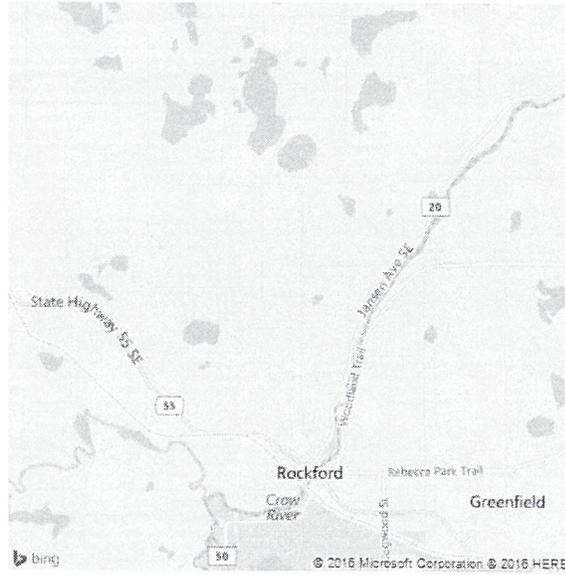

I would also like to reissue a reminder to all or most all of the individuals who received a notice in previous years. This would be just a courtesy to inform residents that there is a law that prohibits residents from ignoring weeds deemed noxious by the state. I would like everyone to be proactive about their situation but I know that not everyone will be. If I can just get some of them to be proactive early enough it would be considered a success to me. It was also requested that I give people information on contractors that could assist homeowners with control measures and also provide a list of herbicides which would prove helpful in aiding in control. I will stop at Home Depot, Menards, and Wal-Mart and make a list of herbicides which they can purchase and apply themselves.

There were also some major outbreaks of noxious weeds that usually aren't as prevalent. The weather this year was an intermittent mix of hot and wet and cause some patches to grow uncontrollably. I have some areas marked down on EDDmaps of common tansy, leafy spurge, and knapweed. These patches were normally smaller and have now grown to sizeable patches and will need to be addressed and monitored this upcoming season. Because of the outbreaks from this past season, I would like to be more aware and proactive about addressing the respective individuals whose property the weeds are on and ensure these areas are being treated and also look for escapes into the surrounding areas and target those early. Tansy, knapweed, and spurge are all lesser abundance weeds inside Wright County and I would like to keep it that way as much as possible and keep wild parsnip as my priority in the future but that can only be accomplished if the secondary species are kept to a minimum.
