

The background of the cover is a photograph of a sunset over a body of water. The sky is filled with soft, colorful clouds in shades of orange, yellow, and blue. In the foreground, a wooden pier with railings extends into the water from the bottom left. The left side of the image is partially obscured by the dark silhouette of a tree. The overall mood is peaceful and serene.

Wright County

Wright County Court Services mission statement reflects the following beliefs:

Society has a right to be protected from individuals who cause harm to others. When public safety is not compromised, the interests of most offenders are best served through Evidence Based and Restorative Practices. The person should leave the criminal justice system in a positive manner and as a more productive citizen.

Judicial District

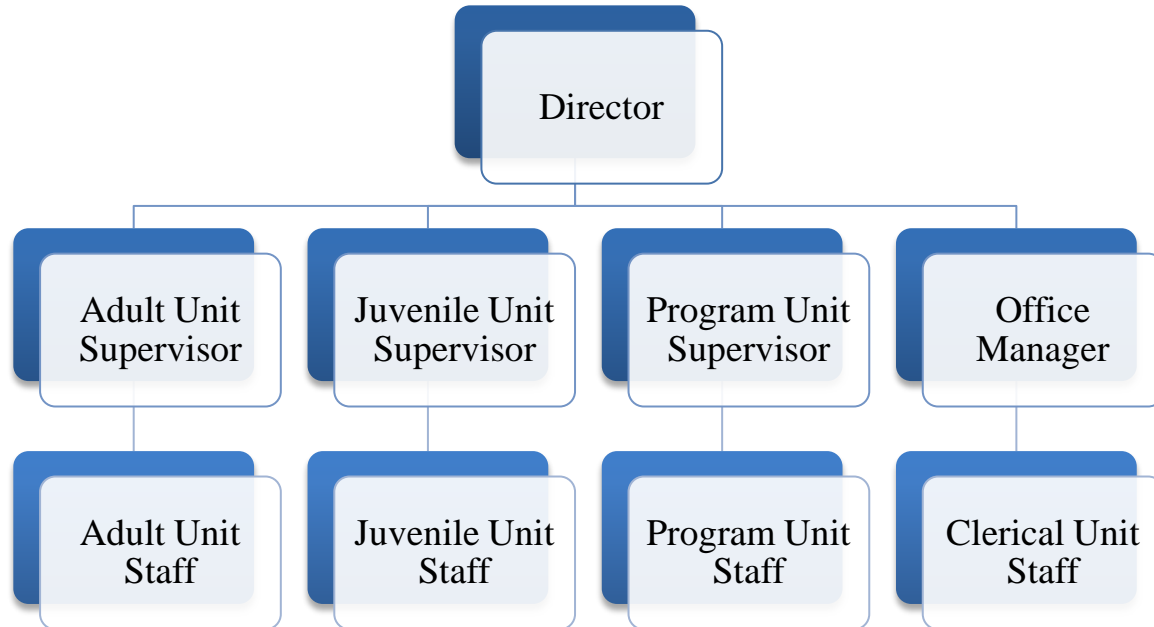

Wright County is in the Tenth Judicial District, along with Anoka, Chisago, Isanti, Kanabec, Pine, Sherburne, and Washington Counties. There are forty-five judges in the district, making it the second largest of Minnesota's ten judicial districts. Wright County is the third largest bench in the district with the Honorable Judges Stephen M. Halsey, Kathleen A. Mottl, Michele A. Davis, Geoffrey Tenney, Elizabeth H. Strand, and Catherine McPherson presiding.

The Chief Judge of the Tenth Judicial District is the Honorable John C. Hoffman, Washington County. The Tenth Judicial District Administrator is Mike Moriarity, assisted by Assistant District Administrator Nancy McCabe.

Wright County lies in East Central Minnesota, covering more than 716 square miles with farmland, rivers, and lakes characterizing the landscape. The county government operated on a budget of **\$102,850,890**. Wright County is one of the eighty-seven counties in Minnesota. According to the 2010 census, the population for the county was 124,700. There are five seated commissioners in the county: Christine Husom (District 1), Patrick Sawatzke (District 2), Mark Daleiden (District 3), Michael Potter (District 4), and Charles Borrell (District 5).

Organizational Structure

Adult Unit – Supervises adult offenders convicted of misdemeanors, gross misdemeanors, felony-level DWIs, and felony-level charges that are reduced to gross misdemeanors or misdemeanors.

Juvenile Unit – Supervises juvenile offenders, ages 10 to 21, who have been adjudicated delinquent or received a stay of adjudication for any offense.

Program Unit – Supervises low-risk adult and juvenile offenders and all pre-trial conditional release offenders. The unit also provides educational and community service programs.

Clerical Unit – Provides support to the different units of the probation department and Director. They record statistical data through the use of Court Services Tracking System, and perform accounting and administrative functions for the department.

Adult Unit

The Adult Unit supervises adult offenders convicted of misdemeanor and gross misdemeanor offenses. In addition, the unit supervises all felony DWI offenders. Probation agents are assigned to specific communities for the supervision of offenders. Besides supervising, agents conduct pre-sentence investigations, drug/alcohol testing, and preparing and submitting probation violations. Agents work closely with community partners that include prosecutors, law enforcement, human services, schools, local businesses, and mental health and drug/alcohol treatment providers.

*Staffing change in 2013

There were 3,055 adult offenders, including diversion and court-ordered cases, supervised in 2013; 46% percent of those were non-Wright County residents.

The Adult Unit continues to implement best practices with all of our offenders within the criminal justice system. As part of adult probation, the Adult Unit has used Evidence Based Practices since 2008. The Level of Services/Case Management Inventory (LSCMI) risk/needs assessment is an extensive tool used on all offenders to assess risk/needs and to help determine the appropriate supervision level for each offender. Agents also assist offenders in developing a case plan to encourage them to work on other risk areas in their lives. In doing so, they can live a more productive life and, hopefully remain out of the criminal justice system in the future.

Agents trained in Motivational Interviewing I and II have found that the initial interviews with the offenders are more thorough. The additional information gathered has been vital for data sharing with other criminal justice organizations, case planning with offenders, for court at sentencing and violation hearings, and overall supervision of offenders on our caseloads.

We have found that caseloads have remained consistent, but the information and overall knowledge of their offenders has improved greatly. That overall knowledge has improved the supervision and accountability to high-risk offenders in our community.

Intensive Supervision Program

The Intensive Supervision Program (ISP) began in 2001. The goal of ISP is rehabilitation and providing the opportunity for offenders to connect to and be involved in the community, while holding them accountable and monitoring their behavior. In 2013, 81 offenders were supervised. ISP offenders are required to enroll in electronic home monitoring, attend Alcoholics Anonymous, and participate in a chemical dependency group. Other resources, such as The Work Force Center, are available based on their needs.

Overall Statistics

- ◆ A total of 326 offenders have been supervised since program began.
- ◆ Out of those 326 offenders, 35 (11%) were females and 291 (89%) were males.

2013 Jail Treatment Program

The Wright County Jail Treatment Program was implemented on June 1, 2010.

In 2013, the Wright County Jail Treatment Program operated by New Beginnings went through a change. New Beginnings withdrew its participation effective June 1, 2013. Central Minnesota Mental Health Center now operates the program as an outpatient option for offenders in jail.

See statistics on pages 17 through 23.

Wright County Coordinated Community Response to Domestic Violence

Wright County Criminal Justice System has worked to develop a coordinated county response to domestic violence. The Wright County representatives from Court Services, County Attorney, Wright County Sheriff's Office, Buffalo Police Department, Annandale Police Department, Howard Lake Police Department, and a Wright County Commissioner have been working together since 2009 to improve accountability for offenders and increase victim safety.

Court Services and the Coordinated Community Response (CCR) team have continued to emphasize the need for continued training and awareness for all in the criminal justice system.

As part of the CCR program, the Wright County Sheriff's Department, Buffalo Police Department, and Annandale Police Department have all been trained in the Maryland Lethality Assessment Tool for first responders. This tool has assisted all members in the criminal justice system to help determine the lethality of the offenders entering the criminal justice system. This tool has been utilized by law enforcement, county attorney, district court, and probation.

To date, there have been 109 offenders who have successfully completed the program since October of 2010, with 39 offenders completing the program in 2013.

Court Services had 151 new adult and 17 new juvenile domestic-related cases that were supervised in 2013. There were a total of 372 adult offenders and 26 juvenile offenders on probation for domestic-related offenses.

The Batterer's Intervention Program's (BIP) first group held was in October of 2010. This program was coordinated and continues to operate closely with the following agencies: Wright County Court Services, Central MN Mental Health Center, Wright County Attorney's Office (Victim Services), Rivers of Hope, and the Department of Corrections. BIP uses the Duluth Model Curriculum and there are currently four full-time groups running in the Buffalo and Monticello areas.

See statistics on page 24.

Juvenile Unit

The Juvenile Unit supervises juvenile offenders placed on probation for all levels of offenses, from petty misdemeanors to delinquencies. We follow the Community Supervision model of probation by assigning caseloads to agents by school districts. Schools represent the “community.” Regionalizing by school district allows our agents to develop positive working relationships with school staff. We continue to use evidence based practices to determine frequency of our offender contact and identifying offender needs.

Staff	Title – Areas of Responsibility
B. Abe Abrahamson	Juvenile Unit Supervisor
Jake Bohnsack	Senior Agent - Intensive Supervision Program (ISP), Cokato, Maple Lake
Carter Diers	Master Agent - Albertville, Otsego, Rogers, St. Michael, Rockford
Nathan Miller	Career Agent - Monticello, Annandale, Clearwater, South Haven
Brian Stoll	Master Agent - Buffalo, Hanover, Montrose, Delano
Melissa Holthaus	Senior Agent - Buffalo, Hanover, Montrose, Howard Lake, Waverly

In 2013, our out-of-home placements were down and the Juvenile Unit made a conscientious effort to utilize community resources for education, counseling, and programming. wRight Choice continues to be a successful program and garners statewide attention. wRight Choice has been a positive connection between school districts and probation. Brian Stoll and Carter Diers are trainers for TruThought, which is not only used as a disposition alternative, but also used exclusively at wRight Choice to help students identify thinking errors and replace them with responsible thinking. wRight Choice Teacher, Leesa Sherman, and Carter Diers have also trained participating schools in the use of TruThought to better prepare students for their return to school.

Safe Schools continues to be the foundation of our relationship with school districts throughout the county. Safe Schools is an example of a true model of collaboration and networking between school, community, and county agencies.

Juvenile Unit Intensive Supervision Program

The Juvenile Intensive Supervision Program (ISP) continues to provide additional support to high-risk young offenders leaving long-term out-of-home placements or those remaining in the community who need extra support to prevent out-of-home placement. Changes were made in the middle of 2013 due to referrals for high-risk offenders being down. ISP was combined with a traditional half-time position to meet the needs of a growing traditional caseload. After this transition, ISP Agent, Jake Bohnsack, was supervising 8 ISP youth and 15 delinquent youth. He also uses TruThought in working with ISP offenders. ISP continues to use weekly face-to-face contact, electronic monitoring, random drug screens, and community resources for youth offenders' integration back into the community.

In 2013, we had eight offenders complete ISP successfully. Since the inception of ISP, the following statistics have been garnered:

- ◆ 79% successfully completed ISP with no need for long-term placement.
- ◆ 71% of the youth involved in ISP did not commit another delinquent offense.
- ◆ 121 juveniles have completed ISP since it began in 2001.

Juvenile Placements

Wright County Court Services continues to use resources to reduce out-of-home placements. The Wright County Court Services Juvenile Screening Team is used to review potential out-of-home cases and discuss best options to meet the offender's least restrictive needs. Case Plans are also put together to rehabilitate the offender and keep the community safe.

Wright County Court Services is fortunate to be part of a ten-member joint powers agreement and currently contracts three beds at East Central Regional Juvenile Center (ECRJC), also known as Lino Lakes.

See statistics on pages 25 through 30.

Adult and Juvenile Group and Administrative Supervision

- Community Service Work
- Juvenile Restitution Program
- Monthly Group Meetings

Bail Evaluations

Wright County Court Services completed 499 Pre-Trial Bail Evaluations on in-custody defendants who had been charged with a misdemeanor, gross misdemeanor, or felony level “crime of violence” in Minnesota. Wright County Court Services also completes bail evaluations on controlled substance charges.

Bail evaluations provide information about the defendant to the Court. The reports detail their address, phone number, employment, criminal history, and other information which the Court needs to know about the defendant or current situation to determine release conditions.

Bail Evaluations assist the Court in determining if the offender will be released on their own recognizance pending their future court date, or if the Court will set a bail amount that the defendant will need to post in order to be released from custody.

In addition to bail evaluations, Wright County Court Services provided the Court with 519 criminal history checks on all new arrests that are not person offenses.

See statistics on page 31.

Pre-Trial Supervision

The Court may order offenders to a variety of pre-trial supervision programs:

- ◆ Random chemical testing
- ◆ Pre-Trial supervision
- ◆ Pre-Trial electronic alcohol monitoring
- ◆ Global Positioning Supervision (GPS)
- ◆ House arrest

Pre-trial supervision was expanded in 2013 to include the following offenses:

- ◆ DWI
- ◆ Domestic Abuse
- ◆ Fleeing Peace Officer
- ◆ Violation of Order for Protection
- ◆ Violation of Harassment Order
- ◆ Malicious Punishment
- ◆ Lottery Fraud
- ◆ Dissemination of Pornography
- ◆ Assault
- ◆ Obscenity
- ◆ Harassment
- ◆ Criminal Sexual Conduct
- ◆ Deprive Parental Rights

Seventeen miscellaneous pre-trial conditional release cases were supervised in 2013. Those miscellaneous cases were offenses that are not listed above. Supervision involved completing home studies, weekly meetings, and following up on any conditions ordered by the Court in 2013.

See statistics on page 32.

Random Chemical Testing

The random chemical testing program is for adult and juvenile offenders who are ordered to no use or possession of alcohol or controlled substances. Offenders are chosen randomly for the testing as a part of their probation.

In 2013, there were 154 adult cases supervised on the conditional release Color Code Chemical Testing Program. There were 968 urine tests collected from pre-trial offenders. Sentenced adults and juveniles can also be placed on the program. In 2013, there were 974 samples collected from supervised individuals. A grand total of 1,942 urine samples were collected by agents. Pre-Trial agents also conduct preliminary breath tests (PBTs) for alcohol as designated by the Court.

Adult Offender Global Positioning System Program

The Global Positioning System (GPS) Program is still one of the most innovative programs in Minnesota. It is used to provide additional pre- and post-sentence supervision to high-risk domestic assault, harassment, and stalking offenders. This device has the ability to locate and track a person's exact location 24 hours a day, 7 days a week. It assists in assuring safety for victims and helps to hold the offenders accountable. Victims reported they feel safer while offenders are on the program. One victim stated, "Thank you so much. Because he is on GPS, I actually sleep at night and do not have to worry he is going to be in my house."

Adult Diversions

The Adult Diversion Program is a program where Court Services works in conjunction with the Wright County Attorney's Office and the City of Buffalo Prosecutor. It gives an opportunity for first-time adult offenders to admit their offense, receive an educational consequence, and keep the offense off their criminal record. This program assists in reducing collateral consequences for individuals and reduces the number of cases the Court needs to address.

Choices

Choices is an adult early intervention program that explains and maps the criminal justice system, showing first-time offenders the collateral consequences that may occur if they continue to make poor choices. This program is done in collaboration with the Wright County Sheriff's Department and the Wright County Attorney's Office. In 2013, 48 individuals completed this program.

See statistics starting on page 32.

Juvenile Diversion Program

The Juvenile diversion program allows juvenile offenders the option to divert from Court. Upon successful completion of conditions, their cases are dismissed. There were 52 females and 85 males that participated in this program, for a total of 137 cases.

Teen Court

Teen Court is a peer court diversion program allowing volunteer students from Wright County a chance to become involved in the criminal justice system in a positive way and have a positive impact on their peers. Teen Court holds the offender accountable for their actions, allows peers (not the system) to determine the sentence, and gives the juvenile offender a chance to keep the offense off their record. There were 66 youth offenders referred to the Teen Court program; however, 49 of those 66 offenders participated in the program. Also, 88 youth jurors and 1 adult parent volunteered throughout the year. Wright County Court Services held new juror trainings, with 11 newly trained youth volunteers in 2013.

Community Conferencing

Community Conferencing is directed by a trained facilitator and involves a face-to-face meeting between the victim(s), offender(s), affected community member(s), and/or parties in conflict. Community conferencing allows parties a chance to tell their story and discuss the impact the behavior has had on them and work together to repair any harm. It also provides an opportunity for the parties to gain a sense of closure, healing, and regain a sense of security. During 2013, 26 conferences were held with 49 offenders and 44 victims that participated in this program.

Juvenile Payables

Juvenile Payable offenses include Curfew, Tobacco, and ATV offenses. They are referred to Court Services from the Wright County Attorney's Office and allow youth to pay a fee for their offense rather than go to Court. The fees collected are placed in a fund that can be used by juvenile offenders to meet their restitution obligation, as described in the next section. There were 132 juveniles who participated in this program. A total of \$7,045 was collected through the payable program.

See statistics starting on page 35.

Juvenile Restitution Program

The Juvenile Payables Program was developed to allow certain juvenile offenders to pay a fine for their offense (tobacco, curfew, ATV), and that fine was placed into the “Juvenile Restitution Program.” Juvenile offenders are allowed to complete community service on the Wright County Juvenile Work Crew and earn \$10/hour toward restitution, which is paid directly to victims. In 2013, 22 juveniles participated in the program, completing approximately 744 community service hours equaling \$7,433.56 of restitution paid out to victims.

TruThought

TruThought is a cognitive behavior program teaching youth through a corrective thinking curriculum. Court Services uses this curriculum through a program that helps youth identify thinking barriers and explore responsible thinking. Two of our agents have been certified to educate Court Services’ agents about this curriculum. Eight school districts were also trained in TruThought. Agents taught 26 classes throughout 2013. There were 56 juveniles that attended this program, 52 juveniles completed the program.

Community Service Work

The Court may order community service work as a condition of probation or in lieu of court fines. They may also perform community service work as a condition of a diversion or in lieu of probation fees. Offenders may perform community service work at non-profit organizations throughout Wright County, as approved by Court Services.

In 2013, there were 296 adult offenders who completed 6,654 hours of community service work.

- ◆ 5,254 hours for ordered conditions
- ◆ 914 hours in lieu of Court Services’ fees
- ◆ 487 hours in lieu of court fines

In 2013, there were 302 juvenile offenders who completed 3,759 hours of community service work.

- ◆ 162 juveniles on work crew (2,119 hours).
- ◆ 140 juveniles worked in the community (1,640 hours)

In 2013, the total value of community service work completed by adults and juveniles was \$104,124.

See statistics on page 39.

Clerical Unit

The Clerical Unit provides support to the entire department. Clerical staff direct phone calls; assign offenders to agents; set up new cases; and record and analyze demographic, statistical, probation, and financial data. Clerical staff are often the first contact defendants have with the department. Administrative functions facilitated for the department include repairs, purchasing, billing, fee collections, phones, computer systems, office design, supplies, budgeting, filing, and records management.

Clerical Unit Staff	Title – Areas of Responsibility
Nancy Tallman*	Clerical Supervisor, Confidential Administrative Secretary to Director

Michelle Pramann	Office Tech II - Receptionist and Juvenile Unit Secretary

*Nancy Tallman retired in February of 2013. Jessica Miller began as the new Office Manager on April 1, 2013.

Clerical staff completed multiple tasks throughout the year. They compiled and submitted eight quarterly reports and three annual reports to maintain/obtain state grant money for the department. A total of \$549,422.80 was collected, recorded, and distributed in probation, program, and detention fees. Staff investigated and followed up on 22 expungement requests. There were 206 Human Services record checks (foster home, day care, etc) performed. They continued to initiate the testing of signature pads to help with preparation for paperless transition. Staff collected \$57,327.77 through Revenue Recapture. All unit staff participated in various capacities on county or user group committees.
