INDEPENDENT AUDITORS' REPORT

Board of County Commissioners
Wright County
Buffalo, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wright County, Minnesota (the County), as of and for the year ended December 31, 2012, and the related notes of the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Wright County as of December 31, 2012, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of funding progress, on pages 5-15, 51-54 and 56, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Wright County's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Board of County Commissioners
Wright County

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 6, 2013, on our consideration of Wright County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wright County's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

**WRIGHT COUNTY
BUFFALO, MINNESOTA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2012**

This section of the Wright County (the County) annual financial report presents our discussion and analysis of the County's financial performance during the fiscal year that ended December 31, 2012. The Management's Discussion and Analysis (MD&A) is Required Supplementary Information specified in the Governmental Accounting Standards Board (GASB) Statement No. 34. Certain comparative information between the current year, 2012, and the prior year, 2011, is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

- County-wide net position increased 5.1 percent in 2012 over the prior year due primarily to an increase in the County's investment in capital assets and paying off long-term debt
- Overall governmental fund-level revenues totaled \$101,441,769 and were \$3,687,313 more than expenditures in 2012. This overage of revenues was primarily due to property taxes coming in as budgeted, per personnel related expenditures coming in under budget as a result of staff turnover and vacancies of positions.
- The General Fund's fund balance increased \$1,059,042 from the prior year as a result of expenditures coming in under budget, primarily general government and public safety expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

- The financial section of the annual report consists of four parts – Independent Auditors' Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplementary information. The basic financial statements include two kinds of statements that present different views of the County:
 - The first two statements are government-wide financial statements which provide both short-term and long-term information about the County's overall financial status.
 - The remaining statements are fund financial statements which focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how basic services such as general government, human services, and highways and streets were financed in the short-term as well as what remains for future spending.
 - Fiduciary funds statements provide information about the financial relationships in which the County acts solely as a trustee or agent for the benefit of others to whom the resources belong.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Figure A-2 summarizes the major features of the County's financial statements, including the portion of the County's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2. Major Features of the County's Government-Wide and Fund Financial Statements			
Type of Statements	Government-Wide	Governmental Funds	Fiduciary Funds
Scope	Entire County's government (except fiduciary funds).	The activities of the County that are not proprietary or fiduciary.	Instances in which the County is the trustee or agent for someone else's resources.
Required financial statements	Statement of net position.	Balance sheet.	Statement of fiduciary net position.
	Statement of activities.	Statement of revenues, expenditures and changes in fund balance.	Statement of changes in fiduciary net position.
Accounting basis and measurement focus	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial resources focus.	Accrual accounting and economic resources focus.
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term.	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included.	All assets and liabilities, both short-term and long-term, Agency's funds do not currently contain capital assets, although they can.
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenues and expenses during year, regardless of when cash is received or paid.

Government-Wide Statements

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the County's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Statements (Continued)

The two government-wide statements report the County's net position and how it has changed. Net position – the difference between the County's assets and liabilities – is one way to measure the County's financial health or position.

- Over time, increases or decreases in the County's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the County, you need to consider additional non-financial factors such as changes in the County's property tax base and the condition of county buildings and other facilities.

In the government-wide financial statements the County's activities are shown in a single category:

- Governmental activities – The County's basic services are included here. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's funds – focusing on its most significant or "major" funds – not the County as a whole. Funds are accounting devices the County uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The County establishes other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

The County has two kinds of funds:

- Governmental Funds – The County's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship (or differences) between them.
- Fiduciary Funds – The County is the fiscal agent, or fiduciary, for assets that belong to others. The County is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the government-wide financial statements because the County cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Net Position

The County's total net position was \$246,767,684 on December 31, 2012, an increase of \$12,026,477 from the prior year. The main reason for this increase is the County's investment in capital assets and paying off long-term debt (see Table A-1).

CHANGE IN NET POSITION

The government-wide total revenues were \$97,491,850 for the year ended December 31, 2012 (an increase of \$842,860). This increase is primarily attributable to increased operating grants and contributions and capital grants and contributions. Property taxes, operating grants and contributions, and capital grants and contributions accounted for 79 percent of total revenue for the year (see Table A-2).

CHANGE IN NET POSITION (CONTINUED)

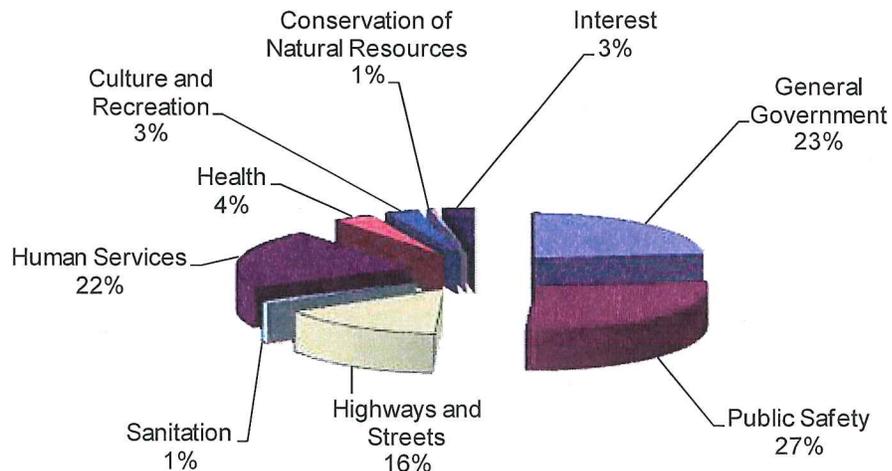

The government-wide cost of all governmental activities this year was \$85,465,373.

- Some of the cost was paid by the users of the County's programs (\$15,574,615).
- The federal and state governments subsidized certain programs with grants and contributions (\$25,808,389).
- The remainder of the County's governmental activities costs (\$44,082,369) however, was paid for by County taxpayers and the taxpayers of our state. This portion of governmental activities and the increase in net position was covered by \$50,747,636 in property taxes, \$3,901,480 of state aid, \$1,128,566 of investment earnings, and other general revenues.

FINANCIAL ANALYSIS OF THE COUNTY AT THE FUND LEVEL

The financial performance of the County, as a whole, is reflected in its governmental funds as well. As the County completed the year, its governmental funds reported a combined fund balance of \$55,797,980. Revenues for the County's governmental funds were \$101,441,769, while total expenditures were \$97,754,456 – revenues increased from the 2011 amount while expenditures decreased.

The General Fund includes the primary operations of the County in providing services to citizens. Fund balance increased by \$1,059,042 during 2012. This increase is primarily due to expenditures coming in under budget.

The Road and Bridge Fund has a total fund balance of \$8,628,909. The fund balance increased in 2012 primarily due to state funding received after the period of availability for construction costs incurred in the current year.

The Human Services Fund has a total fund balance of \$6,113,502. It increased \$1,053,079 from 2011 due to increased grant revenues.

The Debt Service Fund has a total fund balance of \$4,384,772. It increased \$1,681,439 from 2011 primarily due to the issuance of crossover advance refunding bonds.

The Capital Project Fund has a total fund balance of \$1,451,150. It decreased \$30,029 from 2011 due to transfers out to other funds for previous capital outlay expenditures incurred.

FINANCIAL ANALYSIS OF THE COUNTY AT THE FUND LEVEL (CONTINUED)

The following schedule presents a summary of General Fund Revenues:

Table A-4
General Fund Revenues

Fund	Year Ended		Change	
	December 31, 2012	December 31, 2011	Increase (Decrease)	Percent
Taxes	\$ 28,299,575	\$ 27,327,764	\$ 971,811	3.6 %

Total General Fund Revenues	\$ 48,532,028	\$ 48,305,590	\$ 226,438	0.5

Total General Fund revenues increased by \$226,438, or 0.5 percent, from the previous year due primarily to increases in tax levy, charges for services, and miscellaneous revenues.

The following schedule presents a summary of General Fund Expenditures:

Table A-5
General Fund Expenditures

	Year Ended		Change	
	December 31, 2012	December 31, 2011	Increase (Decrease)	Percent
General Government	\$ 19,713,952	\$ 19,837,260	\$ (123,308)	(0.6)%
Public Safety	24,499,786	24,535,550	(35,764)	(0.1)
Culture and Recreation	1,311,405	1,246,053	65,352	5.2
Conservation	383,384	379,447	3,937	1.0
Intergovernmental	1,723,963	1,839,017	(115,054)	(6.3)
Total Expenditures	\$ 47,632,490	\$ 47,837,327	\$ (204,837)	(0.4)

The decrease in General Fund expenditures is due primarily to a decrease in the annual library appropriation and information technology expenditures in 2012.

General Fund Budgetary Highlights

Over the course of the year, the County revised the annual operating budget for the General Fund for the allocation of cost of living adjustments and step increases. The adjustment increased the departmental budgets, and reduced the Other General Government budget. The total budget did not change. In general, the County does not make a significant amount of budget amendments during the year.

- Actual revenues were \$973,757 more than expected; this is primarily due the State of Minnesota payments in lieu of tax and a MCIT insurance dividend received larger than anticipated.
- The actual expenditures were \$3,150,278 less than budget due primarily to conservative spending.

FACTORS BEARING ON THE COUNTY'S FUTURE

The County is dependent on the State of Minnesota for a significant portion of its revenue. Recent experience demonstrates that the legislature may decrease revenues again.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

BUFFALO, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Wright County's (the County) financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Financial Reporting Entity

Wright County was established February 20, 1855, and is an organized county having the powers, duties, and privileges granted counties by *Minnesota Statutes* ch. 373. As required by accounting principles generally accepted in the United States of America, these financial statements present Wright County (primary government) and its component units for which the County is financially accountable. There is financial accountability if the primary government appoints a voting majority of an organization's governing body and had the ability to impose its will on that governing body; or there is the potential for the organization to provide specific financial benefits or to impose specific financial burden on the primary government. Based on the criteria for determining component units, the County is not required to include any component units. The County is governed by a five-member Board of County Commissioners elected from districts within the County. The Board is organized with a chair and vice-chair elected at the annual meeting in January of each year.

Joint Ventures

The County participates in joint ventures which are described in Note 5.C. The County also participates in jointly-governed organizations which are described in Note 5.D.

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities.

The government-wide statement of net position is presented on a consolidated basis by column and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts: (1) net investment in capital assets; (2) restricted net position; and (3) unrestricted net position. The County first utilizes restricted resources to finance qualifying activities.

BUFFALO, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basic Financial Statements (Continued)

1. Government-Wide Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of each function of the County's governmental activities are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category - governmental and fiduciary - are presented. The emphasis of the governmental fund financial statements are on major individual governmental funds, with each displayed as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Road and Bridge Special Revenue Fund is used to account for revenues and expenditures of the Highway Department which is responsible for the construction and maintenance of roads, bridges, and other projects affecting County roadways. Property taxes and intergovernmental revenues are the primary funds committed for these projects.

The Human Services Special Revenue Fund is used to account for economic assistance and community social services programs which are funded primarily by property taxes and intergovernmental revenues.

The Debt Service Fund is used to account for payment of principal and interest on debt, which are financed by property tax revenue restricted through bond documents.

The Capital Projects Fund is used to account for financial resources to be used for capital acquisition, construction, or improvement of capital facilities. Financing is provided by bonds issued by the County, state aid, and levy dollars.

2. Fund Financial Statements (Continued)

Additionally, the County reports the following fiduciary fund type:

Agency Funds are custodial in nature and do not present results of operations or have a measurement focus. These funds account for assets that the County holds for others in an agency capacity.

C. Measurement Focus and Basis of Accounting

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Wright County considers all revenues to be available if they are collected within 60 days after the end of the current period. Property and other taxes, licenses, and interest are all considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

D. Assets, Liabilities, and Net Position or Equity

1. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the County Auditor/Treasurer for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at year end, based on market prices. Pursuant to *Minnesota Statutes* §385.07, investment earnings on cash and pooled investments are credited to the general fund. Other funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants.

D. Assets, Liabilities, and Net Position or Equity (Continued)

1. Deposits and Investments (Continued)

Wright County invests in an external investment pool, the Minnesota Association of Governments Investing for Counties (MAGIC) Fund, which is created under a joint powers agreement pursuant to *Minnesota Statutes* §471.59. The MAGIC Fund is not registered with the Securities and Exchange Commission, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Therefore, the fair value of the County's position in the pool is the same as the value of the pool shares.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent maturities of interfund loans).

All receivables are shown net of an allowance for uncollectibles which is calculated on a case-by-case basis.

Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due on May 15 and the second half payment due October 15.

Unpaid taxes at December 31 become liens on the respective property and are classified in the financial statements as delinquent taxes receivable.

3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories in governmental funds are recorded as expenditures when purchased rather than when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In the case of the initial capitalization of general infrastructure reported in governmental activities, the County chose to include all such items acquired since 1980. The County was able to record the capital assets at cost dating back to 1980.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset's lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Infrastructure	50
Furniture, Equipment, and Machinery	5 - 15

5. Compensated Absences

The liability for compensated absences reported in financial statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. Compensated absences are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

6. Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

7. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities on the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund Balance

In the fund financial statements, governmental funds report nonspendable, restricted, committed, and unassigned fund balances. Nonspendable portions of fund balance relate to prepaids, inventories, and long term receivables, as applicable. Restricted funds are constrained from outside parties (statute, grantors, bond agreements, etc.). Committed fund balances are established and modified by a resolution approved by the Board of Commissioners. The Board passed a resolution authorizing the County Auditor-Treasurer to assign fund balances and their intended uses. Unassigned fund balance is the residual classification for the County's general fund and includes all spendable amounts not contained in other classifications.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the County's policy to use restricted first, then unrestricted fund balance. When an expenditure is incurred for purposes for which committed, assigned, and unassigned amounts are available, it is the County's policy to use committed first, then assigned, and finally unassigned amounts.

9. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Custodial Credit Risk - Deposits

In the case of deposits, custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk and follows *Minnesota Statutes* for deposits.

Minnesota Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledge must equal 110 percent of the deposits not covered by insurance or corporate surety bonds. Authorized collateral includes: U.S. government treasury bills, notes, or bonds; issues of a U.S. government agency; general obligations of a state or local government rated "A" or better; revenue obligations of a state or local government rated "AA" or better; irrevocable standby letters of credit issue by a Federal Home Loan Bank; and time deposits insured by a federal agency. *Minnesota Statutes* require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank, at an account at a trust department of a commercial bank or other financial institution not owned, or controlled by the financial institution furnishing the collateral.

The County's deposits in banks at December 31, 2012 totaled \$18,081,704 per banks. All deposits as of December 31, 2012, were fully insured with FDIC insurance.

Minnesota Statutes §§ 118A.04 and 118A.05 generally authorize the following types of investments as available to the County:

- (a) Securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by *Minnesota Statutes* §118a.04, Subd. 6;
- (b) Mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;
- (c) General obligations of the state of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (d) Bankers' acceptances of United States banks;
- (e) Commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (f) With certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of the investment. The County's investment policy is to invest in both short-term and long-term investments to limit the exposure to interest rate risk.

As of December 31, 2012, the County had the following investments:

<u>Type</u>	<u>Fair Value</u>	<u>12 Months or Less</u>	<u>13 to 24 Months</u>	<u>25 to 60 Months</u>	<u>More than 60 Months</u>

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County's investment policy is to invest in securities that meet the ratings requirements set by state statute.

The County's exposure to credit risk as of December 31, 2012, is as follows:

<u>Type</u>	<u>Credit Quality Rating *</u>	<u>Fair Value</u>
U.S. Government Securities	AAA	\$ 5,090,038

Concentration Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the County's investment in a single issuer. It is the County's policy that investments in MAGIC Fund, U.S. Treasury securities, U.S. Agency securities, and obligations backed by U.S. Treasury and/or U.S. Agency securities, may be held without limit.

As of December 31, 2012, investments in any one issuer that represent five percent or more of the County's investments are as follows:

<u>Type</u>	<u>Amount</u>	<u>Percentage</u>
Federal Home Loan Bank	\$ 3,407,014	8.5 %
Illinois State	3,240,082	8.1

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of failure by the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County does not have a specific policy for custodial credit risk. As of December 31, 2012, the County's investments were not exposed to custodial credit risk.

2. Receivables

Receivables as of December 31, 2012 for the County are as follows:

	<u>County Receivable</u>	<u>Amounts Not Received During the Period of Availability</u>

6. Debt Advance Crossover Refunding

In 2012, Wright County issued \$1,525,000 General Obligation Capital Improvement Plan Refunding Bonds, Series 2012A. These bonds were issued for a crossover refunding of the General Obligation Capital Improvement Bonds, Series 2003A of \$2,515,000 maturing in 2014 through 2023. The refunding bond proceeds were placed in an escrow account to be liquidated on the crossover refunding date of December 1, 2013. The total cash flow savings to the County attributable to the refunding of these bonds is \$138,802 with a net present value of approximately \$125,948.

7. Septic Loans

The County participates in a revolving loan program to finance septic system upgrades for individuals. The County entered into a loan agreement for \$300,000 with the Minnesota Pollution Control Agency to finance this program in 2011. The loans are secured by special assessments placed on the individual parcels requesting installation/repair of septic systems. The loans bear interest at two percent. During 2012, loans issued to residents totaled \$111,251 and payments equaled \$41,004. The state does not provide a repayment schedule on the loans until the full loan amount of \$300,000 is borrowed. Repayment of these loans is set to start in 2014.

NOTE 3 EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS

A. Defined Benefit Plan

1. Plan Description

All full-time and certain part-time employees of Wright County are covered by defined benefit plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund (GERF), the Public Employees Police and Fire Fund (PEPFF), and the Local Government Correctional Service Retirement Fund, called the Public Employees Correctional Fund (PECF), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. All police officers, fire-fighters and peace officers who qualify for membership by statute are covered by the PEPFF. Members who are employed in a county correctional institution as a correctional guard or officer, a joint jailer/dispatcher, or as a supervisor of correctional guards or officers or of joint jailers/dispatchers and are directly responsible for the direct security, custody, and control of the county correctional institution and its inmates are covered by the PECF.

NOTE 3 EMPLOYEE RETIREMENT SYSTEMS AND PENSION PLANS (CONTINUED)

A. Defined Benefit Plan (Continued)

1. Plan Description (Continued)

PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by state statute, and vest after three years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each remaining year.

Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent for each year of service. The annuity accrual rate is 1.9 percent for each year of service for PECF members.

For all PEPFF members, PECF members, and GEF members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for PEPFF and PECF members and 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

A. Defined Benefit Plan (Continued)

1. Plan Description (Continued)

PERA issues a publicly available financial report that includes financial statements and required supplementary information for GERF, PEPFF, and PECF. That report may be obtained on the Internet at www.mnpera.org, by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088 or by calling (651) 296-7460 or 1-800-652-9026.

2. Funding Policy

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The County makes annual contributions to the pension plans equal to the amount required by state statutes. GERF Basic Plan members and Coordinated Plan members were required to contribute 9.10 percent and 6.25 percent, respectively, of their annual covered salary in 2012. PEPFF members were required to contribute 9.60 percent of their annual covered salary in 2012. PECF members are required to contribute 5.83 percent of their annual covered salary. Wright County is required to contribute the following percentages of annual covered payroll: 11.78 percent for Basic Plan GERF members, 7.25 percent for Coordinated Plan PERF members, 14.40 percent for PEPFF members, and 8.75 percent for PECF members.

The County's contributions to the General Employees Retirement Fund, Public Employees Police & Fire Fund, and Public Employees Correctional Fund, for the years ending December 31, 2012, 2011, and 2010 were:

	Public Employees Retirement Fund	Public Employees Police and Fire Fund	Public Employees Correctional Fund	Defined Contribution Plan
2012	\$ 1,819,606	\$ 1,275,506	\$ 246,626	\$ 6,331
2011	1,783,624	1,268,664	250,117	6,281
2010	1,675,667	1,197,182	239,178	6,289

These contribution amounts are equal to the contractually required contributions for each year as set by state statute.

B. Defined Contribution Plan

Three Commissioners of the County are covered by the Public Employees Defined Contribution Plan (PEDCP), a multiple-employer deferred compensation plan administered by the Public Employees Retirement Association of Minnesota (PERA). The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. *Minnesota Statutes* Chapter 353D.03 specifies the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5 percent of salary, which is matched by the elected official's employer. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives two percent of employer contributions and twenty-five hundredths of one percent of assets in each member's account annually.

NOTE 4 OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

The County provides health insurance benefits for certain retired employees under a single-employer fully-insured plan. The County provides benefits for retirees as required by *Minnesota Statutes* §471.61 subdivision 2b. Active employees who retire from the County when eligible to receive a retirement benefit from the Public Employees Retirement Association (PERA) of Minnesota (or similar plan) and do not participate in any other health benefits program providing coverage similar to that herein described, will be eligible to continue coverage with respect to both themselves and their eligible dependent(s) under the County's health benefits program. Pursuant to the provisions of the plan, retirees are required to pay 100 percent of the total premium cost. As of January 1, 2012, there were fourteen retirees receiving health benefits from the County's health plan.

NOTE 4 OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

A. Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of Governmental Accounting Standards Board (GASB) Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the County's annual OPEB cost of 2012, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual Required Contribution (ARC):	\$ 364,363
Interest on Net OPEB Obligation	36,821
Adjustment to ARC	<u>(50,309)</u>
Annual OPEB Cost	350,875
Contributions during the year	<u>(117,934)</u>
Increase in Net OPEB Obligation	232,941
Net OPEB - Beginning of the Year	<u>818,248</u>
Net OPEB - End of the Year	<u><u>\$ 1,051,189</u></u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for 2012, 2011, and 2010 were as follows:

Year Ended	Annual OPEB Cost	Employer Contribution	Percentage Contributed	Net OPEB Obligation
December 31, 2012	\$ 350,875	\$ 117,934	33.6 %	\$ 1,051,189
December 31, 2011	343,314	130,521	38.0	818,248

B. Funding Status

The County currently has no assets that have been irrevocably deposited in a trust for future health benefits. Therefore, the actuarial value of assets is zero.

The Schedule of Funding Progress – Other Postemployment Benefits, presented below, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (b)	Unfunded Actuarial Accrued Liability (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
1/1/2012	\$ -	\$ 2,624,292	\$ 2,624,292	- %	\$ 36,812,121	7.1 %
1/1/2010	-	2,252,205	2,252,205	-	35,840,320	6.3
1/1/2008	-	1,743,959	1,743,959	-	34,099,672	5.1

C. Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of the occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

In the January 1, 2012 actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.50 percent discount rate, which is based on the estimated long-term investment yield on the general assets of the County using an underlying long-term inflation assumption of 2.50 percent. The annual healthcare cost trend rate is 8.00 percent initially, reduced incrementally to an ultimate rate of 5.00 percent after six years. The unfunded actuarial accrued liability is being amortized as a level dollar amount over an open thirty-year period.

NOTE 5 SUMMARY OF SIGNIFICANT CONTINGENCIES AND OTHER ITEMS

A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters for which the County carries commercial insurance. The County has entered into a joint powers agreement with other Minnesota counties to form the Minnesota Counties Insurance Trust (MCIT) to protect against liabilities from workers' compensation and property and casualty. There were no significant reductions in insurance from the prior year. The amount of settlements did not exceed insurance coverage for the past three fiscal years.

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$460,000 per claim in 2012. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the in a method and amount to be determined by MCIT.

The Property and Casualty Division of MCIT is self-sustaining and the pays an annual premium to cover current and future losses. The MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the in a method and amount to be determined by MCIT.

B. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

C. Joint Ventures

Crow River Joint Powers Agreement

In 1999, Wright County entered into a joint powers agreement with Carver, Hennepin, Kandiyohi, McLeod, Pope, Renville, Sibley, and Stearns Counties, creating the Crow River Joint Powers Agreement. The Agreement is authorized by *Minnesota Statutes* §§103B.311 and 103B.315. The Prairie County Resource Conservation and Development council is the fiscal agent for this joint powers agreement.

The purpose of this agreement is the joint exercise of powers by counties to promote orderly water quality improvement and management of the Crow River Watershed through information sharing, education, coordination and related support to member counties by assisting in the implementing and goal achievement of comprehensive water plans which counties may develop and implement. The governing board is composed of one Board member from each of the participating counties. Financing is provided by state proceeds. Current financial statements are not available.

D. Jointly Governed Organizations

Wright County, in conjunction with other governmental entities and various private organizations, has formed the following jointly-governed organizations:

Great River Regional Library

The Great River Regional Library operates under a joint powers agreement and according to the authority granted by *Minnesota Statutes*. The specific operating framework is set forth in a service agreement which has been entered into by each of the seven members. The membership consists of six counties including Wright County and the City of St. Cloud. The Board of Directors consists of 15 people. The Wright Board of County Commissioners is entitled to appoint three people to the Board. The County's 2012 contribution to the Great River Regional Library of \$1,723,963 is included in the expenditures of the General Fund. Separate financial information can be obtained from: Great River Regional Library, 1300 W. St. Germain Street, St. Cloud, MN 56301.

Counties Computer Cooperative

The Counties Computer Cooperative was established to provide computer programming to member counties. During the year, Wright County expended \$209,508 to the Cooperative.

NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED DECEMBER 31, 2012**

I. BUDGETARY INFORMATION

Wright County (the County) board adopts an annual budget for the following major funds: The General Fund, Road and Bridge Special Revenue Fund and Human Services Fund. These budgets are prepared on the modified accrual basis of accounting. Annual budgets are not adopted for the Debt Service Fund, Capital Projects Fund, Solid Waste Fund, Reserve Fund, and Ditch Fund.

Based on a process established by the Board of County Commissioners, all departments of the County submit requests for appropriations to the County Coordinator each year. After review, analysis and discussions with the departments, the County Coordinator's proposed budget is presented to the Board of County Commissioners for review. The Board of County Commissioners holds public hearings and a final budget must be prepared and adopted no later than December 31.

The overall budget is prepared by fund, function, and department. The legal level of budgetary control – the level at which expenditures may not legally exceed appropriations – is the fund level. Budgets may be amended during the year with proper approval.

Encumbrance accounting is employed in governmental funds. Encumbrances outstanding at year-end are reported as assignments of fund balances and do not constitute expenditures or liabilities because the commitments will be re-apportioned and honored during the subsequent year.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Board of County Commissioners
Wright County
Buffalo, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wright County (the County), as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise Wright County's basic financial statements, and have issued our report thereon dated September 6, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Wright County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Wright County's internal control. Accordingly, we do not express an opinion on the effectiveness of Wright County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and others we consider to be significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Wright County's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies 2006-01 to 2006-03, described in the accompanying Schedule of Findings and Questioned Costs, to be material weaknesses.

Internal Control Over Financial Reporting (Continued)

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies 2012-01 and 2012-02, described in the accompanying Schedule of Findings and Questioned Costs, to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wright County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Wright County's Responses to Findings

Wright County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Wright County's responses were not subjected to auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wright County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

We have audited Wright County's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Wright County's major federal programs for the year ended December 31, 2012. Wright County's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Wright County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Wright County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Wright County's compliance.

Opinion on Each Major Federal Program

In our opinion, Wright County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2012.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2011-04, and 2012-03 to 2012-05. Our opinion on each major federal program is not modified with respect to these matters.

Wright County's Responses to Findings

Wright County's responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Wright County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of Wright County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Wright County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Wright County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as items 2011-04 and 2012-03 to 2012-05, that we consider to be significant deficiencies.

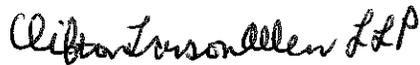

Board of County Commissioners
Wright County

Wright County's Responses to Findings

Wright County's responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Wright County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SUMMARY OF AUDITORS' RESULTS

1. The auditors' report expresses an unqualified opinion on the basic financial statements of Wright County (the County), Minnesota.
2. Deficiencies in internal control were disclosed during the audit of the basic financial statements for the County and reported in the "Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*". Deficiencies 2006-01 to 2006-03 are considered material weaknesses and deficiencies 2012-01 and 2012-02 are considered significant deficiencies.
3. No instances of noncompliance material to the basic financial statements of the County were disclosed during the audit.
4. Instances involving internal control over compliance relating to the audit of the major federal award program was reported in the "Independent Auditors' Report on Compliance with Requirements that could have a Direct and Material Effect on Each Major Program and on Internal Control over Compliance with OMB Circular A-133". We consider items 2011-04 and 2012-03 to 2012-05 to be a significant deficiencies.
5. The auditors' report on compliance for the major federal award programs for the County expresses an unqualified opinion on all major federal programs.
6. Findings 2011-04 and 2012-03 to 2012-05 relative to the major federal award programs for the County was disclosed during the audit that are required to be reported in accordance with Section 510(a) of OMB Circular A-133.
7. The programs tested as major programs were:
 - Outdoor Recreation-Acquisition, Development
And Planning CFDA No. 15.916
 - Highway Planning and Construction (Highway Planning Cluster) CFDA No. 20.205, 20.219
 - Temporary Assistance for Needy Families (TANF Cluster) CFDA No. 93.558, 93.714
 - Child Support Enforcement CFDA No. 93.563
 - Foster Care Title IV-E CFDA No. 93.658
 - Social Services Block Grant Title XX CFDA No. 93.667
 - Medical Assistance (Medicaid Cluster) CFDA No. 93.778
8. The threshold for distinguishing Types A and B programs was \$300,000.
9. The County does not qualify, under federal guidelines, as a low-risk auditee.

MATERIAL WEAKNESSES - FINANCIAL REPORTING

2006-01 SEGREGATION OF DUTIES

Criteria: Wright County (the County) management should constantly be aware of the need to have adequate segregation of duties regarding the processing of transactions for the County. In addition, County management should be aware that the concentration of duties and responsibilities in one or a very few individuals is not desirable from an internal control perspective.

Condition: Adequate segregation of the accounting functions necessary to ensure adequate internal accounting control, is not in place in a number of departments throughout the County.

Cause: The County has a limited number of personnel within several departments.

Possible Effect: The lack of adequate segregation of duties can result in incorrect financial information, failure to detect misstatements or misappropriations, and failure to adhere to County's procedures.

Recommendation: We recommend County management be aware of the lack of segregation of duties within the accounting functions and provide oversight to ensure the internal control policies and procedures are being implemented by organization staff.

CLIENT RESPONSE:

The County will continue to review accounting functions and segregate them as it deems cost beneficial.

2006-02 AUDIT ADJUSTMENTS

Criteria: County management is responsible for establishing and maintaining internal controls for the proper recording of all County's receipts and disbursements, including reclassifications between funds and activity of all investing and savings accounts.

Condition: As part of the audit, we proposed adjusting entries relating to the coding of accruals, capital asset adjustments, and reclassification of revenues. These entries indicate a lack of controls over the year-end financial reporting process. The absence of this control procedure is considered a material weakness because the potential exists that a material misstatement of the financial statements could occur and not be prevented or detected by the County's internal control.

Cause: Not known.

Possible Effect: The design of the internal controls over recording transactions and year-end accruals limits the ability of the County to provide accurate accrual basis financial information.

Recommendation: We recommend County management and financial personnel continue to increase their awareness and knowledge of all procedures and processes involved in recording transactions, accruals, and reclassifications and develop internal control policies to ensure proper recording of these items.

CLIENT RESPONSE:

The County will continue to work at eliminating the need for audit adjustments.

MATERIAL WEAKNESSES - FINANCIAL REPORTING (CONTINUED)

2006-03 FINANCIAL REPORTING PROCESS

Criteria: County management is responsible for establishing and maintaining internal controls, including monitoring, and for the fair presentation of the financial statements in accordance with applicable accounting and reporting standards.

Condition: As part of the audit, management requested us to prepare a draft of the financial statements, including the related notes to the financial statements from the County's general ledger system.

Cause: The County has a limited number of personnel.

Possible Effect: The design of the controls over the financial reporting process would affect the ability of the County to report their financial data consistently with the assertions of management in the financial statements.

Recommendation: We recommend that County management be aware of the responsibilities regarding financial reporting and continue to evaluate the cost/benefit of outsourcing this function. If management chooses to undertake these financial reporting responsibilities, a number of policies, procedures, and reviews will need to be developed and implemented.

CLIENT RESPONSE:

The County understands that this is required communications for the preparation of the financial statements and will continue to work at this area to achieve the overall goal.

SIGNIFICANT DEFICIENCIES - FINANCIAL REPORTING

2012-01 BANK RECONCILIATIONS

Criteria: Reconciliations between the bank statements and the County's general ledger should be performed at the end of each calendar month.

Condition: The County is not performing timely reconciliations of the bank balances to the general ledger. During the audit, it was noted that 2 of the reconciliations for December 2012 were not completed until July 2013.

Cause: Unknown.

Possible Effect: Errors, misstatements, or fraud may not be recognized in a timely manner.

Recommendation: We recommend County management implement procedures to ensure bank reconciliations are prepared on a timely basis.

CLIENT RESPONSE:

The County will implement controls to begin completing bank reconciliations timely.

SIGNIFICANT DEFICIENCIES - FINANCIAL REPORTING (CONTINUED)

2012-02 SUPPORT FOR SOCIAL WELFARE DISBURSEMENTS

Criteria: Standard internal control procedures require all disbursements made out of the social welfare checking account have supporting documentation for the payments requested.

Condition: During testing performed, we were not provided with supporting documentation for 15 of 25 disbursements tested.

Cause: The disbursements are reoccurring payments for which the department didn't deem supporting documentation necessary.

Possible Effect: Without supporting documentation, there is an increased risk of unauthorized or fraudulent checks to be written out of the account.

Recommendation: We recommend management implement procedures to ensure all payments have supporting documentation on file.

CLIENT RESPONSE:

The County will review their process and verify supporting documentation is retained for all checks out of that account in the future.

2011-04 MEDICAL ASSISTANCE (MA) - (CFDA #93.778); GRANT PERIOD – YEAR ENDED DECEMBER 31, 2012; PROOF OF CITIZENSHIP

Criteria: Standard internal control procedures over the Medical Assistance program suggest County personnel obtain proof of U.S. citizenship or proof of qualified alien status documentation.

Condition and Context: Two of forty applications tested did not have citizenship or qualified alien documentation in the casefiles viewed.

Cause: Unknown.

Possible Effect: Benefits could be provided to an ineligible client.

Recommendation: We recommend the County take proper steps to ensure that all approved applications have proper citizenship documentation.

REQUIREMENTS

Criteria: Federal grant requirements state that grantees are required to verify that the applicant is not a felon.

Condition and Context: Two of forty applications tested did not have the felony section completed, nor were we provided with any other documentation regarding felony status determination.

Cause: Unknown.

Possible Effect: Benefits could be provided to an ineligible client.

Recommendation: We recommend the County take proper steps to ensure that all approved applications have the felony section of the application completed.

VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS:

NEEDY FAMILIES CLUSTER (TANF) - CFDA #93.558, 93.714 ARRA; GRANT PERIOD –
YEAR ENDED DECEMBER 31, 2012; RANDOM MOMENT STUDIES

Criteria: Federal guidelines for these programs allow some costs to be allocated indirectly. The State of Minnesota uses a quarterly Random Moment Study (RMS) to allocate payroll indirectly to each of these income maintenance programs.

Condition and Context: The list of employees submitted for the RMS was incorrect for the quarter tested (third quarter). One out of thirty employees was on the RMS listing that no longer carries a caseload in the income maintenance department.

Cause: The employee was accurately listed as an employee with a caseload in 2011, but the employee was promoted to a supervisor position during 2012 and no longer carried a caseload as of the third quarter.

Possible Effect: Minnesota Department of Human Services did not have an accurate listing of income maintenance employees with caseloads, creating an inaccurate amount of indirect costs to be reimbursed to Wright County for these programs.

Recommendation: We recommend that management review the RMS listing on a regular basis to ensure the correct employees are listed.

VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS:

Contact Person: Christine Partlow, Fiscal Manager.

Corrective Action Planned: The Human Services department will review the listing of income maintenance workers on a quarterly basis before submitting the list to the Minnesota Department of Human Services.

2012-05 SOCIAL SERVICES BLOCK GRANT - (CFDA #93.667); GRANT PERIOD – YEAR ENDED
DECEMBER 31, 2012; SUSPENSION AND DEBARMENT OF PROVIDERS

Criteria: Federal grant requirements state grantees are required to verify the provider is not suspended from doing business with local governments.

Condition and Context: The County has a process in place to verify if vendors are on the suspended or debarred list prior to entering into a contract for services, but it is not being followed for non waived service providers. We were not provided with documentation of checking the list before entering into a contract with two out of forty vendors tested.

Cause: Unknown.

Possible Effect: The County could enter into a contract with a provider who is suspended or debarred.

Recommendation: We recommend the County check the Sam.gov website for all contracts that do not have a self certification clause, to verify the provider is not suspended or debarred, or add a self certification clause to all contracts.

VIEWS OF RESPONSIBLE OFFICIALS AND PLANNED CORRECTIVE ACTIONS:

Contact Person: Christine Partlow, Fiscal Manager.

Corrective Action Planned: The Human Services department will review the contracts entered into and update their procedures.

Anticipated Completion Date: December 31, 2013.

OTHER ITEM FOR CONSIDERATION – MINNESOTA LEGAL COMPLIANCE

2006-09 DITCH SPECIAL REVENUE FUND – DEFICITS IN EQUITY BALANCES

Criteria: *Minnesota Statutes* ch. 103E.735, subd. 1, provides that a fund balance to be used for ditch repairs may be established for any drainage system, not to exceed 20 percent of the assessed benefits of the ditch system or \$40,000, whichever is larger.

Condition: Twenty-seven of forty-six individual ditch systems had deficit unassigned fund balances at December 31, 2012.

Cause: Past practice.

Possible Effect: The County is not in compliance with *Minnesota Statutes*.

Recommendation: We recommend the County eliminate the individual ditch fund balance deficits by levying assessments pursuant to *Minnesota Statutes* ch. 103E.735, subd. 1, which permits the accumulation of a surplus balance to provide for the repair and maintenance costs of a ditch system.

CLIENT RESPONSE:

The County has reviewed the statute and will review future levies for necessary changes in order to ensure future compliance.

INDEPENDENT AUDITORS' REPORT ON MINNESOTA LEGAL COMPLIANCE

Board of County Commissioners
Wright County
Buffalo, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller of the United States, the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wright County, Minnesota, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's financial statements as listed in the table of contents and have issued our report thereon dated September 6, 2013.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions* covers seven main categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions and tax increment financing.

In connection with our audit, nothing came to our attention that caused us to believe that Wright County failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivision*, except for the item described in detail in the attached Schedule of Findings and Questioned Costs as finding 2006-09. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Wright County's noncompliance with the above-referenced provisions.

Wright County's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. Wright County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.
